El Piper, 2025-08-19 *Americans With African Roots Empowered* A WA RE offers a grounded and insightful exploration of the history and identity of the Hebrew Israelites tracing their journey from biblical times through centuries of exile colonization and cultural erasure Beginning with King James VI and I the book examines how his influence shaped the Bible s translation and how this version was used to reinforce imperial agendas Through careful comparison with ancient texts such as the Ethiopian Bible and analysis of removed or suppressed scriptures the book reveals how religious doctrine was reshaped to justify colonization and slavery The transformation of the Hebrew Israelite faith into a tool of European dominance is laid bare showing how key elements of biblical history were distorted or omitted Spanning events from the founding of Jamestown to the transatlantic slave trade this work connects pivotal historical moments to the ongoing journey of a people whose story has often been hidden It also explores the cultural endurance and prophetic traditions of the Hebrew Israelites the evolving role of women and the spiritual impact of the King James Bible on African American communities This is both a historical reexamination and a call to rediscover truth identity and legacy in the face of centuries of misrepresentation *The Biblical Canon Lists from Early Christianity* Edmon L.

Gallagher, John D. Meade, 2017-10-26 The Bible took shape over the course of centuries and today Christian groups continue to disagree over details of its contents The differences among these groups typically involve the Old Testament as they mostly accept the same 27 book New Testament An essential avenue for understanding the development of the Bible are the many early lists of canonical books drawn up by Christians and occasionally Jews Despite the importance of these early lists of books they have remained relatively inaccessible This comprehensive volume redresses this unfortunate situation by presenting the early Christian canon lists all together in a single volume The canon lists in most cases unambiguously report what the compilers of the lists considered to belong to the biblical canon For this reason they bear an undeniable importance in the history of the Bible The Biblical Canon Lists from Early Christianity provides an accessible presentation of these early canon lists With a focus on the first four centuries the volume supplies the full text of the canon lists in English translation alongside the original text usually Greek or Latin occasionally Hebrew or Syriac Edmon L Gallagher and John D Meade orient readers to each list with brief introductions and helpful notes and they point readers to the most significant scholarly discussions The book begins with a substantial overview of the history of the biblical canon and an entire chapter is devoted to the evidence of biblical manuscripts from the first millennium This authoritative work is an indispensable guide for students and scholars of biblical studies and church history

Mbuvi, 2022-09-22 Andrew M Mbuvi makes the case for African biblical studies as a vibrant and important emerging distinct discipline while also using its postcolonial optic to critique biblical studies for its continued underlying racially and imperialistically motivated tendencies Mbuvi argues that the emergence of biblical studies as a discipline in the West coincides with and benefits from the establishment of the colonial project that included African colonization At the heart of the colonial project was the Bible not only as ferried by missionaries who often espoused racialized views to convert heathens in the distant lands but as the text used in the racialized justification of the colonial violence Interpretive approaches established within these racist and colonialist matrices continue to dominate the discipline perpetuating racialized interpretive methodology and frameworks On these grounds Mbuvi makes the case that the continued marginalization of non western approaches is a reflection of the continuing colonialist structure and presuppositions in the discipline of biblical studies African Biblical Studies not only exposes and critiques these persistent oppressive and subjugating tendencies but showcases how African postcolonial methodologies and studies that prioritize readings from the perspective of the marginalized and oppressed offer an alternative framework for the discipline These readings while destabilizing and undermining the predominantly white Euro American approaches and their ingrained prejudices and problematizing the biblical text itself posit the need for biblical interpretation that is anti colonial and anti racist *Ezdras Insights* S N Strutt, 2018-08-15 The verses with extensive commentaries references and ideas for follow up EZDRAS INSIGHTS contains the Apocryphal Book of II EZDRAS which was in the KING JAMES version of the Bible until 1885 Why was it taken out Read on and find out WHY EZDRAS INSIGHTS has many Bible verses as cross references as well as insightful comments II

The Many Faces of Christ Philip Jenkins, 2015-10-13 The standard account of early Christianity tells us that the first centuries after Jesus death witnessed an efflorescence of Christian sects each with its own gospel We are taught that these alternative scriptures which represented intoxicating daring and often bizarre ideas were suppressed in the fourth and fifth centuries when the Church canonized the gospels we know today Matthew Mark Luke and John The rest were lost destroyed or hidden In The Many Faces of Christ the renowned religious historian Philip Jenkins thoroughly refutes our most basic assumptions about the Lost Gospels He reveals that dozens of alternative gospels not only survived the canonization process but in many cases remained influential texts within the official Church Whole new gospels continued to be written and accepted For a thousand years these strange stories about the life and death of Jesus were freely admitted onto church premises approved for liturgical reading read by ordinary laypeople for instruction and pleasure and cited as authoritative by scholars and theologians The Lost Gospels spread far and wide crossing geographic and religious borders The ancient Gospel of Nicodemus penetrated into Southern and Central Asia while both Muslims and Jews wrote and propagated gospels of their own In Europe meanwhile it was not until the Reformation and Counter Reformation that the Lost Gospels were effectively driven from churches But still many survived and some continue to shape Christian practice and belief in our own day

Offering a revelatory new perspective on the formation of the biblical canon the nature of the early Church and the evolution of Christianity *The Many Faces of Christ* restores these Lost Gospels to their central place in Christian history *The Literary Imagination in Jewish Antiquity* Eva Mroczek, 2016-05-05 Winner of the 2017 Manfred Lautenschlaeger Award for Theological Promise Winner of the 2017 The George A and Jean S DeLong Book History Book Prize The discovery of the Dead Sea Scrolls revealed a world of early Jewish writing larger than the Bible from multiple versions of biblical texts to revealed books not found in our canon Despite this diversity the way we read Second Temple Jewish literature remains constrained by two anachronistic categories a theological one Bible and a bibliographic one book *The Literary Imagination in Jewish Antiquity* suggests ways of thinking about how Jews understood their own literature before these categories had emerged In many Jewish texts there is an awareness of a vast tradition of divine writing found in multiple locations that is only partially revealed in available scribal collections Ancient heroes such as David are imagined not simply as scriptural authors but as multidimensional characters who come to be known as great writers who are honored as founders of growing textual traditions Scribes recognize the divine origin of texts such as Enoch literature and other writings revealed to ancient patriarchs which present themselves not as derivative of the material that we now call biblical but prior to it Sacred writing stretches back to the dawn of time yet new discoveries are always around the corner Using familiar sources such as the Psalms Ben Sira and Jubilees Eva Mroczek tells an unfamiliar story about sacred writing not bound in a Bible In listening to the way ancient writers describe their own literature rife with their own metaphors and narratives about writing *The Literary Imagination in Jewish Antiquity* also argues for greater suppleness in our own scholarly imagination no longer bound by modern canonical and bibliographic assumptions
