individuals live only to consume But are they wrong In Me Me Me Jon Lawrence re tells the story of England since the Second World War through the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us Me Me Me makes that case that it s time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past **Timber and Wood-working Machinery** ,1888 **Education Policy, Practice and the Professional** Jane Bates,Sue Lewis,Andy Pickard,2011-03-31 This introductory textbook explores education policy looking at where we came from where we are and where we are going In this introduction to educational policy practice and the professional the authors focus first on historical policy from the state s first interventions in education through to Thatcherism and Blair s Education Education They then explore the key contemporary policies of recent times and offers a critique on how they have worked in practice before moving to look at the hysteria that often surrounds education policy with focus on media representation and the effects this has for the teaching profession Commentaries and case studies are presented throughout providing an accessible link to what it was really like to learn teach and live at the time the policy was in place This title is an essential reading for all undergraduate education studies students Catalog of Copyright Entries.
