**Das Lehrwerk im Fremdsprachenunterricht der Sekundarstufe I** Johanna Lea Korell, 2024-01-15 Lehrwerke stellen im Fremdsprachenunterricht ein mächtiges Instrument dar, das die Lehr- und Lernkultur nachhaltig beeinflusst. Doch noch immer liegen kaum empirische Erkenntnisse zur Wahrnehmung von und zum Umgang mit Lehrwerken durch Lehrende und Lernende vor. Mit der vorliegenden Mixed Methods Studie wird die Interaktion von Lehrkräften mit dem Lehrwerk erstmalig einer multiperspektivischen Betrachtung unterzogen und das Lehrwerk in der Faktorenkomplexion des Fremdsprachenunterrichts ergründet. Anhand der Kombination und Integration quantitativer und qualitativer Erhebungs- und Auswertungsmethoden werden lehrwerkverwendungsbezogene Kenntnisse, Einstellungen, Rezeptions- und Verwendungsweisen von Spanischlehrkräften sowie strukturelle Faktoren der Lehrwerknutzung ermittelt. Die Untersuchung liefert damit zentrale Erkenntnisse, die für die Lehrwerkforschung und Lehrerinnenbildung von Bedeutung sind.

**Study Reading** Eric H. Glendinning, Beverly Holmström, 2004-10-14 This is a second edition of an English for Academic Purposes title first published in 1992. It is designed to improve the reading skills of EFL students at intermediate level or above who are preparing for a university course in English. Study Reading is a course for learners of intermediate level or above who need to develop their reading skills for study or work purposes. The book is divided into three parts. Second Editions of Study Speaking, Listening and Skills will appear at the same time as the Second Edition of Study Reading. The Second Edition of Study Writing will appear in late 2005. World Englishes on the Web Mirka Honkanen, 2020-08-15 World Englishes on the Web focuses on linguistic practices at the intersection of international migration and social media, examining the language repertoires of Nigerians living in the United States and their negotiations of identity and authenticity on a Nigerian web forum. Based on a large corpus of informal multilingual interactive online writing, this book describes how diasporic Nigerians employ African American Vernacular English, Nigerian English, Nigerian Pidgin, and ethnic Nigerian languages in an online community of practice. The project combines corpus linguistic methods, relying on a corpus management tool custom-made for web forum data, with ethnographically informed qualitative analyses of morphosyntactic, lexical, and orthographic features and immigrants' language attitudes and ideologies. It is relevant particularly for linguists and other social scientists interested in World Englishes, the sociolinguistics of globalization, and computer-mediated communication, corpus linguistics, and pidgin and creole languages. *The Digital Reader* Terence W. **Production** Bill Cope,Gus Gollings,2001 The universal process of globalisation brings the peoples cultures and languages of the world closer together But this process does not have to make them more the same The emerging technological tools of digital text creation and manufacture make possible quite the opposite the revival of small cultures and languages This books sets out to argue two things Firstly that the technological commercial and cultural forces of globalisation are moving into a very complex phase in which the effects on the Australian publishing industry may not be what we expect They need not fortify and extend the technological commercial and cultural domination of the multinational corporations and the English language but could become agents which foster increasing cultural diversity greater local commercial autonomy and the revival of local and ancestral languages and culture The second aim of this book is to discuss the technological human skills and enterprise possibilities for Australia a small multicultural country in an economic region where the English language is becoming less important

"A Knot Worth Unloosing" John H. Duff,2019-01-21 In the study of Christian eschatological thought virtually no attention has been given to past interpretations of the biblical phrase the new heavens and earth John Duff uncovers the interpretations of this phrase that were extant in seventeenth century England These interpretations fall into two basic camps those that understood the phrase metaphorically and those that understood the phrase literally Some English divines believed the new heavens and earth referred to the new age of the gospel that commenced in the first century CE At that time God flung open the doors of salvation to Gentiles while at the same time bringing judgment to the Jewish nation for its failure to recognize and embrace Jesus as Messiah This epic transition was fittingly described as a new heavens and earth A second group of English interpreters believed the phrase stood for a yet future time when the political and religious circumstances of the world would change for the betterment of the church for one thousand years The new heavens and earth stood for a future millennium in which Christ would establish his reign over the world prior to the day of resurrection and final judgment Theologians who accepted a literal understanding believed the new heavens and earth described the renovation of the physical creation at the final judgment Among this group differences of opinion existed with

respect to how much of the world would need cleansing what creatures would be restored and of what use would a renovated world serve The idea that the earth and not heaven would be the final abode of the saints emerged among a few obscure writers

**The Re-Attribution of the British Renaissance Corpus** Anna Faktorovich, 2023-05-02 The first accurate quantitative re attribution of all central texts of the British Renaissance Describes and applies the first unbiased and accurate method of computational linguistics authorial attribution Covers 303 texts with 8 106 059 words 123 authorial bylines a range of genres and a timespan between 1510 and 1662 Includes helpful diagrams that visually show the quantitative matches and the identical most frequent phrases between the texts in each linguistic signature group Detailed chronologies for each of the six ghostwriters and the bylines they wrote under including their dates of birth death publications and other biographical markers that explain why each of them was the only logical attribution A full bibliography of the 303 tested texts All of the raw and processed data not only in summary tables inside of the book but also in full on a publicly accessible website <https://github.com/faktorovich/Attribution> One table includes all of the data from the first edition title pages byline printer bookseller date proverbs and the first performance date troupe A table on structural elements across all Shakespeare bylined texts summarizes their plot movements character types settings slang usage primary sources and poetic design percentage of rhyme and hendiadys To explain why these are the first truly accurate re attributions numerous reasons for discrediting previous attribution claims are provided throughout Re Attribution of the British Renaissance Corpus describes a newly invented for this study computational linguistics authorial attribution method and applies it and several other approaches to the central texts of the British Renaissance All of the attribution steps are described precisely to give readers replicable instructions on how they can apply them to any text from any period that they are interested in determining an attribution for This method can be applied to solving criminal linguistic mysteries such as who wrote the Unabomber Manifesto or theological mysteries such as if any of the Dead Sea Scrolls might have been forged by a modern author This method is uniquely accurate because it uses 27 different quantitative tests that measure a text s dimensions and its similarity or

divergence to other texts automatically without the statisticians being able to skew the outcome by altering the experiment's analytical design. Re Attribution guides researchers not only on how to perform the basic calculations but also how to perform the biographical and documentary research to derive who among the potential bylines in a single signature group is the ghostwriter while the others are merely ghostwriter contractors or pseudonyms. Reliable accuracy is achieved by also performing other types of attribution tests to check if these alternative approaches validate or contradict the 27 tests findings. Non quantitative tests discussed include deciphering the hidden implications of contemporary pufferies as well as comparing structural elements such as characters plot and element borrowings. Part II presents a revised version of the history of the birth of the theater in Britain by reviewing forensic accounting evidence in Philip Henslowe's Diary and the documented history of homicidal lending practices and government corruption connected with troupes and theaters. Parts III-VIII explain precisely how this series derived that the British Renaissance was ghostwritten by only six linguistic signatures: Richard Verstegan, Josuah Sylvester, Gabriel Harvey, Benjamin Jonson, William Byrd, and William Percy. The parts on each of these ghostwriters not only explain how their biographies fit with the timelines of the texts being attributed to them but also provide various types of evidence that explains their motives for ghostwriting. And Part IX returns for an intricate analysis of a few pseudonyms or ghostwriting contractors who were uniquely difficult to exclude as potential ghostwriters. In parallel, these chapters question the reasons these individuals would have needed to purchase ghostwriting services. The complete series on British Renaissance Re Attribution and Modernization by Anna Faktorovich is a remarkable accomplishment. Based on her own unbiased method of computational linguistic authorial attribution, she has critically examined an entire collection of texts many previously inaccessible and untranslated to modern English. From a variety of distinct factors that have been ignored or unnoticed in the past, she identifies a group of ghost writers behind many miss attributed Renaissance works. Of particular interest are works traditionally attributed to William Shakespeare. Dr Faktorovich is a prolific writer, very well informed in English literature, philology, and literary criticism, and she is clearly thorough and detail oriented. Her re attribution and modernization series demonstrates solid scholarship, fresh perspective, and willingness to challenge conventional thought and methodology. Midwest Book Review, Lesly F Massey, December 2021. I have long had an interest in linguistics and enjoy reading the frequent 'Who really wrote Shakespeare's works'. Therefore, this book was extremely interesting to me. So my recommendation is that if you have an interest in linguistics and scholarly research, you will love this book. Very interesting and well laid out book. LibraryThing Early Reviewers, February 2022. Anna Faktorovich, PhD, is an English professor who previously published *Rebellion as Genre* and *Formulas of Popular Fiction*. She is also the Director and Founder of Anaphora Literary Press. *CALL for widening participation: short papers from EUROCALL 2020*.
