**Thomas Thorpe** Thomas Thorpe,1840      Papacy, Councils and Canon Law in the 11th-12th Centuries Robert  
Somerville,2024-10-28 Professor Somerville deals here with the history of Latin Christianity at a crucial time the century of  
the Gregorian reform movement and of the Investiture conflict between the papacy and the empire The articles are  
concerned with the policies of the popes as expressed in their letters and the canons of the councils they summoned and with  
the impact on the life and laws of the Church Conciliar history indeed forms the main focus of the volume and the author's  
aim has been to subject the relevant texts and manuscripts to detailed scrutiny in order to determine their veracity and  
chronology In so doing he also demolishes some of the pseudo historical problems that have arisen from an uncritical  
reliance upon early printed editions This investigation of the texts is of evident importance for the study of canon law but it  
also shows how they can serve as valuable sources for the history of the Western Middle Ages revealing much about life in  
the period as well as about papal politics Le professeur Sommerville traite ici de la chr ti nte latine au coeurs de la p riode
