Digital Genres New Literacies And Autonomy In Language Learning:

Digital Genres, New Literacies and Autonomy in Language Learning María José Luzón, M^a Noelia Ruiz-Madrid, María Luisa Villanueva, 2010-07-12 The exponential growth in the amount and complexity of information transmitted and shared on the Internet and the capabilities afforded by new information technologies result in the continuous emergence of new genres and new literacy practices that call for new models of genre analysis and new approaches to teaching literacy and language where language learning autonomy has to take centre stage Any pedagogical approach which seeks to develop autonomy in online language learning should also be concerned with the development of new literacies with raising an awareness of digital texts and with the cognitive processes learners engage in when constructing meaning in hypertext The purpose of this volume is to lay the foundations for an approach to online language learning which draws on the analysis of digital texts and of the practices and strategies involved in using such texts With this aim in mind this book incorporates and draws relations between research on digital genres autonomy electronic literacies and language learning tasks combining theoretical reflections with pedagogical research The chapters in this volume written by researchers from different academic traditions report research concerning digital genres new literacy skills and the design of webtasks for effective language learning These chapters will be useful resources for researchers and doctoral students interested in the development of autonomous language learning in digital environments

Language Education in Digital Spaces: Perspectives on Autonomy and Interaction Carolin Fuchs, Mirjam Hauck, Melinda Dooly, 2021-09-09 This book brings together contributions on learner autonomy from a myriad of contexts to advance our understanding of what autonomous language learning looks like with digital tools and how this understanding is shaped by and can shape different socio institutional curricular and instructional support To this end the individual contributions in the book highlight practice oriented empirically based research on technology mediated learner autonomy and its pedagogical implications They address how technology can support learner autonomy as process by leveraging the affordances available in social media virtual exchange self access or learning in the wild Hutchins 1995 The rapid evolution and adoption of technology in all aspects of our lives has pushed issues related to learner and teacher autonomy centre stage in the language education landscape This book tackles emergent challenges from different perspectives and diverse learning ecologies with a focus on social and educational in equality Specifically to this effect the chapters consider digital affordances of virtual exchange gaming and apps in technology mediated language learning and teaching ranging from instructed and semi instructed to self instructed contexts The volume foregrounds the concepts of critical digital literacy and social justice in relation to language learner and teacher autonomy and illustrates how this approach may contribute to institutional objectives for equality diversity and inclusion in higher education around the world and will be useful for researchers and teachers alike

Mobile Learning und Fremdsprachenunterricht Susanne Heinz, 2018

Optimizing Online English Language Learning and Teaching Maria-del-Mar Suárez, Walaa M.

El-Henawy,2023-04-14 This book focuses on English as a Foreign Language EFL and provides advice on how to approach EFL teaching in the online context Coronavirus has accelerated e learning significantly and has highlighted the need of appropriate web tools that will allow teachers to present their material either synchronously or asynchronously while also adequately assess their students At the same time there is a need of tools that can engage the students and motivate them to actively participate in the lesson With e learning being a rather new challenge for both teachers and students this book provides research and practice based chapters with strategies techniques approaches and methods which have proven to be successful in e learning environments maximizing their impact Apart from presenting research results with strong pedagogical implications on online or blended English language learning and teaching the book also trains educators on utilizing online tools and managing online learning environments and platforms

Digital Games in Language Learning and Teaching Hayo Reinders,2012-06-12 This edited volume explores how digital games have the potential to engage learners both within and outside the classroom and to encourage interaction in the target language This is the first dedicated collection of papers to bring together state of the art research in game based learning

Autonomy and Foreign Language Learning in a Virtual Learning Environment Miranda Hamilton,2013-04-11 Digitalised learning with its promise of autonomy enhanced learner choice independence and freedom is an intuitive and appealing construct but closer examination reveals it to be a rather simplistic proposition raising the following questions What do we mean by autonomy What are we implying about the role of the teacher the classroom and interaction between learners What do we understand about the impact of technology on the ecology of the learning environment This book describes the use of a Virtual Learning Environment VLE by a group of advanced English language learners in Mexico comparing what students thought and what they did in response to the technology The theoretical aim of the book is to work towards the construction of a theory of the development of autonomy and virtual learning in an EFL context Enhanced understanding about the relationship between autonomy and technology has the potential to inform academics software designers materials writers teacher educators and teachers and to help learners in their quest to acquire a foreign language

Language Online Carmen Lee,David Barton,2013-04-17 In Language Online David Barton and Carmen Lee investigate the impact of the online world on the study of language The effects of language use in the digital world can be seen in every aspect of language study and new ways of researching the field are needed In this book the authors look at language online from a variety of perspectives providing a solid theoretical grounding an outline of key concepts and practical guidance on doing research Chapters cover topical issues including the relation between online language and multilingualism identity education and multimodality then conclude by looking at how to carry out research into online language use Throughout the book many examples are given from a variety of digital platforms and a number of different languages including Chinese and English Written in a clear and accessible style this is a vital read for anyone new to studying online language and an essential textbook for undergraduates and

postgraduates working in the areas of new media literacy and multimodality within language and linguistics courses

Language Learning in the Digital Age Virginia H. Y. Kwok, 2023-03-21 In the digital age technology has become essential for online learning and teaching for learners at all levels of education YouTube is highly popular amongst young people in Hong Kong and across the globe In foreign language acquisition how do learners perceive the use of YouTube for English learning in out of class settings This book reports the findings of a case study of learners at a university in Hong Kong from students perspectives The detailed qualitative study adopts a narrative inquiry approach in order to examine students perceptions factors shaping them and the extent to which perceptions affect language learning practices on YouTube The implications highlighted here include developing five qualities for learners that facilitate autonomous and experiential learning out of class training that supplements in class learning and whole person development The findings shed light on understanding students needs and interests for an improved quality of language teaching that meets the challenges of the twenty first century
