England **Introduction to Religious Studies** Harvey J. Sindima, 2012-07-10 In *Introduction to Religious Studies* Harvey J. Sindima provides an unconventional approach to the study of world religions. Often books and courses on religious studies focus on the major world religions. This approach however frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia. These less widespread religions are commonly described in pejorative terms such as primitive religions or non literate religions. Focusing solely on well known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world. *Introduction to Religious Studies* pulls together the diverse religious experience of Africans, Native Americans and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students. Under each theme or topic examples are drawn from religions of salvation as well as African and Native American religious traditions. This book provides students with a deep wide and very rich introduction to religious studies. **Magic, Witchcraft, and Religion** Arthur C. Lehmann, James Edward Myers, 1989 A comparative reader that takes an anthropological approach to the study of religious beliefs both strange and familiar.

Traditional Ritual as Christian Worship Burrows, William R., Shaw, R. Daniel, 2018-03-27 A necessary task of missionaries in recent decades has been to help local Christians inculturate or contextualize their faith although the criteria for doing so often came from outside the context in which new believers developed their understanding of Christianity. Highlighting the voices of non Western scholars this work recognizes the importance of ritual and ceremony in the life of communities that seek to worship God in ways that reflect culturally appropriate responses to Scripture. The contributors, some of missiology's leading lights, discuss rituals, beliefs and practices of diverse peoples supporting the conclusion that orthodox Christianity is hybrid Christianity. *Public Performances* Jack Santino, 2017-12-15 *Public Performances* offers a deep and wide ranging exploration of relationships among genres of public performance and of the underlying political motivations they share. Illustrating the connections among three themes: the political, the carnivalesque and the ritualesque, this volume provides rich and comprehensive insight into public performance as an assertion of political power. Contributors consider how public genres of performance express not only celebration but also dissent, grief and remembrance; examine the permeability of the boundaries between genres and analyze the approval or regulation of such events by municipalities and other institutions. Where the particular use of public space is not sanctioned or where that use meets with hostility from institutions or represents a critique of them, performers are effectively reclaiming public space to make public statements on their own terms, an act of popular sovereignty. Through these concepts *Public Performances* distinguishes the sometimes overlapping dimensions of public symbolic display: Carnival and thus the carnivalesque is understood to possess tacit social permission for unconventional or even deviant performance on the grounds that normal social order will resume when the performance concludes. Ritual and the ritualesque leverages a deeper symbolic sensibility, one believed or at least intended.

Making Magic Randall Styrers, 2004-01-15 Since the emergence of religious studies and the social sciences as academic disciplines the concept of magic has played a major role in defining religion and in mediating the relation of religion to science Across these disciplines magic has

regularly been configured as a definitively non modern phenomenon juxtaposed to distinctly modern models of religion and science Yet this notion of magic has remained stubbornly amorphous In *Making Magic* Randall Styers seeks to account for the extraordinary vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that this persistence can best be explained in light of the Western drive to establish and secure distinctive norms for modern identity norms based on narrow forms of instrumental rationality industrious labor rigidly defined sexual roles and the containment of wayward forms of desire Magic has served to designate a form of alterity or deviance against which dominant Western notions of appropriate religious piety legitimate scientific rationality and orderly social relations are brought into relief Scholars have found magic an invaluable tool in their efforts to define the appropriate boundaries of religion and science On a broader level says Styers magical thinking has served as an important foil for modernity itself Debates over the nature of magic have offered a particularly rich site at which scholars have worked to define and to contest the nature of modernity and norms for life in the modern world

Power Encounter in Spiritual Warfare Charles H. Kraft,2017-05-18 Acceptance of Christianity in Southern Polynesia during the eighteenth century proceeded rapidly without missionary activity This fact attracted the attention of Alan Tippett who served for twenty years as an Australian missionary to the Fiji Islands What he found was that the key to their conversion lay in the fact that without missionary presence the south sea islanders responded to demonstrations of what Tippett learned to call power encounters These were contests some staged some not staged in which there was a power encounter between the true God and the gods of the islanders in which the traditional gods were defeated Kraft here discusses the fact that this power principle applies much more widely
