Financial Accounting John Wild 6th Edition:

Investment Analysis & Portfolio Management Frank K. Reilly, Keith C. Brown, Brindha Gunasingham, Asjeet Lamba, Dr Frank Elston, 2019-11-19 This first Asia Pacific edition of Reilly Brown's *Investment Analysis and Portfolio Management* builds on the authors' strong reputations for combining solid theory with practical application and has been developed especially for courses across the Australia New Zealand and Asia Pacific regions. The real world illustrations and hands on activities enhance an already rigorous empirical approach to topics such as investment instruments, capital markets, behavioural finance, hedge funds and international investment. The text also emphasises how investment practice and theory are influenced by globalisation.

The Practice of Lending Terence M. Yhip, Bijan M. D. Alagheband, 2020-02-25 This book provides a comprehensive treatment of credit risk assessment and credit risk rating that meets the Advanced Internal Risk Based AIRB approach of Basel II. Credit risk analysis looks at many risks and this book covers all the critical areas that credit professionals need to know including country analysis, industry analysis, financial analysis, business analysis and management analysis. Organized under two methodological approaches to credit analysis: a criteria based approach which is a hybrid of expert judgement and purely mathematical methodologies and a mathematical approach using regression analysis to model default probability, the book covers a cross section of industries including passenger airline, commercial real estate and commercial banking. In three parts, the sections focus on hybrid models, statistical models and credit management. While the book provides theory and principles, its emphasis is on practical applications and will appeal to credit practitioners in the banking and investment community alongside college and university students who are preparing for a career in lending.
