**Going Stealth** Toby Beauchamp,2019-01-17 In Going Stealth Toby Beauchamp demonstrates how the enforcement of gender conformity is linked to state surveillance practices that identify threats based on racial gender national and ableist categories of difference Positioning surveillance as central to our understanding of transgender politics Beauchamp examines a range of issues from bathroom bills and TSA screening practices to Chelsea Manning s trial to show how security practices extend into the everyday aspects of our gendered lives He brings the fields of disability science and technology and surveillance studies into conversation with transgender studies to show how the scrutinizing of gender nonconformity is motivated less by explicit transgender identities than by the perceived threat that gender nonconformity poses to the U S racial and security state Beauchamp uses instances of gender surveillance to demonstrate how disciplinary power attempts to produce conformist citizens and regulate difference through discourses of security At the same time he contends that greater visibility and recognition for gender nonconformity while sometimes beneficial might actually enable the surveillance state to more effectively track measure and control trans bodies and identities

**Burnt Cork** Stephen Burge Johnson,2012 Beginning in the 1830s and continuing for more than a century blackface minstrelsy stage performances that claimed to represent the culture of black Americans remained arguably the most popular entertainment in North America A renewed scholarly interest in this contentious form of entertainment has produced studies treating a range of issues its contradictory depictions of class race and gender its role in the development of racial stereotyping and its legacy in humor dance and music and in live performance film and television The style and substance of minstrelsy persist in popular music tap and hip hop dance the language of the standup comic and everyday rituals of contemporary culture The blackface makeup all but disappeared for a time though its influence never diminished and recently even the makeup has been making a comeback This collection of original essays brings together a group of prominent scholars of blackface performance to reflect on this complex and troublesome tradition Essays consider the early relationship of the blackface performer with American politics and the antislavery movement the relationship of minstrels to the commonplace compromises of the touring show business and to the mechanization of the industrial revolution the exploration and exploitation of blackface in the mass media by D W Griffith and

Spike Lee in early sound animation and in reality television and the recent reappropriation of the form at home and abroad In addition to the editor contributors include Dale Cockrell Catherine Cole Louis Chude Sokei W T Lhamon Alice Maurice Nicholas Sammond and Linda Williams
