**Fasting, food, and farming: Evidence from Ethiopian producers on the link of food taboos with dairy development** D'Haene, Eline, Vandeveld, Senne, Minten, Bart, 2020-05-01 The impact of food taboos often because of religion is understudied In Ethiopia religious fasting by Orthodox Christians is assumed to be an important impediment for the sustainable development of a competitive dairy sector and desired higher milk consumption especially by children However evidence is limited Relying on unique data we shed light on three major issues First we observe that the average annual number of fasting days that Orthodox adults are effectively adhering to is 140 less than commonly cited averages Using this as an estimate for extrapolation fasting is estimated to reduce annual dairy consumption by approximately 12 percent nationally Second farms adapt to declining milk demand during fasting by increased processing of milk into storable products fasting contributes to larger price swings for these products We further note continued sales of milk by non remote farmers and reduced production by adjusting lactation times for dairy animals for remote farmers Third fasting is mostly associated with increased milk consumption by the children of dairy farmers seemingly because of excess milk availability during fasting periods Our results suggest that fasting habits are not a major explanation for the observed poor performance of Ethiopia s dairy sector nor low milk consumption by children To reduce the impact of fasting on the dairy sector in Ethiopia further investment is called for in improved milk processing storage and infrastructure facilities **Ethiopia** Siegbert Uhlig, David Appleyard, Alessandro Bausi, Wolfgang Hahn, Steven Kaplan, 2017 ETHIOPIA is a compendium on Ethiopia and Northeast Africa for travellers students businessmen people interested in Africa policymakers and organisations In this book 85 specialists from 15 countries write about the land of our fossil ancestor Lucy about its rock hewn churches and national parks about the coexistence of Christians and Muslims and about strange cultures but also about contemporary developments and major challenges to the region Across ten chapters they describe the land and people its history cultures religions society and politics as well as recent issues and unique destinations documented with tables maps further reading suggestions and photos Faith and Work Timothy Ewest, 2018-01-01 Those who adhere to a faith tradition are longing for theories and insights into how they can be true to their faith within the workplace and yet be sensitive and respectful to others of varying faith commitments and beliefs Yet for Christians respect of other faith traditions is especially difficult since Christianity as the dominate religion has become secularized and institutionalized within the workplace as represented in holidays and days off Within the multiple theoretical and research dimensions of management religion and spirituality this book explores theoretical conceptual and strategic theories and research which consider how individuals and organizations integrate their Christian faith in the workplace and how these groups attempt to change society as a whole This historical movement is characterized by a desire for people to live a holistic life which integrates their Christian faith into the workplace also deemed faith at work Historically Christian s faith integration is manifested individually or collectively and is

demonstrated in the ways it shapes and informs the values systems ethics character and attitudes towards work This edited volume draws themes out of the three historical epochs of the faith and work movement traced by Miller 2007 in the book God at work The history and promise of the faith at work movement These organizing themes while not congruent to the historical epochs do capture the ways in which people of faith have historically attempted to integrate their faith into the workplace These themes include Individual integration organizational strategies for integration and societal integration

**The city trip guide for Addis Ababa (Ethiopia)** YouGuide Ltd, **Meat Matters** Hagar Salamon,2023-04-04 Meat Matters offers a portrait of the lives of Ethiopian Jews as it is reflected and refracted through the symbolism of meat Drawing upon thirty years of fieldwork this beautifully written and innovatively constructed ethnography tells the story of the Beta Israel who began immigrating from Ethiopia to Israel in the 1970s Once in Israel their world changed in formerly unimaginable ways such as conversion under Rabbinic restrictions moving into multistory buildings different attitudes toward gender and reproduction and perhaps above all the newly acquired distinctiveness of the color of their bodies In the face of such changes the Beta Israel held on to a key idiom in their lives meat The community continues to be organized into kirchas groups of friends and family who purchase and raise cows then butcher and divide the animal s body into small and equal chunks which are distributed among the kircha through a lottery ritual Flowing back and forth between Ethiopia to Israel Meat Matters follows the many strands of significance surrounding cows and meat ultimately forming a vibrant web of meaning at the heart of the Beta Israel community today **The Orthodox Church of Ethiopia** John Binns,2016-11-28 Surrounded by steep escarpments to the north south and east Ethiopia has always been geographically and culturally set apart It has the longest archaeological record of any country in the world Indeed this precipitous mountain land was where the human race began It is also home to an ancient church with a remarkable legacy The Ethiopian Church forms the southern branch of historic Christianity It is the only pre colonial church in sub Saharan Africa originating in one of the

earliest Christian kingdoms with its king Ezana supposedly descended from the biblical Solomon converting around 340 CE. Since then it has maintained its long Christian witness in a region dominated by Islam; today it has a membership of around forty million and is rapidly growing. Yet despite its importance, there has been no comprehensive study available in English of its theology and history. This is a large gap which this authoritative and engagingly written book seeks to fill. The Church of Ethiopia or formally the Ethiopian Orthodox Tewahedo Church has a recognized place in worldwide Christianity as one of five non Chalcedonian Orthodox Churches. As Dr Binns shows, it has developed a distinctive approach which makes it different from all other churches. His book explains why this happened and how these special features have shaped the life of the Christian people of Ethiopia. He discusses the famous rock hewn churches, the Ark of the Covenant claimed by the Church and housed in Aksum, the medieval monastic tradition, relations with the Coptic Church, co-existence with Islam, missionary activity and the Church's venerable oral traditions, especially the discipline of *gene*, a kind of theological reflection couched in a unique style of improvised allegorical poetry. There is also a sustained exploration of how the Church has been forced to re-think its identity and mission as a result of political changes and upheaval following the overthrow of Haile Selassie who ruled as Regent 1916-1930 and then as Emperor 1930-74 and beyond.

*The Ethiopian Orthodox Church: Festivals of the Finding of the True Cross and Epiphany* Wālaleñ 'Emeru, 2007. Religious Celebrations Bloomsbury Publishing, 2011-09-13. This two-volume work presents a comprehensive survey of all the ways people celebrate religious life around the globe. *Religious Celebrations* is an alphabetically organized encyclopedia that covers more than 800 celebratory occasions from all of the world's major religious communities as well as many of the minor faith traditions. The encyclopedia provides a complete reference tool for examining the myriad ways people worldwide celebrate their religious lives across religious boundaries, providing information on numerous celebratory activities never before covered in a reference work. Offering the most comprehensive coverage of religious holidays ever assembled, this two-volume book covers festivals, commemorations, holidays, and annual religious gatherings all over the world, with special attention paid to the celebrations in larger countries. Entries written by distinguished researchers and specialists on different religious communities capture the unique intensity of each event, be it fasting or feasting, frenzied activity or the universal cessation of work, a huge gathering of the faithful en masse or a small family-centered event. The work spotlights celebrations that currently exist without overlooking now abandoned celebrations that still impact the modern world.

*Holiday Symbols & Customs, 5th Ed.* James Chambers, 2015-07-01. A guide to the legend and lore behind the traditions, rituals, foods, games, animals, and other symbols and activities associated with holidays and holy days, feasts and fasts, and other celebrations.

*Lalibela (Ethiopia), Beyond Surgery* Anita Hannig, 2017-04-24. An incisive and immensely insightful study of African women, Western medicine, and how to deliver care to those who need it. Jean Comaroff, Harvard University. Over the past few decades, maternal childbirth injuries have become a potent symbol of Western biomedical intervention in Africa, affecting over one million

women across the global south Western funded hospitals have sprung up offering surgical sutures that ostensibly allow women who suffer from obstetric fistula to return to their communities in full health Journalists NGO staff celebrities and some physicians have crafted a stock narrative around this injury depicting afflicted women as victims of a backward culture who have their fortunes dramatically reversed by Western aid With *Beyond Surgery* medical anthropologist Anita Hannig unsettles this picture for the first time and reveals the complicated truth behind the idea of biomedical intervention as quick fix salvation Through her in depth ethnography of two repair and rehabilitation centers operating in Ethiopia Hannig takes the reader deep into a world inside hospital walls where women recount stories of loss and belonging shame and delight As she chronicles the lived experiences of fistula patients in clinical treatment Hannig explores the danger of labeling culture the culprit showing how this common argument ignores the larger problem of insufficient medical access in rural Africa *Beyond Surgery* portrays the complex social outcomes of surgery in an effort to deepen our understanding of medical missions in Africa expose cultural biases and clear the path toward more effective ways of delivering care to those who need it most
