

The background of the book cover is an abstract composition. The top half features a deep blue sky with faint, white, curved lines suggesting clouds or a stylized horizon. Below this, the background is filled with large, overlapping, organic shapes in various colors: red, yellow, orange, green, and grey. These shapes are outlined with dark, bold lines, creating a sense of depth and movement. The overall effect is a vibrant, modern, and somewhat surreal landscape.

Women of Asia Mehrangiz Najafizadeh, Linda Lindsey, 2018-07-11 With thirty two original chapters reflecting cutting edge content throughout developed and developing Asia Women of Asia Globalization Development and Gender Equity is a comprehensive anthology that contributes significantly to understanding globalization's transformative process and the resulting detrimental and beneficial consequences for women in the four major geographic regions of Asia East Asia Southeast Asia South Asia and Eurasia Central Asia as it gives voice to women and provides innovative ways through which salient understudied issues

pertaining to Asian women's situation are brought to the forefront *The Working Homemaker* Charity Gibson, 2024-09-30

Homemaking is about values and priorities rather than job status. It's time to ditch the notion that women who work outside the home are not homemakers and redefine homemaking as nurturing relationships and cultivating a lifestyle that allows for flourishing within the home as well as eventually extending beyond. Working Christian mamas can nurture thriving homelives for their families by cultivating relationships, setting healthy routines, and embracing simplicity to practice kingdom living. A woman's homelife and work life can be molded to honor God, our families, and our employers when homemaking is valued and prioritized. The Working Homemaker encourages countercultural simplicity, relationships, healthy household rhythms, margin in schedules, and if possible, work flexibility. Homemaking is not just what we do at home but also the choices we make regarding being away from home that allow for our time at home to be life-giving. Who is this book for? Working moms, Moms who are considering employment, Working women who are considering motherhood, Anyone else who wants to better understand and support working moms.

African Handbook of Climate Change Adaptation Nicholas Oguge, Desalegn Ayal, Lydia Adeleke, Izael da Silva, 2021-05-20

This open access book discusses current thinking and presents the main issues and challenges associated with climate change in Africa. It introduces evidence from studies and projects which show how climate change adaptation is being and may continue to be successfully implemented in African countries. Thanks to its scope and wide range of themes surrounding climate change, the ambition is that this book will be a lead publication on the topic which may be regularly updated and hence capture further works. Climate change is a major global challenge. However, some geographical regions are more severely affected than others. One of these regions is the African continent. Due to a combination of unfavourable socio-economic and meteorological conditions, African countries are particularly vulnerable to climate change and its impacts. The recently released IPCC special report *Global Warming of 1.5°C* outlines the fact that keeping global warming by the level of 1.5°C is possible but also suggested that an increase by 2°C could lead to crises with crops, agriculture, food, and rain could drop by 50% in some African countries by 2020, and livestock production could damage water supplies and pose an additional threat to coastal areas. The 5th Assessment Report produced by IPCC predicts that wheat may disappear from Africa by 2080 and that maize, a staple, will fall significantly in southern Africa. Also, arid and semi-arid lands are likely to increase by up to 8% with severe ramifications for livelihoods, poverty eradication, and meeting the SDGs. Pursuing appropriate adaptation strategies is thus vital in order to address the current and future challenges posed by a changing climate. It is against this background that the *African Handbook of Climate Change Adaptation* is being published. It contains papers prepared by scholars, representatives from social movements, practitioners, and members of governmental agencies undertaking research and/or executing climate change projects in Africa and working with communities across the African continent. Encompassing over 100 contributions from across Africa, it is the most comprehensive publication on climate change adaptation in Africa ever produced.
