of a text in the first place The topic of the bestseller forces us to examine more closely the relationship between the reading public literary scholarship and the book market On the one hand we have to examine the sales strategies for a book on the other we have to consider what intentions a literary text might pursue first of all and how we as literary scholars have to engage with the text critically From this results also the challenge to re-investigate the foundation of literary scholarship and to take note of premodern and modern bestsellers in their social historical and mental historical relevance without ignoring the textual aesthetics
