Woods, Jr., 2025-05-05 This review guide is designed to help students learn the information presented in Fundamentals of Criminal Investigation. For each chapter, a list of key terms and multiple choice and true/false questions is provided. The tenth edition contains 1,786 questions. A new category of fill-in-the-blank questions has been added to the question options. There are now 180 fill-in-the-blank questions in addition to 1,421 multiple choice questions and 185 true or false questions. It is recommended that students first carefully read the chapter, noting essential points and information, then reviewing the key terms, and then returning to the text to clarify unfamiliar topics. Students may proceed to the questions when confident they understand the key terms. Most questions are restatements of information in the chapter. Some may require students to apply the chapter information to derive the correct answer. Students may test their understanding of the material by trying to answer the questions. Correct answers can be found in the back of the study guide. For questions that are answered incorrectly, return to the text and review the appropriate information. Through this process of review and self-testing, students can increase their understanding of the complexities of the criminal investigation process.
