

The Noun – The Gender

The Noun – The Gender in Spanish

According to the Merriam-Webster online dictionary, the noun (which means “sustantivo” in Spanish) is a word that refers to a thing, a person, an animal, a place, a quality, an idea, or an action. Example: Maria, cow, Boston, active, justice, teaching.

In Spanish, the nouns have **gender** (masculine or feminine) and **number** (singular or plural) and as there is no clear rule that helps us to identify the gender of a word, then we are guided by the following:

- Words ending in ‘**o**’ are usually masculine and words ending in ‘**a**’ are feminine. Example: carro (m), libro (m), casa (f), familia (f).

There are exceptions and they are the words that end in ‘**ma**’ but are masculine. Example: problema (problem), lema (motto), dilemma (dilemma), poema (poem).

- The words ending in ‘**ión**’, ‘**dad**’ and ‘**tad**’ are feminine. Example: operación (operation), humanidad (humanity), amistad (friendship).
- When we mention people, we form the feminine in the following way from the masculine word, examples: profesor = profesora; señor = señora; niño = niña.
- Nouns that end in ‘**e**’ can be changed to an ‘**a**’ or add ‘**sa**’, for example: jefe = jefa (chief) or duque = duquesa (duke – duchess).
- If the masculine form ends in a consonant, the feminine is usually formed by adding an ‘**a**’: jugador = jugadora (player); escritor = escritora (writer); conversador = conversadora (conversationalist).

Gender Of Nouns Spanish Pyramid Answers:

The New British French Gender Guide Thomas Pullan, 1845 *AfroLatinas and LatiNegras* Concetta Bondi, Rosita Scerbo, 2022-11-28 AfroLatinas as a subject of scholarship are woefully underrepresented and this edited volume AfroLatinas and LatiNegras Culture Identity and Struggle from an Intersectional Perspective offers an important and timely intervention. The consistent attention to AfroLatinas agency across all the chapters is empowering and attentive to the difficult circumstances of asserting that agency and to the tremendous breadth of what agency can look like. The authors argue for the analytical power of the concept of Intersectionality while considering the hegemonic pressures on AfroLatinidad and the essentializing moves that an intersectional approach enables evading overthrowing and resisting systems of power. Through the study of multiple cultural expressions of Blackness such as photography colonial inquisition records dance music fiction non fiction poetic memoir and religious expression and throughout different regions of the Americas the chapter contributors of this book consider the relationship that social and historical processes such as sovereignty and colonialism have on narrative and cultural production. Rosita Scerbo Concetta Bondi and the contributors acknowledge that racial and gender equity cannot exist without Intersectionality and the inclusion of activist voices broadens this volume's reach and links theory to praxis. **ReJoycing** Rosa Bollettieri Bosinelli, Harold F. Mosher Jr., 2014-07-11 In this volume the contributors a veritable Who's Who of Joyce specialists provide an excellent introduction to the central issues of contemporary Joyce criticism.

Entrepreneurship for Rural Start-ups Gloria Jiménez-Marín, Alejandro López Rodríguez, Miguel Torres García, José Guadix Martín, 2021-03-08 Entrepreneurs who start out with no network no money no market and scarce resources find a big contrast between what they read in books and the success stories from the Valley and their reality specially first timers. Most entrepreneurial books focus on the Business Canvas Model simplifying the process of building a start up. Many entrepreneurs who have no previous business experience embrace quick and lean methods without the foundations needed to build solid value proposals. This book stands out because it deals with entrepreneurship in environments far removed from large cities with fewer infrastructures connections and resources but which also need companies that provide services to citizens and society. This book focuses on the basics treating each part of the business canvas as a discipline itself that must be mastered. The book illustrates key lessons learned and offers guidance on essential topics for new venture success in mainstream markets. It expands critical lessons learned and points of guidance across several key topics for new venture creation. Noteworthy is the role of context financial understanding building business development skills and start up communications. Entrepreneurship for Rural Start ups will be of interest to students academics and researchers in the field of entrepreneurship and will be of use to individuals looking to start a local business to take advantage of the rural environment and the possibilities it offers. The Software Encyclopedia , 1988 **Beyond Tribalism** Celia de Anca, 2012-04-27 In the past neo tribalism in a Western context has been feared as leading to blindness or irrationality. In today's business world

tribalism represents a conscious separation of the individual ego for the good of the community This is the key to understanding the success of the most innovative businesses in the 21st century

Space, Drama, and Empire Javier Lorenzo, 2023-09-15 Spanish poet playwright and novelist Flix Lope de Vega 1562-1635 was a key figure of Golden Age Spanish literature second only in stature to Cervantes and is considered the founder of Spain's classical theater In this rich and informative study Javier Lorenzo investigates the symbolic use of space in Lope's drama and its function as an ideological tool to promote an imagined Spanish national past In specific plays this book argues historical landscapes and settings were used to foretell and legitimize the imperial present in Hapsburg Spain allowing audiences to visualize and plot as on a map the country's expansionist trajectory throughout the centuries By focusing on connections among space drama and empire this book makes an important contribution to the study of literature and imperialism in early modern Spain and equally to our understanding of the role and political significance of spatiality in Siglo de Oro comedia

The Voynich Manuscript as an Example of Oligo-Agglutinative Pasigraphy, Vol. I: A Fuzzy Set Approach to Decryption Steve Bolton, Class III

problems are considered practically unsolvable in cryptology but none has resisted cryptanalytic attack as persistently as the Voynich Manuscript In the first installment of this 4 volume set we present the linguistic and affix analysis that preceded the first complete but approximate translation of the entire manuscript This contrasts with the piecemeal approach of all prior solutions that resulted in wildly divergent translations of minuscule selections of the text This systemic attack on the entirety of the text and its unusual distributional features such as extreme platykurtia which forbid translation into any natural language resulted first in superior transcription stability and an equally stable symbol set based on intensive statistical analysis The encoding scheme employs a 20/22 letter alphabetic script that most closely resembles a slot and filler top down a priori pasigraphic system with oligo agglutinative features that are currently only considered a theoretical possibility in the linguistics field The intricate affixing system is based mainly on precise placement of single letters to denote case roles semantic classes and 3 primary parts of speech exhibiting a strong noun surfeit At the phrase level we find dominant SOV order and head final dependent marked grammar compatible with heavily formatted inline pharmaceutical lists these result in short ranges of actionable information which no competing solution can claim Plant descriptions are demoted in comparison to other herbals in favor of processing and dispensing details This approximate solution is based on fuzzy set analysis techniques integrated with linguistic universals a wide range of common statistics Pareto and Sukhotin scores Zipf slopes Indexes of Coincidence Agglutination and Synthesis and dozens of others and many home brewed fuzzy algorithms implemented in T-SQL and VB-Net after the inadequacy of many advanced data mining techniques was demonstrated Our methodology was validated when the project reached an inflection point beyond which we were able to predict the identities and properties of plants based on the text alone The project ended with plausible identification candidates for 121 of 126 herbal section plants and 7 others elsewhere in the manuscript far beyond that of other published solutions An incredible

100% of the 133 identified plants have dermatological uses These can be divided into prominent subtopics like treatment of bites anthelmintics rheumatism and other musculo skeletal ailments inflammatory skin disorders external and possibly menstrual bleeding excision of blemishes application of cosmetics and cures dispensable in baths The centerpiece of the manuscript is the Rosette Folio which depicts the grand design of a medieval bathhouse keyed to specific astrological timings also defined by satellite diagrams following a precedence hierarchy Each of these uses exhibit telltale polygraph correlations that fall into a handful of semantic hierarchies constructed from highly similar bases such as skin color based diagnostic criteria remedies solutions problems diseases plant parts and the like These findings require 2 volumes to demonstrate and another volume of data and other supplementary material Despite this complexity they culminate in a drastic simplification of the script and the first ever comprehensive translation of the Voynich Manuscript in Volume IV albeit at low resolution
