English Resource Book , **English Monthly Assessment** , , Bahasa Inggeris , *(Re)imagining Translanguaging Pedagogies through Teacher-Researcher Collaboration* Leah Shepard-Carey,Zhongfeng Tian,2023-06-08 This book presents one possible pathway towards the advancement of translanguaging pedagogies teacher researcher partnerships Although the existing literature alludes to the value of such partnerships there is a lack of research that explicitly describes the complex processes of designing and implementing translanguaging pedagogies in primary and secondary school settings K 12 across various international contexts Through an expanded focus on teacher researcher collaboration and the negotiation process the book unpacks the opportunities and challenges of engaging in contextualized translanguaging designs with reference to broader ideological discourses and systemic structures By promoting and highlighting teacher researcher partnerships as one avenue for improvement and transparency the chapters in this book demonstrate the potential of translanguaging pedagogies in classrooms and further resist the linguistic hierarchies that exist in educational institutions today *Professional Development through Mentoring* Juliana Othman,Fatiha Senom,2019-08-08 In their book Othman and Senom provide a unique insight into the challenges faced by novice English as a Second Language ESL teachers and establish how mentoring can provide effective support for new teachers professional development The book demonstrates the theoretical background for viewing mentoring as a process crucial to novice teachers development particularly to the teachers ability to succeed and grow in a specific workplace environment Using case studies from a Malaysian context this book provides a comprehensive understanding of how mentoring can serve as a strategy to facilitate the transition of novice ESL teachers from a teacher education programme to life in real classrooms Through its case studies the book will examine both theoretical and practical issues for mentors teacher educators policymakers and administrators when mentoring new ESL teachers This book will be valuable to researchers who are particularly interested in exploring novice teachers identity development and experienced teachers to help guide new teachers through the socialization process in their schools *Early Language Learning in Context* David Hayes,2022-08-19 This book critically analyses early school foreign language teaching policy and practice foregrounding the influence of the socioeducational and cultural context on how policies are implemented and assessing the factors which either promote or constrain their effectiveness It focuses on four Asian contexts Malaysia South Korea Sri Lanka and Thailand while providing a discussion of policy and practice in Canada and Finland as a comparison Concentrating on the state school sector it criticises the worldwide trend for a focus on English as the principal or only foreign language taught in primary schools founded on a rationale that widespread proficiency in English is important for future national success in a globalised economy It maintains that the economic rationale is not only largely unfounded and irrelevant to the language learning experiences of young children but also that the focus on English exacerbates system inequalities rather than contributing to their reduction The book argues for a

broader perspective on language learning in primary schools one that values multilingualism and knowledge of regional and indigenous languages alongside a more diverse range of foreign languages This book will appeal to educational policymakers researchers and students interested in early foreign language learning in state educational systems worldwide Write Right ,1982
