Rethinking Management Boris Kaehler, Jens

Grundeir, 2025-08-27 The concept of management is well established and very familiar to scholars and practitioners alike. However, it is also very generic with no agreed upon definition and no consistency in the demarcation between it and its sub-concepts and other similar terms. Building on an in-depth analysis of literature, this book establishes a precise understanding of management and systematically integrates its sub-concepts of organization, governance, strategic management, human resource management, leadership, and organizational culture. It thus provides a clear theoretical and conceptual framework helping researchers to theorize and practitioners to implement corporate management models.

The Routledge Companion to Strategic Human Resource Management

John Storey, Patrick Wright, David Ulrich, 2008-11-19 Combining up-to-date research, innovative content, and practical perspectives, this book is the benchmark by which all other strategic HRM reference works should be measured. Leading figures from around the globe survey the current state of the discipline while also introducing and exploring new cutting-edge themes in order to offer a comprehensive and authoritative overview of the field. Section introductions and integrative critiques pull together the separate themes to provide cross-comparisons between chapters to create a cohesive and well-structured volume. Unlike other texts in this area, *The Routledge Companion to Strategic Human Resource Management* incorporates contributions from leading management and business writers in areas adjacent to human resource management, including strategy, innovation, and organizational learning. These add fresh and challenging insights into HRM themes from key mainstream business and management thinking. The field of strategic HRM is thus enriched and extended by this volume. Focusing on the interplay between theory and practice, this book is an essential resource for researchers and students studying human resource management and strategy.
