*Health* Niraj Kumar,2013-09-13 Health of the people is the most important indicator of the development of a nation Health is  
a state of complete physical mental and social well being and not merely the absence of disease or infirmity as defined by  
WHO The state of health of an individual or population depends upon complex interaction of the physical biological political  
and social domains The environment affects the human health in a big way People tend to be most susceptible to illness when

physically or mentally stressed Stress energy and immunity form a closely knit network Through his experimental findings the author has brought out this intricate concept of interdependence of biotic living and abiotic non living factors in an ecosystem resulting in an impact on human health in an explicitly marvelous manner As a result a new word Biogeogens has been coined bio for living biotic geo for non living abiotic geographical climatic environment and gens for the interactive proceeds of the two The content included herein is directly concerned with the societal health and gives a clue to many socio psycho health problems presently not handled with care It also defines a multidimensional approach for dealing with many psychosomatic and health problems
