law based the choice of law rule will focus on either the law of the place or alternatively the legal system with which the unjust factor has its closest and most real connection Jurisdiction is an area of increasing importance in private international law and the book provides a thorough analysis of the topic of jurisdiction for restitutionary claims both under the Brussels Convention as well as the traditional common law rules contained in the Civil Procedure Rules This is an important and timely new work for all lawyers interested in restitution private international law and international commercial litigation
