Efficiency of Ethiopian Garment Factories. Evidence from Addis Ababa Tesfaye Fenta, 2017-03-20

Master's Thesis from the year 2016 in the subject Economics Job market economics grade 1.0 course Development Economics language English abstract The study measures the level of technical efficiency and its determinants in Ethiopian garment factories The study employs both Data Envelopment Analysis DEA and Stochastic Frontier Analysis SFA to compute the technical efficiency of Ethiopian garment factories and Tobit model to examine the determinant of technical inefficiency of the garment factories based on a data set of ninety four garment factories over the period of 2014-2015 The study used Akaike Information Criteria AIC to opt for the best function between Cobb-Douglas and Translog functions The result reveals that Cobb-Douglas production functions better explain the production behavior of garment factories The DEA estimation shows that the mean technical efficiency of garment factories was around to be 0.43 while such figure in SFA goes as high as 0.89 and the research indicated that export do not promote technical efficiency Ethiopian garment factories The research indicated that DEA is more appropriate for small garment factors while SFA is more suitable to large and medium garment factories The result from DEA model indicates that educational level of production manager local fabric sourcing collaboration with similar factories and membership status with Ethiopian textile and garment institute have positive contribution to efficiency On the other hand wage rate of semi-skilled labour years of establishments number of production line educational level of the manager and size have a negative effect to efficiency While the result from SFA indicates that

wage rate of semi unskilled year of establishment size and educational level of the manger have the positive contribution to technical efficiency On the other hand owners citizenship and collaboration work with similar factories are a negative contribution to SFA technical efficiency The research recommends that output can be increased by improving the technical efficiency of Ethiopian garment factories To do so for large and medium scale firms attention should be given to improve the wage rate of semi unskilled labour educational level of the managers and minimize collaboration with similar firms while educational level of the production manager local fabric sourcing collaboration with similar factories and membership status of textile and garment institute should be improved for small firms **Fibre2Fashion - Textile Magazine - November**

2018 Fibre2Fashion,2018-11-01 Sri Lanka as an apparel exporting country stands out on two counts First the apparel export sector is virtually synonymous with quality The second aspect is its own vibrant fashion ecosystem The November 2018 issue of Fibre2Fashion looks at trends and challenges of Sri Lanka s apparel exports The realities are much different in Ethiopia the other country that features in this issue Trade event Green Fashion India and Q A with footwear brands VOR and Simone Castelletti as well as other regular features are also covered Fibre2Fashion magazine the print venture of Fibre2Fashion com since 2011 is circulated among a carefully chosen target audience globally and reaches the desks of top management and decision makers in the textiles apparel and fashion industry As one of India s leading industry magazines for the entire textile value chain Fibre2Fashion Magazine takes the reader beyond the mundane headlines and analyses issues in depth

Ethiopia Paulos Milkias,2011-05-18 This book is the most complete accessible and up to date resource for Ethiopian geography history politics economics society culture and education with coverage from ancient times to the present Ethiopia is a comprehensive treatment of this ancient country s history coupled with an exploration of the nation today Arranged by broad topics the book provides an overview of Ethiopia s physical and human geography its history its system of government and the present economic situation But the book also presents a picture of contemporary society and culture and of the Ethiopian people It also discusses art music and cinema class gender ethnicity and education as well as the language food and etiquette of the country Readers will learn such fascinating details as the fact that coffee was first domesticated in Ethiopia more than 10 000 years ago and that modern Ethiopia comprises 77 different ethnic groups with their own distinct languages Industrialization in Ethiopia: Awakening - Crisis - Outlooks Reimer Gronemeyer,Michaela Fink,2023-11-23

Ethiopia though remaining one of the least urbanised countries in the world has taken impressive actions to transform the state into a more industrialized nation Several industrial parks have been built in recent years throughout the whole country The textile sector is one of these sectors The textile industry is expected to provide employment for hundreds of thousands and thus improve people s living conditions and contribute to the development of the country Major reason for asian investors to shift their focus to Ethiopia are extremely low wages and the lower production costs involved The Ethiopian textile industry has to deal with high rates of labor turnover and absenteeism From the perspective of the mostly

international managers the reason for turnover and absenteeism is often attributed to the mindset of the predominantly female workforce A research project financed by the German Bundesministerium f r wirtschaftliche Zusammenarbeit und Entwicklung is looking at reasons and possible measures to solve this problem Results of this project conducted at the University of Giessen by Michaela Fink and Reimer Gronemeyer together with Ethiopian colleagues are presented in this book Experts from Ethiopia and Germany are presenting the history of the textile industry in Ethiopia and the coming development All this is framed by the discussion of present crisis Covid 19 the war in Ethiopia

The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

Quality Education and International Partnership for Textile and Fashion Xinfeng Yan, Lihong Chen, Hafeezullah Memon, 2023-07-02 This book mainly focuses on SDG4 Quality Education and aims to understand the past present and future of textile fashion apparel and related study majors of East African countries Professors and field experts in textile engineering of selected countries describe the potential and prospects of textile education and how it can lead to internationalization in the various chapters It also discusses the textile university alliance and the potential for international education related to textiles in the developing region With updated illustrations images data graphs and tables this book serves as a reference book for universities with textile engineering major in countries throughout the world

Sub-Saharan Africa: Factors Affecting Trade Patterns of Selected Industries, Second Annual Report, Inv. 332-477 , Sustainability in Art, Fashion and Wine Annamma Joy, 2024-03-18 The art fashion and wine industries are currently at various stages in their efforts to embrace and transition towards sustainability While sustainability commitments are a necessary condition for progress they are not sufficient Instead there is a need for sweeping transformative change that includes giving serious consideration to indigenous worldviews without recolonizing them Sustainability in Art Fashion and Wine includes findings from recent research and

contributes to a new understanding of familiar concepts such as sustainability de colonization and corporate responsibility in the art fashion and wine industries by adopting critical lenses and incorporating them with innovative perspectives on circular business models and digitalization It endeavors to present remedies for effectively combating climate change and promoting social good While discussing specific issues such as sub contracted labor safe working conditions living wages environmental degradation mismanaged waste and more the book argues that recognizing the significant role western colonization has played and continues to play in the developing world in our current conception of capitalism is itself unsustainable To understand the true meaning of sustainability to fully recognize the looming deadlines we face in combating the climate crisis and instituting sustainability as a new normal the acceptance of a new conception of capitalism one antithetical to colonization and exploitation is required Contributors to this book address these issues by applying a critical studies approach to their respective chapters allowing the book to set out what real sustainability could and should look like in the art fashion and wine industries

Designing Integrated Industrial Policies Volume II Shigeru Thomas Otsubo,Christian Samen Otchia,2020-12-01 Very little has been written on industrialization and deindustrialization in Asia and Africa This reference work sheds illuminating light upon the industrial development in Asia and Africa It also provides an in depth look into China s engagement and migrant labour in Africa The book also addresses the roles of public private partnership PPP and international development cooperation and how they are fundamental to industrialization in Asia and Africa Designing Integrated Industrial Policies will be a very useful reference particularly as a how to guide on industrial promotion and designing integrated industrial policies not only for economic growth and job creation but also for inclusive development It comes with country cases and illustrates useful tools for industrial policy simulation and for evidence based policy making through these concrete examples

Africa's Development Dynamics 2022 Regional Value Chains for a Sustainable Recovery African Union Commission,OECD,2022-05-25 Africa s Development Dynamics uses lessons from Central East North Southern and West Africa to develop policy recommendations and share good practices The 2022 edition explores how developing regional value chains can help African countries rebound from the socio economic shocks of the COVID 19 pandemic and accelerate productive transformation

The Political Economy of Chinese FDI in Africa Ayalew Mamo,2024-12-27 This book provides unique insight into Chinese foreign direct investment FDI in

Africa With a particular focus on Ethiopia it examines the impact of FDI on Africa's industrial and manufacturing sector and the potential for productive FDI to advance industrialisation and create jobs for a large and young labour market The creation of government policies and an institutional framework for the management of FDI is also examined alongside lessons that can be learnt from policies that were less successful This book offers a comparative perspective on FDI to highlight the forms of government intervention that maximise the economic benefits of FDI It will be relevant to students researchers and policymakers interested in development economics and the political economy *Africa and Sustainable Global Value Chains* Regina Frei, Sherwat Ibrahim, Temidayo Akenroye, 2022-02-07 This book contains a collection of studies on the interactions between businesses in Africa and Global Value Chains GVCs in terms of social environmental and economic sustainability This is particularly pertinent given the asymmetrical power distribution between the global buyer and the African supplier their governance relationships and the ongoing competitive pressures to reduce costs and increase flexibility to meet GVC demands Rather than focusing on the sustainability of a single organization GVCs address the sustainability of inter firm value chains and global industries as a whole With little differentiation between value chain creation and social environmental degradation extending to people and raw material extraction upstream and disposal or recycling downstream sustainability issues need to be at the forefront of African business research interests Nowadays sustainability is considered a competitive advantage for a firm looking to join a GVC Whether sustainability is approached from the viewpoint of an exporting firm motivated to join a GVC in its respective industry or whether a firm's continuing contractual or collaborative relationship with a buyer depends on its compliance with sustainability standards both approaches focus on the ability of firms in Africa to benefit from joining sustainable GVCs **Fibre2Fashion - Textile Magazine - May 2018** Fibre2Fashion, 2018-05-01 Though technically not a textiles apparel congregation the scale and scope of the event makes FESPA Global Print Expo 2018 one of the must visits for the industry The May 2018 issue of Fibre2Fashion presents a curtain raiser for the event that showcases the latest in printing technologies and innovations The edition also takes a closer look at the transparency issue The latest in denims and the future of fashion in India are also discussed under Q A in addition to all regular features Fibre2Fashion magazine the print venture of Fibre2Fashion com since 2011 is circulated among a carefully chosen target audience globally and reaches the desks of top management and decision makers in the textiles apparel and fashion industry As one of India's leading industry magazines for the entire textile value chain Fibre2Fashion Magazine takes the reader beyond the mundane headlines and analyses issues in depth *Everyday Practices of State Building in Ethiopia* Davide Chinigò, 2022-07-28 Everyday practices of state building interrogates the question about how to reinstate movement to our conceptualisation of state formation in Africa at a time in which the continent witnesses profound social and political transformations inscribed in increasingly globalised and localised dynamics The book revisits key theories of the state adopting a detailed empirical approach that studies how state power operates in

the everyday It locates the mutual constitution of state and society in the wide set of scalar processes that articulate how state power structures social life and simultaneously creates the conditions of possibility for new openings and social formations Drawing on five qualitative fieldworks in Ethiopia between 2006 and 2018 the book identify some important challenges that the ruling Ethiopian Peoples Revolutionary Democratic Front EPRDF has encountered in institutionalising power through the developmental state an ambitious model of state mediated economic liberalisation intended to fulfil the broader re organisation of the Ethiopian state along Ethnic Federalism since 1991 The case studies discuss how policies of resettlement decentralisation agriculture commercialisation entrepreneurship and industrialisation inscribed dynamics of inclusion and exclusion in both rural and urban areas Against these profound transformations beneficiaries casted new meanings to land place and work along struggles to secure reproduction Interrogating the notions of scale and performativity the book revisits dominant approaches that in African studies read state formation along centre periphery relations and ascribe cultural interpretations to the work of state power in the everyday ultimately contributing to important discussions about authoritarianism and ethnonationalism in contemporary Ethiopia Oxford Studies in African Politics and International Relations is a series for scholars and students working on African politics and International Relations and related disciplines Volumes concentrate on contemporary developments in African political science political economy and International Relations such as electoral politics democratization decentralization the political impact of natural resources the dynamics and consequences of conflict and the nature of the continent s engagement with the East and West Comparative and mixed methods work is particularly encouraged Case studies are welcomed but should demonstrate the broader theoretical and empirical implications of the study and its wider relevance to contemporary debates The series focuses on sub Saharan Africa although proposals that explain how the region engages with North Africa and other parts of the world are of interest Series Editors Nic Cheeseman Professor of Democracy and International Development University of Birmingham Ricardo Soares de Oliveira Professor of the International Politics of Africa University of Oxford Peace Medie Senior Lecturer School of Sociology Politics and International Studies University of Bristol

Identifying weak points of existing supply chain and their impact on competitiveness. A study of the Ethiopian apparel manufacturing eco-system Nigussie Godana, 2018-01-22 Master s Thesis from the year 2016 in the subject Business economics Trade and Distribution grade A 10 0 language English abstract This study focusses on reviewing apparel manufacturing eco systems of Ethiopia identifying missing inputs weak points of existing supply chain and assessing their impact on competitiveness of Ethiopian Apparel manufacturing firms Countries compete with each other to improve the standard of living and quality of life of their citizens grow economically attract foreign investments and tourists maintain political stability and build their own brand image by using competitive advantage of their nations Apart from favourable Macro environment GDP purchasing power Economic freedom easy of doing business and political stability low Production factors such as rawmaterials related and supplying industries electric cost and skilled and

semiskilled manpower are the source of competitive advantage both to the countries and firms along the supply chain. The textile and clothing industry have been one of the most dynamic and geographically mobile industries globally. The industry is made up of complex global production networks and due to the possibilities of minimizing the costs of production many buying companies use suppliers located in developing countries and manufacturers of textile and clothing companies also relocate themselves in developing countries through foreign direct investment (FDI). Over recent years there has been an increasing amount of interest in Africa for investment as a continent with immense resources and potential. Ethiopia in particular has been singled out as a land of growth and investment opportunity. Ethiopia grows some of the world's finest cotton and has a rich textile spinning and weaving history yet its importance on a global scale remains insignificant. Having experienced average annual growth rate of 10.7% GDP growth consistently since 2006 and a stable political framework since 1995 it still remains largely not yet used or taken advantage of. Although favourable business environment is set by the government there are missing inputs weak points in existing supply chain which should be addressed. For example in the case of garment manufacturing trimming and accessories packaging certification bodies spare part technology and machine maintenance companies and Ecommerce are missed along the supply chain.

Dye Pollution from Textile Industry

Pardeep Singh, 2024-08-22 This book provides a comprehensive overview of the challenges associated with dye pollution and highlights opportunities for sustainable development in the textile industry. It discusses the environmental and health impacts of textile dyeing, the regulations and standards related to dye pollution and the available technologies and strategies for reducing dye pollution. One of the significant challenges associated with dye pollution is the contamination of water resources. The book further discusses the available technologies and strategies for reducing water consumption and improving water treatment in the textile industry. The book also highlights the importance of adopting sustainable production processes and waste management strategies to minimize toxic waste products and eco friendly textile production. This book is a valuable resource for researchers, industry professionals, policymakers and anyone interested in the environmental impact of textile production.

Attracting Investment in Bangladesh—Sectoral Analyses Sanjay Kathuria, Mariem Mezghenni

Malouche, 2016-10-17 This is volume 3 of a three volume publication on Bangladesh's trade prospects. Bangladesh's ambition is to build on its very solid growth and poverty reduction achievements and accelerate growth to become a middle income country by 2021 and share prosperity more widely amongst its citizens. This includes one of its greatest development challenges to provide gainful employment to the over 2 million people that will join the labor force each year over the next decade. Moreover only 54.1 million of its 94 million working age people are employed. Bangladesh needs to use its labor endowment even more intensively to increase growth and in turn to absorb the incoming labor. The Diagnostic Trade Integration Study identifies the following actions centered around four pillars to sustain and accelerate export growth: 1. breaking into new markets through a better trade logistics to reduce delivery lags as world markets become more

competitive and newer products demand shorter lead times to generate new sources of competitiveness and thereby enable market diversification and b better exploitation of regional trading opportunities in nearby growing and dynamic markets especially East and South Asia 2 breaking into new products through a more neutral and rational trade policy and taxation and bonded warehouse schemes b concerted efforts to spur domestic investment and attract foreign direct investment to contribute to export promotion and diversification including by easing the energy and land constraints and c strategic development and promotion of services trade 3 improving worker and consumer welfare by a improving skills and literacy b implementing labor and work safety guidelines and c making safety nets more effective in dealing with trade shocks and 4 building a supportive environment including a sustaining sound macroeconomic fundamentals and b strengthening the institutional capacity for strategic policy making aimed at the objective of international competitiveness to help bring focus and coherence to the government s reform efforts This third volume provides in depth analysis of eight different manufacturing and services sectors of the Bangladeshi economy which help to illustrate the thematic analysis of volume 2 and ground it in sector experiences Besides pointing to cross cutting themes the analysis also highlights some specific issues and actions that could help relieve constraints to faster export growth in these sectors

Ethiopian Textile Garment Industry Introduction

In the digital age, access to information has become easier than ever before. The ability to download Ethiopian Textile Garment Industry has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Ethiopian Textile Garment Industry has opened up a world of possibilities. Downloading Ethiopian Textile Garment Industry provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Ethiopian Textile Garment Industry has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Ethiopian Textile Garment Industry. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Ethiopian Textile Garment Industry. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Ethiopian Textile Garment Industry, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Ethiopian Textile Garment Industry has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security

when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Ethiopian Textile Garment Industry Books

What is a Ethiopian Textile Garment Industry PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Ethiopian Textile Garment Industry PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Ethiopian Textile Garment Industry PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Ethiopian Textile Garment Industry PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Ethiopian Textile Garment Industry PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
