The law had and has recourse to fairy tales in order to speak of the nomos and its subversion of the politically correct and of the various means that have been used to enforce

the law Fairy tales are a fundamental tool to examine legal procedures and structures in their many failings and errors Therefore we have privileged the term fables of the law just to stress the ethical perspective they are moral parables that often speak of justice miscarried and justice sought Law and jurists are creators of fables on the view that law is born out of the facts ex facto ius oritur so that there is a need for narrative coherence both on the level of the case and the level of legislation or turned the other way around what does it mean if no such coherence is found This is especially of interest given the influx of all kinds of new technologies that are fabulous in themselves and hard to incorporate in traditional doctrinal schemes and thus in the construction of a new reality For Younger Readers ,2008 For Younger Readers; Braille and Girls' Series Fiction and American Popular Culture LuElla D'Amico, 2016-03-01 Girls Series Talking Books, 2010 Fiction and American Popular Culture examines the ways in which young female heroines in American series fiction have undergone dramatic changes in the past 150 years changes which have both reflected and modeled standards of behavior for America's tweens and teen girls Though series books are often derided for lacking in imagination and literary potency that the majority of American girls have been exposed to girls series in some form whether through books television or other media suggests that this genre needs to be studied further and that the development of the heroines that girls read about have created an impact that is worthy of a fresh critical lens Thus this collection explores how series books have influenced and shaped popular American culture and in doing so girls everyday experiences from the mid nineteenth century until now The collection interrogates the cultural work that is performed through the series genre contemplating the messages these books relay about subjects including race class gender education family romance and friendship and it examines the trajectory of girl fiction within such contexts as material culture geopolitics socioeconomics and feminism **Talking Book Topics** ,2011-07
