Realism and Psychological Science David J. F. Maree,2020-06-02 The book provides an argument why realism is a viable metatheoretical framework for psychological science By looking at some variations of realism such as scientific realism critical realism situational realism and Ferraris new realism a realist view of science is outlined that can feature as a metatheory for psychological science Realism is a necessary correction for the mythical image of science responsible for and maintained by a number of dichotomies and polarities in psychology Thus the quantitative qualitative dichotomy scientist practitioner polarity and positivist constructionist opposition feed off and maintains a mythic image of science on levels of practice methods and metatheory Realism makes a clear distinction between ontology and epistemic access to reality the latter which easily fits with softer versions of constructionism and the former which grounds science in resistance and possibility loosely translated as criticism By taking science as a critical activity an issue such as the quantitative imperative loses its defining force as a hallmark of

science it provides epistemic access to certain parts of reality In addition essentially critical activities characteristic of various qualitative approaches may be welcomed as proper science Academics professionals and researchers in psychology would find value in situating their scholarly work in a realist metatheory avoiding the pitfalls of traditional methodologies and theories *Übergang vom Studium ins Berufsleben - Beratung und Recruiting* Michael Scharpf, Bernd-Joachim

[Family Counseling](#) Brian Canfield, 2020-01-21 Intercultural Perspectives on Family Counseling expands cultural awareness in the practice of family counseling by offering cultural specific perspectives for addressing common issues that emerge in dyadic marital and family relationships around the globe The topics illuminated in the book serve to sharpen cultural mindfulness and expand the reader's knowledge and understanding of intercultural family counseling issues Each chapter examines a couple or family related clinical issue offering clinical intervention strategies within the context of a specific cultural population By representing various national and cultural identities this book showcases a transcultural

understanding of family Students and practicing marriage and family counselors and therapists will benefit greatly from this clinical resource that exposes them to the similarities and differences in addressing client issues across cultures     **A Psychospiritual Healing manual with integral psychedelic therapy** ,2024-03-28 The invitation to write a foreword for this book came at an opportune time in the development of the field of psychedelic assisted therapy amid the emergence of the future iteration of mental health services delivered by the promises of the psychedelic renaissance Also alive in this context are the substantial individual social and cultural repercussions of a global pandemic on mental health and human behavior A growing body of research shows encouraging clinical results in treating trauma depression demoralization end of life existential issues addiction and eating disorders using MDMA psilocybin ketamine and other psychedelic medications However the field of psychedelic assisted therapy has gained accelerated support from donors the medical establishment and corporate investors in recent years Along with the enthusiasm recognition funding and media coverage directed toward psychedelic assisted therapy ethical standards the lack of adequate training and issues of accessibility sustainability diversity and inclusion are increasingly becoming part of the movement s forefront These gaps in the emerging field highlight the need for more guidance and structure around ethical clinical and social considerations for these innovative treatments This book can serve as a cornerstone for the field of psychedelic assisted therapy at this time This essential contribution offers a depth oriented somatic and relational therapeutic approach emphasizing the imperative of ethical standards the relevance of the therapeutic use of touch the significance of the unconscious in the construction of symbolic meaning and intersubjective processes and the need for trauma informed approaches while centering liberation psychology and decolonial practices The topics covered in this book and the themes embraced by the authors are of great relevance and are not yet comprehensively articulated in existing publications on psychedelic assisted therapy The diverse authors of this book approach their chapters based on their diverse social and cultural identities as well as their extensive clinical experience providing psychedelic assisted therapy in government approved clinical research private practice and nonprofit organization settings Their contributions aim at a vision of psychedelic assisted therapy centered on decolonial practices attuned to the somatic imaginal cultural and relational dimensions of being allowing the emergence of transpersonal processes Each chapter elaborates practical and theoretical aspects of this treatment modality through a unique theoretical framework providing inspiration and guidance to readers working in this field as well as those compelled to psychedelic work for personal transformation

*Child and Adolescent Therapy* Jeremy P. Shapiro,2025-02-11 The most comprehensive textbook on the theory research and practice of child and adolescent therapy *Child and Adolescent Therapy Science and Art* is a unique textbook that introduces readers to all the major theoretical orientations CBT family systems etc and applies them to the common diagnostic categories anxiety disruptive behavior etc Rather than championing one therapeutic approach above the others it identifies the strengths and applicability of each with an emphasis on matching strategies to client needs and preferences

The central theme is the integration of outcome research and clinical reasoning to choose techniques and personalize counseling for each client. The vast literature on therapy outcomes is distilled into user friendly summaries with clear conclusions and implications for treatment planning. The book models the thought processes of expert clinicians as they integrate theoretical principles, research findings and observations of clients in real time to conceptualize cases, make clinical decisions and decide what to say next. Theoretical concepts, empirically supported treatments and best practices are translated into numerous examples of therapist statements and conversations between counselor and client. Unlike edited books with chapters by different authors, this work is an integrated whole with connections between chapters, a building block approach to learning and unifying themes developed throughout the book. The Third Edition has been thoroughly updated to reflect current research and clinical advances. It features new material on The Internal Family Systems therapeutic model, Modular psychotherapies, Transdiagnostic approaches, Head to head comparisons between empirically supported therapies. This textbook offers a thorough and practical introduction for graduate students in psychology, counseling and social work. It also serves as a valuable resource for practicing mental health professionals who want to fill gaps in their knowledge, catch up with the outcome research and learn new techniques. Purchasers get access to a companion website where they can download therapy handouts; instructors can also download teaching materials such as questions for discussion and exam questions.

**Ich-Entwicklung für effektives Beraten** Thomas Binder, 2023-05-15. Für eine erfolgreiche prozessorientierte Beratung bedarf es einer Reihe von nichtfachlichen Kompetenzen, so sehen es Forschung und Praxis. Thomas Binder untersucht, inwiefern diese Kompetenzanforderungen im Zusammenhang mit der Persönlichkeitsentwicklung stehen. Dafür bildet Loevingers' Modell der Ich-Entwicklung eines der besterforschten Modelle der Persönlichkeitsentwicklung den Bezugsrahmen. Auf der Grundlage des aktuellen Forschungsstands zum Ich-Entwicklungsmodell analysiert Thomas Binder Zusammenhänge mit Beratungskompetenzen. Er untersucht Kompetenzanforderungen ausgewählter Beratungsverbände daraufhin, ob sich in ihnen Aspekte von Ich-Entwicklung zeigen. Zusätzlich analysiert er systematisch empirische Studien, in denen Ich-Entwicklung und beraterrelevante Aspekte zusammengefasst wurden. Die Ergebnisse zeigen einen klaren Zusammenhang zwischen Beratungskompetenzen und Ich-Entwicklung. Mit zunehmender Ich-Entwicklung kommt es zu einer höheren Beratungskompetenz.
