Exploring Psychology in Modules David G. Myers, C. Nathan DeWall, 2016-01-01 The new edition of *Exploring Psychology in Modules* offers outstanding currency on the research practice and teaching of psychology. Myers and DeWall inspire students with fascinating findings and applications, effective new study tools and technologies, and a compassionate and compelling storytelling voice. Their presentation is based on the same guiding principles behind the entire family of textbooks that have made David Myers the world's bestselling introductory psychology author: Facilitate learning by teaching critical thinking and helping students at every step. Present psychology as a science emphasizing the process of inquiry and putting facts in the service of concepts. Make sure students come away with an appreciation of psychology's big ideas and with a deeper respect for humanity: what drives us, distinguishes us, unifies us. This *Exploring Psychology in Modules* is the first to include Myers' handpicked co-author Nathan DeWall, who shares Myers' belief that instilling a sense of curiosity and inquiry about psychological science is an effective way to help students navigate the content, think critically, and prepare for a lifetime of learning and living. The extraordinary long-time Myers ancillary author team is also here, a group whose teamwork consistency and commitment again sets the industry standard for instructor and student supplements. The high quality that consistently sets Myers' ancillaries apart sees a new incarnation in LaunchPad. This course space organizes all the book's digital resources in an online format that makes it easier for instructors to teach, track, and assess their students. This text offers the content organized in 45 student-friendly modules, assignable in any sequence and brief enough to be read in one sitting. Students digest material better when they process it in smaller chunks, as spaced rather than massed practice, and instructors often appreciate the flexibility of assigning any modules in any order. **Exploring Psychology in Modules (Loose Leaf)** David G.
