**Class, Race, and the Civil Rights Movement** Jack M. Bloom, 2019-07-09 Revised and updated the award winning historical analysis of the civil rights movement examining the interplay of race and class in the American South In *Race Class and the Civil Rights Movement* sociologist Jack M Bloom explains what the civil rights movement was about why it was successful and why it fell short of some of its objectives With a unique sociohistorical analysis he argues that Southern racist practices were established by the agrarian upper class and that only when this class system was undermined did the civil rights movement become possible He also demonstrates how the movement was the culmination of political struggles beginning in the Reconstruction era and influenced by the New Deal policies of the 1930s Widely praised when it was first published in 1987 *Race Class and the Civil Rights Movement* was a C Wright Mills Second Award winning book and also won the Gustavus Myers Center Outstanding Book Award In this second edition Bloom updates his study in light of current scholarship on civil rights history He also presents an analysis of the New Right within the Republican Party starting in the 1960s as a reaction to the civil rights movement

*Black Power Music!* Reiland Rabaka, 2022-06-13 *Black Power Music* Protest Songs Message Music and the Black Power Movement critically explores the soundtracks of the Black Power Movement as forms of movement music That is to say much of classic Motown soul and funk music often mirrored and served as mouthpieces for the views and values as well as the aspirations and frustrations of the Black Power Movement *Black Power Music* is also about the intense interconnections between Black popular culture and Black political culture both before and after the Black Power Movement and the ways in which the Black Power Movement in many senses symbolizes the culmination of centuries of African American politics creatively combined with and ingeniously conveyed through African American music Consequently the term Black Power music can be seen as a code word for African American protest songs and message music between 1965 and 1975 Black Power music is a new concept that captures and conveys the fact that the majority of the messages in Black popular music between 1965 and 1975 seem to have been missed by most people who were not actively involved in or in some significant way associated with the Black Power Movement
