menschlichen Spezies gar um Big History die Zeit seit dem Urknall Oder handelt es sich eher um eine bestimmte Perspektive anhand derer auch die Geschichte eines kleinen Dorfes untersucht werden kann Welche Fragen lassen sich in globaler Perspektive besser beantworten welche Zusammenhänge kommen dadurch erst in den Blick Sebastian Conrad neben Jürgen Osterhammel wohl der bekannteste Vertreter der Globalgeschichte in Deutschland führt in die wichtigsten Fragen und Themen aber auch die Herausforderungen und die Kritik an der Globalgeschichte ein und zeigt dass das Denken in globalen Horizonten keineswegs eine neue Erfindung ist und auch keine Errungenschaft des Westens allein

historical change in technological utopias of human enhancement in prospects of human extinction in societal responses to the Anthropocene and in the imperative of bringing colonial patterns of historical injustice to justice Contemporary societies increasingly reclaim history from the academic pursuit of historiography On the one hand societal engagement in history is growing palpably History is literally everywhere in the fallen statues of past political regimes in trajectories of environmental degradation and in technological prospects of space expansion On the other hand societal demand for history seems to diminish rather than strengthen the authority of professionalized historical studies What do these societal historicities stand for How do they create pasts that matter What futures do they desire or attempt to avoid How do they view the historical transitions into those futures And what is the societal role of historical scholarship and scholarly conceptions of history in the plurihistoricity of contemporary historical culture By addressing these questions Simon's book is essential reading for everyone interested in the present and future of viewing the world historically *World Statehood* Heikki Patomäki, 2023-07-07
