Abstract

Emotion recognition from speech has an increasing interest in recent years given the broad field of applications. The recognition system developed here uses Mel Frequency Cepstrum Coefficient (MFCC) and Gammatone Cepstrum Coefficient (GTCC) as the feature vectors for recognizing emotions in a speech signal. MFCC is the most commonly used feature vector for classification. But, MFCC systems usually do not perform well under noisy conditions because extracted features are distorted by noise, causing mismatched likelihood calculation. By introducing a novel speaker feature, gammatone cepstral coefficient (GTCC), based on an auditory periphery model, and show that this feature captures speaker characteristics and performs substantially better than conventional speaker features under noisy conditions. An important finding in the study is that GTCC features outperform conventional MFCC features under noisy conditions. These features are then used to train the classifier. The classifier used for the system is a cascade feed forward back propagation neural network. The database consists of 240 speech samples. Among them, 180 samples are used for training the system and the remaining 60 samples are used for testing the system. This study compares the differences between MFCC and GTCC for recognizing emotion from speech. The error rate of the system corresponds to MFCC and GTCC is 0.009703 and 0.0090822 respectively.

Key words: Automatic speech recognition, Pre-processing, Feature extraction, Classification, Mel-frequency cepstral coefficient, Gammatone cepstral coefficient.

1. Introduction

Speech is a complex signal which contains information about the message, speaker, language and emotions. Speech is one of the most natural communication forms between human beings. Emotion on other side is an individual mental state that arises spontaneously rather than through conscious effort. Humans also express

Thampi,Sri Krishnan,Juan Manuel Corchado Rodriguez,Swagatam Das,Michal Wozniak,Dhiya Al-Jumeily,2017-09-12 This Edited Volume gathers a selection of refereed and revised papers originally presented at the Third International Symposium on Signal Processing and Intelligent Recognition Systems SIRS 17 held on September 13 16 2017 in Manipal India The papers offer stimulating insights into biometrics digital watermarking recognition systems image and video processing signal and speech processing pattern recognition machine learning and knowledge based systems Taken together they offer a valuable resource for all researchers and scientists engaged in the various fields of signal processing and related areas *Affective Information Processing* Jianhua Tao,Tieniu Tan,2008-12-02 Affective information processing assigns computers the human like capabilities of observation interpretation and generation of affect features It is an important topic for harmonious human computer interaction by increasing the quality of human computer communication and improving the intelligence of the computer Discussing state of art of the research in affective information processing this book summarises key technologies researched such as facial expression recognition face animation emotional speech synthesis intelligent agent and virtual reality The detailed discussion covers a wide range of topics including hot topics which look to challenge and improve current research work Written to provide an opportunity for scientists engineers and graduate students to learn problems solutions and technologies in the topic area this book will provide insight and prove a valuable reference tool **Kansei Engineering and Emotion Research** Tzu-wei Tsai,Kuohsiang Chen,Toshimasa Yamanaka,Shinichi Koyama,Simon Schütte,Anitawati Mohd Lokman,2024-11-15 The two volume set LNCS 2313 and LNCS 2314 constitutes the proceedings of the 10th International Conference on Kansei Engineering and Emotion Research KEER

2024 held in Taichung Taiwan during November 20-23, 2024. The 57 full papers presented in these volumes were carefully reviewed and selected from 154 submissions. These papers have been organized in the following topical sections: Part I: Emotion Research in Southeast Asia, SEA Bridging Cultures, Advancing Design Competencies Required by Different Positions for Innovation, Exploring the Intersection of Kansei Engineering and Affective Computing in Digital Media Design, Research Image and Media in Kansei Design, Innovative Design for Cultural Sustainability. Part II: Kansei Approach to Sustainability, Society, Kansei in Senses and Interaction, Kansei Issues in Cross Cultural Design, Wellbeing, Experience, Quality of Life, Healthcare.

Information and Communication Technology for Intelligent Systems (ICTIS 2017) - Volume 2

Suresh Chandra Satapathy, Amit Joshi, 2017-08-16. This volume includes 73 papers presented at ICTIS 2017, Second International Conference on Information and Communication Technology for Intelligent Systems. The conference was held on 25th and 26th March 2017 in Ahmedabad, India, and organized jointly by the Associated Chambers of Commerce and Industry of India (ASSOCHAM) Gujarat Chapter, the G. R. Foundation, the Association of Computer Machinery Ahmedabad Chapter, and supported by the Computer Society of India Division IV Communication and Division V Education and Research. The papers featured mainly focus on information and communications technology (ICT) and its applications in intelligent computing, cloud storage, data mining, and software analysis. The fundamentals of various data analytics and algorithms discussed are useful to researchers in the field.

Affective Computing and Intelligent Interaction Jianhua Tao, Tieniu Tan, 2005-10-27. This book constitutes the refereed proceedings of the First International Conference on Affective Computing and Intelligent Interaction (ACII 2005) held in Beijing, China, in October 2005 as an associated event of ICCV 2005, the International Conference on Computer Vision. The 45 revised full papers and 81 revised poster papers presented were carefully reviewed and selected from 198 submissions. They cover a wide range of topics such as facial expression recognition, face animation, emotional speech synthesis, intelligent agent and virtual reality. The papers are organized in topical sections on affective face and gesture processing, affective speech processing, evaluation of affective expressivity, affective database annotation and tools, psychology and cognition of affect and affective interaction, and systems and applications.

Advanced Applications in Osmotic Computing Revathy, G., 2024-03-04. The interaction of various service models including edge computing and cloud computing are quickly changing to better support microservices. This intricate weave of technology and information sharing is necessary to build systems that run faster and more efficiently. The interplay between these computing methods and microservices is emerging as the field of Osmotic Computing. Experts can now embark on an intellectual journey into data-driven exploration and ingenuity with the guidance of the book *Advanced Applications in Osmotic Computing*. As ethical considerations become rising concerns, the potential biases, privacy encumbrances, and equitable conundrums of osmotic computing are investigated. This book offers judicious strategies to navigate these quandaries conscientiously, adding a layer of responsibility to the discourse. Within these pages, the very fabric of understanding in IoT, Cloud, Edge, Fog, and Machine

Learning is redefined marking a pivotal shift in the paradigm of technological comprehension This book is an epicenter for the latest evolutions in osmotic computing unfurling unconventional methodologies that shape the trajectory of data driven decision making Readers will plunge into the theoretical bedrock simultaneously witnessing pragmatic applications that adeptly bridge the schism between the theoretical constructs and pragmatic realization The intended audience is multifaceted encompassing data scientists machine learning engineers researchers academics educators students industry practitioners interdisciplinary experts and technology and business leaders **Applied Intelligence** De-Shuang Huang,Wei Chen,Chuanlei Zhang,Yijie Pan,Qinhu Zhang,Xiangzeng Kong,2025-02-23 This 2 volume set CCIS 2387 2388 constitutes the proceedings of the Second International Conference on Applied Intelligence ICAI 2024 held in Zhengzhou China during November 22 25 2024 The 72 full papers presented in this proceedings were carefully reviewed and selected from 228 submissions The papers cover a wide range on theoretical aspects of biomedical data modeling and mining computer vision and deep learning They were organized in topical sections as follows Part I Biomedical data modeling and mining information security pattern recognition Part II Image Processing intelligent data analysis and prediction machine learning **Artificial Intelligence and Speech Technology** Arun Sharma,Ritu Rani,2025-05-29 This two volume set CCIS 2389 and CCIS 2390 constitutes selected papers presented at the 6th International Conference on Artificial Intelligence and Speech Technology AIST 2024 held in Delhi India during November 13 14 2024 The 40 full papers and 15 short papers presented in these proceedings were carefully reviewed and selected from 398 submissions These papers focus on Speech Technology using AI and AI innovations for CV and NLP They have been categorized under the following topical sections Part I Trends and Applications in Speech Processing Recent Trends in Speech and NLP Emerging trends in Speech Processing Advances in Computational Linguistics and NLP Part II Recent Trends in Machine Learning and Deep Learning Analysis using Hybrid technologies with Artificial Intelligence Exploring New Horizons in Computer Vision Research **Information and Communication Technology for Competitive Strategies (ICTCS 2022)** M. Shamim Kaiser,Juanying Xie,Vijay Singh Rathore,2023-05-15 This book contains best selected research papers presented at ICTCS 2022 Seventh International Conference on Information and Communication Technology for Competitive Strategies The conference will be held in Chandigarh India during December 9 10 2022 The book covers state of the art as well as emerging topics pertaining to ICT and effective strategies for its implementation for engineering and managerial applications This book contains papers mainly focused on ICT for computation algorithms and data analytics and IT security The work is presented in two volumes

Handling Emotions in Human-Computer Dialogues Johannes Pittermann,Angela Pittermann,Wolfgang Minker,2009-10-28 In this book a novel approach that combines speech based emotion recognition with adaptive human computer dialogue modeling is described With the robust recognition of emotions from speech signals as their goal the authors analyze the effectiveness of using a plain emotion recognizer a speech emotion recognizer combining speech and

emotion recognition and multiple speech emotion recognizers at the same time The semi stochastic dialogue model employed relates user emotion management to the corresponding dialogue interaction history and allows the device to adapt itself to the context including altering the stylistic realization of its speech This comprehensive volume begins by introducing spoken language dialogue systems and providing an overview of human emotions theories categorization and emotional speech It moves on to cover the adaptive semi stochastic dialogue model and the basic concepts of speech emotion recognition Finally the authors show how speech emotion recognizers can be optimized and how an adaptive dialogue manager can be implemented The book with its novel methods to perform robust speech based emotion recognition at low complexity will be of interest to a variety of readers involved in human computer interaction

Inclusive Smart Cities and Digital Health

Carl K. Chang,Lorenzo Chiari,Yu Cao,Hai Jin,Mounir Mokhtari,Hamdi Aloulou,2016-05-20 This book constitutes the proceedings of the 14th International Conference on Smart Homes and Health Telematics ICOST 2016 held in Wuhan China in May 2016 The 39 regular papers 5 short papers and 1 poster paper included in this volume were carefully reviewed and selected from 83 submissions They were organized in topical sections named smart homes smart urban spaces and new assistive living space concepts in the smart city e health for future smart cities context awareness and autonomous computing home networks and residential gateways middleware support for smart homes and health telematic services e health and chronic disease management e health technology assessment and impact analysis tele assistance and tele rehabilitation modeling of physical and conceptual information in intelligent environments medical big data collection processing and analysis human machine interfaces wearable sensors and continuous health monitoring social privacy and security issues mobile health services and smart rehabilitation technologies

Machine Intelligence and Signal

Processing Sonali Agarwal,Shekhar Verma,Dharma P. Agrawal,2020-02-25 This book features selected high quality research papers presented at the International Conference on Machine Intelligence and Signal Processing MISP 2019 held at the Indian Institute of Technology Allahabad India on September 7 10 2019 The book covers the latest advances in the fields of machine learning big data analytics signal processing computational learning theory and their real time applications The topics covered include support vector machines SVM and variants like least squares SVM LS SVM and twin SVM TWSVM extreme learning machine ELM artificial neural network ANN and other areas in machine learning Further it discusses the real time challenges involved in processing big data and adapting the algorithms dynamically to improve the computational efficiency Lastly it describes recent developments in processing signals for instance signals generated from IoT devices smart systems speech and videos and addresses biomedical signal processing electrocardiogram ECG and electroencephalogram EEG

Intelligent Systems and Applications

Yaxin Bi,Rahul Bhatia,Supriya Kapoor,2019-08-23 The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence and their real world applications It gathers the proceedings of the Intelligent Systems Conference 2019 which attracted a

total of 546 submissions from pioneering researchers scientists industrial engineers and students from all around the world These submissions underwent a double blind peer review process after which 190 were selected for inclusion in these proceedings As intelligent systems continue to replace and sometimes outperform human intelligence in decision making processes they have made it possible to tackle a host of problems more effectively This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends This book collects both theory and application based chapters on virtually all aspects of artificial intelligence presenting state of the art intelligent methods and techniques for solving real world problems along with a vision for future research it represents a unique and valuable asset

Extracting Mfcc Features For Emotion Recognition From Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Extracting Mfcc Features For Emotion Recognition From**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Extracting Mfcc Features For Emotion Recognition From Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Extracting Mfcc Features For Emotion Recognition From PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and

pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Extracting Mfcc Features For Emotion Recognition From PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Extracting Mfcc Features For Emotion Recognition From free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Extracting Mfcc Features For Emotion Recognition From Books

1. Where can I buy Extracting Mfcc Features For Emotion Recognition From books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Extracting Mfcc Features For Emotion Recognition From book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Extracting Mfcc Features For Emotion Recognition From books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing.

- Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
 7. What are Extracting Mfcc Features For Emotion Recognition From audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
 8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
 9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
 10. Can I read Extracting Mfcc Features For Emotion Recognition From books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
