Contempt and Pity Daryl Michael Scott, 2000-11-09 For over a century the idea that African Americans are psychologically damaged has played an important role in discussions of race In this provocative work Daryl Michael Scott argues that damage imagery has been the product of liberals and conservatives of racists and antiracists While racial conservatives often playing on white contempt for blacks have sought to use findings of black pathology to justify exclusionary policies racial liberals have used damage imagery primarily to promote policies of inclusion and rehabilitation In advancing his argument Scott challenges some long held beliefs about the history of damage imagery He rediscovers the liberal impulses behind Stanley Elkins's Sambo hypothesis and Daniel Patrick Moynihan's Negro Family and exposes the

damage imagery in the work of Ralph Ellison the leading anti pathologist He also corrects the view that the Chicago School depicted blacks as pathological products of patriarchy New Negro experts such as Charles Johnson and E Franklin Frazier he says disdained sympathy seeking and refrained from exploring individual pathology Scott s reassessment of social science sheds new light on Brown v Board of Education revealing how experts reversed four decades of theory in order to represent segregation as inherently damaging to blacks In this controversial work Scott warns the Left of the dangers in their recent rediscovery of damage imagery in an age of conservative reform

Lyman, 1995 *The Dilemmas of Ethnic Policy* John Gaffar La Guerre, 2017-01-03 The Dilemmas of Ethnic Policy A Global Perspective argues that ethnic conflict increases or decreases in relation to changes in the social structure and the location and distribution of political power Ethnic grievances derive from lack of access to valued resources and elites play a crucial role in allocating those resources This book examines the experiences of five countries with a history of ethnic conflict former Yugoslavia Bosnia Herzegovina Guyana Trinidad and Tobago and the United States It finds that in many cases solutions adopted to mitigate ethnic conflict have unintended consequences Often supposed solutions confuse cause and effect and in fact worsen ethnic conflict Attempts to address identity issues by pandering to them often led to further ethnic demands This book argues that based on the experiences of the countries under examination the best course is to adopt policies that encourage alliances between and among ethnic groups [More Than Black](#) G. Reginald Daniel, 2002 In the United States anyone with even a trace of African American ancestry has been considered black Even as the twenty first century opens a racial hierarchy still prevents people of color including individuals of mixed race from enjoying the same privileges as Euro Americans In this book G Reginald Daniel argues that we are at a cross roads with members of a new multiracial movement pointing the way toward equality Tracing the centuries long evolution of Eurocentrism a concept geared to protecting white racial purity and social privilege Daniel shows how race has been constructed and regulated in the United States The so called one drop rule i e hypodescent obligated individuals to identify as black or white in effect erasing mixed race individuals from the social landscape For most of our history many mixed race individuals of African American descent have attempted to acquire the socioeconomic benefits of being white by forming separate enclaves or passing By the 1990s however interracial marriages became

increasingly common and multiracial individuals became increasingly political demanding institutional changes that would recognize the reality of multiple racial backgrounds and challenging white racial privilege More Than Black regards the crumbling of the old racial order as an opportunity for substantially more than an improvement in U S race relations it offers no less than a radical transformation of the nation s racial consciousness and the practice of democracy **Italian**
