Ethics for the New Millennium Dalai Lama XIV Bstan-'dzin-rgya-mtsho,1999 The Dalai Lama masterfully articulates some of the most important principals that are set forth by the Buddhist religion into understandable everyday language Ethics for the New Millennium Dalai Lama,Dalai Lama XIV Bstan-'dzin-rgya-mtsho,1999 The Dalai Lama masterfully articulates some of the most important principals that are set forth by the Buddhist religion into understandable everyday language

Ethics for the New Millennium Dalai Lama,Dalai Lama XIV,Alexander Norman,1999-08-01 Only during a time when we have so little faith in one another so little confidence in the willingness of others to do what is right can a strong voice emerge to dispel disillusionment and show us hope It takes a person of great courage such as the Dalai Lama to face these times and say there is hope There is an argument to be made for basic human goodness The number of people who spend their lives being violent or dishonest is tiny compared with the number of people the vast majority we don t hear about who would wish others only well According to the Dalai Lama our survival has depended and will depend on our basic goodness Much more effective and important than legislation is our regard for one another s feelings at a simple human level Here I refer to the capacity we all have to empathize with one another to arrive at the inability to bear the sight of another s suffering The Dalai Lama presents an ethical system that not only is based on commonsense and reason as opposed to religious dogma or punitive legislation but has at its goal ultimate happiness for every individual The Dalai Lama demonstrates that human beings are better than we think we are and that a society and a life that cultivate love and compassion are completely within our reach If enough people operate from the understanding of their original purity a global revolution of peace will ensue **The Seductiveness of Virtue** John J. Fitzgerald,2016-12-15 John J Fitzgerald addresses

here one of life s enduring questions how to achieve personal fulfillment and more specifically whether we can do so through ethical conduct He focuses on two significant twentieth century theologians Rabbi Abraham Joshua Heschel and Pope John Paul II seeing both as fitting dialogue partners given the former s influence on the Second Vatican Council s deliberations on the Jews and the latter s groundbreaking overtures to the Jews in the wake of his experiences in Poland before and during World War II Fitzgerald demonstrates that Heschel and John Paul II both suggest that doing good generally leads us to growth in various components of personal fulfillment such as happiness meaning in life and freedom from selfish desires There are however some key differences between the two theologians John Paul II emphasizes more strongly the relationship between acting well and attaining eternal life whereas Heschel wrestles more openly with the possibility that religious commitment ultimately involves anxiety and sadness By examining historical and contemporary analyses including the work of the Fourteenth Dalai Lama the philosopher Peter Singer and some present day psychologists Fitzgerald builds a narrative that shows the promise and limits of Heschel s and John Paul II s views Ancient Wisdom, Modern World Dalai Lama XIV Bstan-'dzin-rgya-mtsho,2001-01 At a time and in a culture where science and technology have taken over from religious

belief when ethics are understood primarily in terms of aesthetic choice or legality how are we to formulate moral principles to guide us in our daily lives Though religion can certainly help in this the Dalai Lama demonstrates that there are universal principles we can draw on which transcend the dilemma of belief or unbelief And whilst many have been content to speak of spiritual matters as something mysterious or evanescent the Dalai Lama explains his approach in terms that are as clear and concise as they are compelling With wit gentle good sense and with penetrating insight the Dalai Lama shows how the truths that have stood the test of generations of practise can provide us with the tools to live happy fulfilled and meaningful lives In the process it becomes apparent that he does not merely espouse the feelgood religiosity some accuse him of The reader is left admiring not just the wisdom of the author but the wisdom of the culture he represents **The Philosophy of Martin**

Information Barbara Rockenbach, Tom Mendina, 2015-10-03 Stephen Almagno's career as a professor of library science began at the University of Pittsburgh in 1971. In 1990 he became the first professor in the United States to teach an information ethics course in a library and information science program. Almagno's work in the area of information ethics was recognized at the 2001 Ethics of Electronic Information in the 21st Century symposium held at the University of Memphis on October 18-21, 2001 upon the occasion of his retirement from the University of Pittsburgh. The essays in this book were presented at the symposium honoring Almagno. The first section of the book features papers that pay special tribute to Almagno. The second contains papers on library issues and ethics such as the ethics of electronic information in China and eastern Europe, the organizations that represent information professionals, the ethics of user privacy in the digital library, and ethical implications of e-commerce to name just a few. The third section covers topical issues such as Internet plagiarism, ethical hacking, and the security justification, social democracy, and information media policy, and the ethics of dialogue among others.

An Ethic of Trust W. Royce Clark, 2021-09-02 The proximity of many different religions, each with its own unique metaphysics and ethics, did not exist in the ancient world when those religions came into existence. Many went uncontested for centuries and many merged with governments to shape the laws for the entire people of a culture or nation. Theocracies can exist only where there is no plurality of religions or where the minor religions do not mind the dominant one dictating policy for all citizens. In the world's two greatest democracies, the U.S. and India, despite the diversity that a democratic society presupposes, a majoritarian religion continues to assert an advantage over others to shape the social contract. An Ethic of Trust: Mutual Autonomy and the Common Will to Live addresses this problem, moving beyond sheer utilitarianism. W. Royce Clark argues that because of religious pluralism, a nation's ethic must be grounded on freestanding principles. This means that its base must be universally obvious and its principles must be agreeable to all citizens. The base is instinctual: the will to live, which is present in all living creatures, and the recognition of that can influence people to agree to a voluntary unity and a couple of other basic principles to which all would agree: principles which embrace differences within relationships, whether in a marriage or a constitutional republic. But to voluntarily agree to these requires a genuine mutual trust and mutual autonomy, which can maximize unity while allowing individual liberties. To arrive at this point, Clark blends scholars who are often cast as opposites: Albert Schweitzer, Friedrich Nietzsche, and John Rawls, to forge a new path for an inclusive ethic for a nation within which both the religious and non-religious will have equal freedom and stability.
