What the Boss Doesn't Want Us to Know Tom Juravich, Olivia Geho, Andrew Gorry, 2025-04-01. After the labor movement faded away in the lives of most Americans, organizing is back. Workers are organizing at Starbucks, Amazon, Apple, and Google, to name just a few. But it's going to take more than picket signs and marches in front of stores and corporate headquarters to win real union contracts with real protections for these workers. To beat these firms and others like them, workers and their unions will need to learn much more about their adversaries, to identify key vulnerabilities, and build effective campaigns to win. *What the Boss Doesn't Want Us to Know* is the first volume to teach the basics of conducting this research and how to use it to build winning campaigns. It explores how to identify corporate decision makers, profit centers, growth plans, and secondary targets, and the kinds of power that activists can use to beat even global giants. *What the Boss Doesn't Want Us to Know* is for more than just professional researchers and campaigners. This book offers up a radical new practice for investigating employers. The authors
