As Per NEP (Karnataka) Syllabus "MANAGEMENT PRINCIPLES AND APPLICATIONS" B.Com. First Semester, Mr. Mustaq Mulla, 2023-02-04 Organizations have a wide range of objectives and they frequently focus their efforts and resources on achieving these objectives. Organizations have both human and nonhuman resources: plant, equipment, land, money, etc. that are used to achieve target and deadline-oriented goals. The force that combines resources in support of organizational objectives is management. It is a method of achieving goals with and via people. When people collaborate inside an organisation, management is required. A person who is competent of managing organised activities, whether it be a company operation, religious organisation, military outfit, or a social organisation, must carry out the management duties which include planning, organising, directing, and regulating. These functions are carried out at all levels of an organisation regardless of its nature or size. All cooperative projects require management services.
