Teacher Evaluation in Second Language Education Amanda Howard, Helen Donaghue, 2014-12-18 Effective language learning depends on effective instruction In order to investigate whether or not this is taking place teachers classroom pedagogical practices both in service and pre service are frequently monitored by means of observation and feedback However research indicates that although this process has potential value for teacher learning and development there are also a number of attendant problems and it is therefore important that practitioners share their experience with others in the field in order to expand the existing knowledge base This volume investigates participant experiences looking beyond the materials used and examining the way in which language teachers are evaluated and supported throughout their careers Particular attention is given to the practices and frameworks involved outlining key approaches and discussing tools for investigation and collaboration The book highlights the importance of the use of talk to foster reflection and teacher learning the value of learning from experienced others and the importance of giving voice to all those involved in the process of development and evaluation

Multi-Dimensional Analysis Tony Berber Sardinha, Marcia Veirano Pinto, 2019-03-21 Multi Dimensional Analysis Research Methods and Current Issues provides a comprehensive guide both to the statistical methods in Multi Dimensional Analysis MDA and its key elements such as corpus building tagging and tools The major goal is to explain the steps involved in the method so that readers may better understand this complex research framework and conduct MD research on their own Multi Dimensional Analysis is a method that allows the researcher to describe different registers textual varieties defined by their social use such as academic settings regional discourse social media movies and pop songs Through multivariate statistical techniques MDA identifies complementary correlation groupings of dozens of variables including

variables which belong both to the grammatical and semantic domains. Such groupings are then associated with situational variables of texts like information density, orality and narrativity to determine linguistic constructs known as dimensions of variation which provide a scale for the comparison of a large number of texts and registers. This book is a comprehensive research guide to MDA. *Researching Discourse Competence in Monologic L2 Performance* Claudia Vásquez Fernández, 2025-07-02. This book introduces you to an exploration of discourse competence as a core component of successful second language L2 communication, highlighting its role to promote overall intelligibility levels in L2 learner performance. In doing so, this volume promotes the examination of L2 learner output from a discourse-oriented perspective through the articulation of discourse competence in terms of textual resources of cohesion and coherence, thus making the construct both instructable and researchable. Building on decades of L2 performance research, particularly within the Task-based Language Teaching (TBLT) approach, this book explores the potential of planning time as a pedagogical tool to promote discourse competence in second language L2 learners and enhance overall levels of intelligibility in oral task performance. Including guidelines for investigating L2 learner performance and lesson plans for the practical teaching of discourse resources in the L2 classrooms, this book promotes research of discursive aspects of L2 learner task performance and the implementation of an overall discourse-oriented perspective in the L2 classroom. This book constitutes a valuable resource for researchers, university students, instructors, and academics involved in the L2 teaching and learning field, thus making it an essential reading for professionals in applied linguistics and language teaching associations worldwide. **Continuum Companion to Research Methods in Applied Linguistics** Brian Paltridge, Aek Phakiti, 2010-04-04. Data Collection Research Methods in Applied Linguistics Heath Rose, Jim McKinley, Jessica Briggs Baffoe-Djan, 2019-11-28 The successful collection of data is a key challenge to obtaining reliable and valid results in applied linguistics research Data Collection Research

Methods in Applied Linguistics investigates how research is conducted in the field encompassing the challenges and obstacles applied linguists face in collecting good data. The book explores frequently used data collection techniques including interviews and focus groups, observations, stimulated recall, and think aloud protocols, data elicitation tasks, corpus methods, questionnaires, validated tests, and measures. Each chapter focuses on one type of data collection, outlining key concepts, threats to reliability and validity, procedures for good data collection, and implications for researchers. The chapters also include exemplary research projects showcasing and explaining for readers how the technique was used to collect data in a successfully published study. This book is an essential resource for both novice and experienced applied linguists tackling data collection techniques for the first time. *Research Methods for Digital Discourse Analysis* Camilla Vásquez, 2022-02-24

Introducing the key questions and challenges faced by the researcher of digital discourse, this book provides an overview of the different methodological dimensions associated with this type of research. Bringing together a team of experts, chapters guide students and novice researchers through how to conduct rigorous, accurate, and ethical research with data from a wide range of online platforms including Facebook, Instagram, Twitter, YouTube, and online dating apps. *Research Methods for Digital Discourse Analysis* focuses on the key issues that any digital discourse analyst must consider before tackling more specific topics and approaches, including how to work with multilingual or multimodal data. Emphasizing concrete practical advice and illustrated with plentiful examples from research studies, each chapter introduces a new research dimension for consideration, briefly exploring how other discourse analysts have approached the topic before using an in-depth case study to highlight the main challenges and provide guidance on methodological decision making. Supported by a range of pedagogical tools including discussion questions and annotated further reading lists, this book is an essential resource for students and any researcher new to analyzing digital discourse. *Eye Tracking in Linguistics* Salvatore Attardo, Lucy Pickering, 2023-02-09

What is eye tracking? Why is it important for linguistics? How can I use it in my own research project? Answering these questions and more, this book guides you through one of the most exciting and innovative research methods in the field of linguistics. Divided into three parts, the chapters first offer an historical introduction and a foundational overview to the neurology and physiology of the eye and the common measurements and tools used in eye tracking. They then provide a guide to the applications of eye tracking most pertinent to linguists: reading the visual world paradigm, social eye tracking, and classroom applications, followed by a step-by-step process to plan, execute, analyze, and report your research project in eye tracking. The book covers topics such as reading, lexical and syntactic processing, mind wandering, second language acquisition, and AAC devices and includes statistical tools and how to write up results. Each chapter also includes self-study questions and a range of applied case studies. Supported by a glossary of key terms, suggestions for further reading, and material to aid self-study, *Eye Tracking in Linguistics* is the only book you need to provide a solid foundation for your own research project. **Textbook English** Elen Le Foll, 2024-07-15

This book provides a systematic empirical account of the

language typically presented in English as a Foreign Language EFL textbooks based on a large corpus of EFL textbooks used in secondary schools A modified version of the Multi Dimensional Analysis MDA framework serves to examine linguistic variation both within textbooks and compared to corpora representing real life English as used outside the EFL classroom The results highlight the characteristics of Textbook English that define it as a distinct variety of English In light of the study's pedagogical implications this book proposes a range of corpus based approaches to improve the naturalness of textbook texts It also contributes to advancing quantitative corpus linguistics methodology its detailed online supplements aim for methodological transparency and reproducibility in line with the principles of Open Science This book will be of interest to linguistics and language education students and researchers as well as EFL teachers textbook authors and editors and those involved in curriculum development and teacher training
