Everyday Ethics Simon Longstaff,2017-07-01 Do I buy eggs laid by free range chooks or the cheaper ones from caged birds Do I tell my best friend I saw her boyfriend kissing another girl Do I lie to my mum by telling her I will wear the jumper she bought me even though it s the ugliest jumper in the world Every day our lives are punctuated by points of decision Some of these decisions will be momentous remembered for decades most will go unnoticed by us and by others Yet all our choices matter taken as a whole they shape our lives and contribute to the rhythms of the world In Everyday Ethics Australia s leading authority on ethics Simon Longstaff provides a map to help you better navigate the landscape of daily decisions more ethically Using a broad range of topics and examples to provoke eye opening reflection and discussion Everyday Ethics is a lesson in how even our smallest choices can matter and an empowering guide that will help us discover what is good and what is right

What Would You Do?, Leader's Guide Lorraine L. Ukens,2007-12-19 The What Would You Do game contains eight decision making scenarios For each scenario players have to decide whether to take a collaborative or competitive road scoring points for each of several rounds Points are based on how an individual s choice compares with those of the other players in the group At the end of the game players compare their decisions with the other players The first scenario mirrors the original Prisoner s Dilemma two prisoners are captured and brought in for questioning Each has to decide whether to collaborate which results in a lighter sentence or save their own skin which results in no punishment for one prisoner and a heavy sentence for the other Each of the next seven scenarios introduces additional problems that turn up the heat and force the participants to make increasingly difficult ethical decisions

Responsible Decision Making Laszlo Zsolnai,2017-07-28 What should I do How should I deal with this How should I behave How should I act we ask ourselves daily But this is only the first part of the sentence while the full sentence is What should I do to achieve such and such for example to complete an assigned task to do well before my boss or a client to be pleased with myself to carry out my plans to make money in the stock market to pass an exam to complete an application etc These and similar questions that people ask consciously or not openly or not are decisions What skills must we master especially when there is a need to make not only elementary decisions but also decisions that affect the existence health and even lives of people First Laszlo Zsolnai writes that we should acquire the skill of gaining knowledge Only then will we stand a chance of reacting to things that are improbable today but could become a fact tomorrow Also essential is the skill of designing i e preparing actions conceptually in order to make decisions before irreversible changes occur Finally it is essential to master the skill of multidimensional judgment within the space defined by effectiveness efficiency and ethics This is Zsolnai s attempt to build a model of making ethical decisions both effectively and efficiently Therefore the model is much broader than purely an analytical framework would be It must tell us how to act rather than limit us to reflection on actions

already performed it must combine decision and praxiological analysis of human conduct The proposed model enlarges the scope of the debate and suggests new avenues of both rational and responsible decision making This is an original statement of the crossover of policy and morality *Moral Decision Making* Clancy W. Martin, 2014 *How Good People Make Tough Choices Rev Ed* Rushworth M. Kidder, 2009-11-24 This insightful and brilliant analysis of ethics teaches readers valuable skills in evaluating tough choices and arriving at sound conclusions A thought provoking guide to enlightened and progressive personal behavior Jimmy Carter An essential guide to ethical action updated for our challenging times How Good People Make Tough Choices by Rushworth M Kidder offers practical tools for dealing with the difficult moral dilemmas we face in our everyday lives The founder and president of the Institute for Global Ethics Dr Kidder provides guidelines for making the important decisions in situations that may not be that clear cut from most private and personal to the most public and global Former U S senator and NBA legend Bill Bradley calls How Good People Make Tough Choices a valuable guide to more informed and self conscious moral judgments **Making Ethical Decisions** Michael S. Josephson, 1992
