On Emerging from Hyper-Nation Ronald W. Sousa, 2015-04-15 On Emerging from Hyper Nation represents Ronald W Sousa's attempt to answer the question Why do I smile on reading one of Saramago's historical novels Why that reaction of emotional release To answer the smile question the book engages in a critical mode that could be described as discourse analysis It combines several critical strains and relies on basic concepts from Freudian and Lacanian psychoanalysis Adlerian psychology and contemporary cognitive psychology for their discourse analytical value rather than as entries into psychoanalytical reading per se The introductory chapter presents some of the concepts that underlie that compound analytical modality and sets out an overview of twentieth century Portuguese social and economic history Then with an eye to answering the smile question the book reads Nobel Laureate José Saramago's three novels Baltasar and Blimunda 1982 The Year of the Death of Ricardo Reis 1984 and The History of the

Siege of Lisbon 1989 Or better it seeks to read Sousa's own reading of the three works since focus falls on how each novel seeks to construct both its own reading and also Sousa as its reader The discussion brings to light a number of textual phenomena that bear upon the smile question Among them are that the novels invoke often subtly the fascist hermeneutical heritage remaining from before the revolution of 1974 as a constituent part of their communication with the reader that they summon up historical trauma that they function as Freudian style tendentious jokes and that through these various invocations they seek to constitute a postrevolutionary Portuguese subject The reading of Sousa's reading then ends up being a reading of some of the cultural forces at work in postrevolutionary Portugal **Lonely Planet Portugal** Lonely

Utopias of Otherness Fernando Arenas, 2003 Forges a new understanding of how these two Lusophone nations are connected. The closely entwined histories of Portugal and Brazil remain key references for understanding developments past and present in either country. Accordingly, Fernando Arenas considers Portugal and Brazil in relation to one another in this exploration of changing definitions of nationhood, subjectivity, and utopias in both cultures. Examining the two nations' shared language and histories as well as their cultural, social, and political points of divergence, Arenas pursues these definitive changes through the realms of literature, intellectual thought, popular culture, and political discourse. Both Brazil and Portugal are subject to the economic, political, and cultural forces of postmodern globalization. Arenas analyzes responses to these trends in contemporary writers, including José Saramago, Caio Fernando Abreu, Maria Isabel Barreno, Vergílio Ferreira, Clarice Lispector, and Maria Gabriela Llansol. Ultimately, *Utopias of Otherness* shows how these writers have redefined the concept of nationhood not only through their investment in utopian or emancipatory causes such as Marxist revolution, women's liberation, or sexual revolution, but also by shifting their attention to alternative modes of conceiving the ethical and political realms.
