A Comprehensive Study of Female Offenders Martin Guevara Urbina, 2008 Few empirical studies have focused on women in prison In the last few years though a number of studies have demonstrated that there are fundamental differences

between male and female prisoners in an ever changing penal system Consequently there has been a need for more comprehensive studies of female offenders for three primary reasons 1 imperative research gaps remain to be bridged 2 the female prison experience is not constant and 3 prison rates for female offenders especially minority offenders have increased considerably in the last few years A central goal of this book then is to provide a balance to the existing literature and research on female prisoners in the United States and to an extent abroad focusing primarily on female offenders and using data gathered from the Wisconsin Department of Corrections The book utilizes a comprehensive investigative approach by equating the experience of female offenders by the totality of circumstances within an historical institutional political and ideological context The critical objective is to offer an inclusive analysis of the things that are considered by female inmates to be the most significant before during and after their incarceration as a way of better understanding the reasons that lead to their first incarceration as well as subsequent incarcerations By reading this book the reader will have a greater understanding of the many challenges facing female inmates as well as the relationship between inmates correctional officers and by extension society in general Also provided is a series of policy recommendations throughout the book particularly in the concluding chapter and epilogue

Effective Teaching in Correctional Settings Robert G. Thomas, Robert Murray Thomas, 2008 This book has a dual purpose to identify problems faced by people who teach in correctional institutions and to propose solutions for those problems The intent of this book is to help both new instructors as well as current ones perform their jobs effectively The book is divided into three parts The first part introduces the reader to the field of correctional education describing correctional efforts in America the kinds of facilities the inmate populations and the controversies including advocates and critics over providing educational opportunities A description is provided on the kinds of educational and rehabilitation programs including the varieties and sources of teachers and administrators Part two explores the teaching process and how students are analyzed on their abilities learning disorders gender ethnicity gang membership length of imprisonment and reasons for enrolling in educational programs Each chapter is divided into two major sections the first section studies the perspective and the second section concerns problems and solutions Each problem is posed as a brief case study that includes the nature of a particular problem factors affecting decisions about what a teacher might do and one or more proposed solutions Part three summarizes key concepts from the previous chapters and speculates about the state of correctional education in the years ahead It will be of interest to those who contemplate a career in correctional education those who are already in correctional education or those who simply want to learn what teaching in a prison jail or juvenile facility is all about
