Cybersecurity Discussion Cases T. Grandon Gill, Cybersecurity affects us all every business school and citizen This book a collection of discussion case studies presents in depth examinations of eleven cybersecurity related decisions facing managers and researchers It is organized around the common cybersecurity framework Identify Protect Detect Respond and Recover It also includes two cases that specifically involve education These cases place the reader in the position of the decision maker featured in each case None of them have a right answer Instead they are specifically designed to 1 Serve as the basis of discussion either in an formal educational context and as part of an industry training program 2 Help participants refine their judgment skills allowing them to make better decisions when encountering similar contexts in their future career

Information Security and IT Risk Management Manish Agrawal,Alex Campoe,Eric Pierce,2014-04-21 This new text provides students the knowledge and skills they will need to compete for and succeed in the information security roles they will encounter straight out of college This is accomplished by providing a hands on immersion in essential system administration service and application installation and configuration security tool use TIG implementation and reporting It is designed for an introductory course on IS Security offered usually as an elective in IS departments in 2 and 4 year schools It is not designed for security certification courses

**Secure Knowledge Management In The Artificial Intelligence Era** Ram Krishnan,H. Raghav Rao,Sanjay K. Sahay,Sagar Samtani,Ziming Zhao,2022-02-22 This book constitutes the refereed proceedings of the 9th International Conference On Secure Knowledge Management In Artificial Intelligence Era SKM 2021 held in San Antonio TX USA in 2021 Due to the COVID 19 pandemic the conference was held online The 11 papers presented were carefully reviewed and selected from 30 submissions They were organized according to the following topical sections intrusion and malware detection secure knowledge management deep learning for security web and social network

**Information Systems Outsourcing** Rudy Hirschheim,Armin Heinzl,Jens Dibbern,2007-06-13 Four years have been passed away since the first edition of this book has been published While certain key issues on IS sourcing like determinants and application service provision have become more mature from an academic and industry perspective additional topics have arisen on the horizon In particular offshoring and business process outsourcing have led to numerous insightful publications which offer a valuable and indispensable holistic sourcing perspective Thus the second edition of our outsourcing book deals with enduring themes new perspectives and global challenges In addition to classical themes like Sourcing Determinants Part I Relationship Aspects Part II and Experiences Part III we felt it worthwhile to add three new parts They cover information systems outsourcing from a Vendor and Individual Perspective Part IV Application Service Providing Part V as well as Offshoring and Global Outsourcing Part VI Again we have thoughtfully tried to arrange a compilation of contemporary outsourcing research as a primer and a platform for scientific discourse In contrast to the first edition this book is not the outcome of an International Conference but rather an update of important and relevant perspectives Since

the Third International Conference on Outsourcing of Information Services will take place 2007 in Heidelberg Germany it may be considered as an epilogue for further interactions and discussions      Information Security and IT Risk Management  
Manish Agrawal,Alex Campoe,Eric Pierce,2014-04-21 This new text provides students the knowledge and skills they will need to compete for and succeed in the information security roles they will encounter straight out of college This is accomplished by providing a hands on immersion in essential system administration service and application installation and configuration security tool use TIG implementation and reporting It is designed for an introductory course on IS Security offered usually as an elective in IS departments in 2 and 4 year schools It is not designed for security certification courses      *INFORMS Annual Meeting* Institute for Operations Research and the Management Sciences.
