Takahashi,Robert J. Howlett,Lakhmi C. Jain,2012-05-20 This volume contains the Proceedings of the 5th International Conference on Intelligent Interactive Multimedia Systems and Services KES IIMSS 12 The Conference was jointly organised by Nagoya University in Japan and the KES International organisation and held in the attractive city of Gifu The KES IIMSS conference series series chairs Prof Maria Virvou and Prof George Tsihrantzis presents novel research in various areas of

intelligent multimedia system relevant to the development of a new generation of interactive user centric devices and systems The aim of the conference is to provide an internationally respected forum for scientific research in the technologies and applications of this new and dynamic research area

Mobile Cloud Computing, Services and Engineering Dr. Anand Rajavat, Dr. Jigyasu Dubey, Dr. Abhishek Singh Rathore, 2025-02-14 Mobile Cloud Computing MCC merges the strengths of mobile and cloud computing to address the inherent limitations of mobile devices such as limited processing power storage and energy capacity By offloading computation and storage tasks to remote cloud servers MCC enhances the functionality and accessibility of mobile applications across diverse industries including healthcare smart cities education and finance MCC operates through cloud computing models Infrastructure as a Service IaaS Platform as a Service PaaS and Software as a Service SaaS to deliver scalable cost effective solutions tailored to user needs Key advancements in MCC include its integration with big data analytics IoT and edge computing enabling real time processing reduced latency and sophisticated mobile solutions The paradigm also addresses critical security and privacy concerns by leveraging encryption compliance frameworks and collaborative efforts among stakeholders Innovations such as 5G networking and hybrid cloud models have further optimized MCC's performance expanding its potential in applications like telemedicine e learning fintech and sustainable energy management Key highlights of this book are Cloud Computing Architectures and Models Cloud Services and Applications Cloud Computing for Big Data and Analytics Cloud Computing for Internet of Things IoT Cloud Computing for Smart Cities Cloud Computing for Healthcare Applications E Learning and Education

Biometric Solutions David D. Zhang, 2002-08-31 Biometric Solutions for Authentication in an E World provides a collection of sixteen chapters containing tutorial articles and new material in a unified manner This includes the basic concepts theories and characteristic features of integrating formulating different facets of biometric solutions for authentication with recent developments and significant applications in an E world This book provides the reader with a basic concept of biometrics an in depth discussion exploring biometric technologies in various applications in an E world It also includes a detailed description of typical biometric based security systems and up to date coverage of how these issues are developed Experts from all over the world demonstrate the various ways this integration can be made to efficiently design methodologies algorithms architectures and implementations for biometric based applications in an E world

Pattern Recognition and Signal Processing in Archaeometry: Mathematical and Computational Solutions for Archaeology Papaodysseus, Constantin, 2011-10-31 Computer science especially pattern recognition signal processing and mathematical algorithms can offer important information about archaeological finds information that is otherwise undetectable by the human senses and traditional archaeological approaches Pattern Recognition and Signal Processing in Archaeometry Mathematical and Computational Solutions for Archaeology offers state of the art research in computational pattern recognition and digital archaeometry Computer science researchers in pattern recognition and machine intelligence will find innovative research methodologies

combined to create novel and efficient computational systems offering robust exact and reliable performance and results Archaeologists conservators and historians will discover reliable automated methods for quickly reconstructing archaeological materials and benefit from the application of non destructive automated processing of archaeological finds

AI-based Image and Video Coding Wei Gao,2025-09-20 Unlocking the future of image and video coding with AI based Image and Video Coding Methods Standards and Applications we can explore the revolutionary impact of deep learning technologies on image and video compression This book is a must read for researchers practitioners and students eager to stay ahead of the curve in an ever evolving field where deep learning and artificial intelligence are setting new benchmarks in coding efficiency With an unparalleled focus on the intersection of deep learning and multimedia coding this book offers cutting edge insights into the latest techniques and standards driving progress in the industry From the core principles of coding technologies to advanced topics like 3D and multimodal coding human and machine vision oriented compression and compression artifacts removal it covers all the related essentials Special attention is given to the practical aspects of implementations open source projects and standardization efforts from leading organizations like IEEE JPEG MPEG and MPAA Whether you are a scholar a professional in the multimedia industry or a student with a foundation in computer science and electrical engineering this book equips you with the fundamental knowledge and tools to master the latest advancements in AI based image and video coding You can gain a deeper understanding of how deep learning reshapes the future of image and video coding and explore new possibilities of optimizing compression performances for both humans and machines

Web Services Security and E-Business Radhamani, G.,Rao, G. S.V. Radha Krishna,2006-10-31 Many techniques algorithms protocols and tools have been developed in the different aspects of cyber security namely authentication access control availability integrity privacy confidentiality and non repudiation as they apply to both networks and systems Web Services Security and E Business focuses on architectures and protocols while bringing together the understanding of security problems related to the protocols and applications of the Internet and the contemporary solutions to these problems Web Services Security and E Business provides insight into uncovering the security risks of dynamically created content and how proper content management can greatly improve the overall security It also studies the security lifecycle and how to respond to an attack as well as the problems of site hijacking and phishing

Computer Vision for Multimedia Applications: Methods and Solutions Wang, Jinjun,Cheng, Jian,Jiang, Shuqiang,2010-10-31 This book presents the latest developments in computer vision methods applicable to various problems in multimedia computing including new ideas as well as problems in computer vision and multimedia computing Provided by publisher Intelligent Data Security Solutions for e-Health Applications Amit Kumar Singh,Mohamed Elhoseny,2020-09-01 E health applications such as tele medicine tele radiology tele ophthalmology and tele diagnosis are very promising and have immense potential to improve global healthcare They can improve access equity and quality through the connection of healthcare facilities and healthcare professionals

diminishing geographical and physical barriers One critical issue however is related to the security of data transmission and access to the technologies of medical information Currently medical related identity theft costs billions of dollars each year and altered medical information can put a person's health at risk through misdiagnosis delayed treatment or incorrect prescriptions Yet the use of hand held devices for storing accessing and transmitting medical information is outpacing the privacy and security protections on those devices Researchers are starting to develop some imperceptible marks to ensure the tamper proofing cost effective and guaranteed originality of the medical records However the robustness security and efficient image archiving and retrieval of medical data information against these cyberattacks is a challenging area for researchers in the field of e health applications

Intelligent Data Security Solutions for e Health Applications focuses on cutting edge academic and industry related research in this field with particular emphasis on interdisciplinary approaches and novel techniques to provide security solutions for smart applications The book provides an overview of cutting edge security techniques and ideas to help graduate students researchers as well as IT professionals who want to understand the opportunities and challenges of using emerging techniques and algorithms for designing and developing more secure systems and methods for e health applications Investigates new security and privacy requirements related to eHealth technologies and large sets of applications Reviews how the abundance of digital information on system behavior is now being captured processed and used to improve and strengthen security and privacy Provides an overview of innovative security techniques which are being developed to ensure the guaranteed authenticity of transmitted shared or stored data information
