Reconciling China's Trade Statistics Loraine A. West,1995 **Papers and Proceedings of the Annual Meeting** American Economic Association,1999 Working Paper Series ,1998 The U.S.-China Bilateral Trade Balance Robert C. Feenstra,1998 This paper has two aims The first is to reduce the range within which the true U S China bilateral trade deficit lies The second is to identify the determinants of the bilateral trade deficit and offer an assessment of their relative importance We calculate a smaller range of values for the bilateral trade deficit than in previous studies due to a new estimation method that takes advantage of our access to detailed Chinese Customs data at the commodity level For example the revised US China bilateral trade deficit is 15 billion to 20 billion in 1994 and 16 billion to 22 billion in 1995 compared to the official range of 8 billion to 30 billion and 9 billion to 34 billion respectively The widening of the US CHINA bilateral trade deficit in recent years reflected many factors In our opinion the two chief factors are i macroeconomic forces in the US and China moving in opposite direction causing their respective overall trade balance to move in opposite directions and ii the accelerated relocation of production of US imports from East Asia to China

The China-U.S. Trade War and Future Economic Relations Lawrence J. Lau,2018-12-14 The relation between China and the United States is arguably the most important bilateral relation in the world today The U S and China are respectively the largest and the second largest economies in the world They are also respectively the largest and the second largest trading nations in the world as well as each other s most important trading partner If China and the U S work together as partners towards a common goal many things are possible However there exist significant friction and potential conflict in their economic relations The large and persistent U S China bilateral trade deficit is one of the problems It is essential to know the true state of the China U S trade balance before effective solutions can be devised to narrow the trade surplus or deficit The impacts and potential impacts of the 2018 trade war between China and the U S on the two economies are analysed and discussed The longterm forces that underlie the economic relations between the two countries beyond the 2018 trade war are examined In this connection how a new type of major power relation between the two countries can help to keep the competition friendly and avert a war between them is explored Lawrence J Lau s timely The China U S Trade War and Future Economic Relations is full of careful analysis penetrating insight and helpful suggestions from the world s preeminent economist on this relationship Michael J Boskin Tully M Friedman Professor of Economics Stanford University Former Chair U S President s Council of Economic Advisers This sober and systematic study of U S China trade relations and of technological development in the two countries is particularly timely Lawrence Lau is one of the world s foremost economists working on these issues Dwight H Perkins Harold Hitchings Burbank Professor of Political Economy Emeritus Former Chair Department of Economics Harvard University This is a timely and penetrating analysis of the China U S trade and economic relations from its origins to its impacts and to a way forward Yingyi Qian Chairman of the Council Westlake University Former Dean School of Economics

and Management Tsinghua University Counsellor of the State Council People's Republic of China Lawrence Lau's book on the current U.S.-China trade war is insightful, balanced and comprehensive, rich in data on trade, investment, science and technology. It is essential reading for anyone who wants to get past the headlines. A Michael Spence Nobel Laureate in Economic Sciences 2001 Senior Fellow The Hoover Institution Stanford University Lawrence Lau brings light in the form of rigorous, honest, fact-based economic analysis to a subject where most of the discussion has been heated bluster, false claims and political rhetoric. Lawrence H. Summers, Former U.S. Secretary of the Treasury, Former President Harvard University. There is no topic more important or more timely or more urgent than the China-U.S. trade war. Professor Lau is the ideal person to write about the implications of the China-U.S. trade war and the proposed resolution. Tung Chee Hwa, Vice Chairman Chinese People's Political Consultative Conference National Committee Chairman China-U.S. Exchange Foundation. The history of Sino-American relations to a great extent has been a shared history. Lawrence Lau's timely and penetrating study will tell us it is still in the best interest for both countries if they continue to pursue a shared journey and destination instead of parting ways. Xu Guoqi, Kerry Group Professor in Globalization History The University of Hong Kong Author of Chinese and Americans A Shared History. This beautifully composed book uses nontechnical language to unravel the intricacies of the 2018 U.S.-China trade war together with its long-term impact. I learned a lot from reading it.
