*ASEAN-India Development and Cooperation Report 2015* Asean-India Centre, 2017-10-03 India's engagement with the Association of Southeast Asian Nations ASEAN is at the heart of its Look East Policy. As a regional bloc ASEAN has developed much faster than any of the other blocs in the Asia Pacific. With ASEAN and India working towards establishing a Comprehensive Free Trade Area through Regional Comprehensive Economic Partnership Agreement RCEP their cooperation will be key to promoting economic stability, competitiveness, growth and integration in the region. This Report provides a comparative analysis of the global and regional economies, examines the impact and implications of India-ASEAN integration, assesses policy priorities, effectiveness, implementation imperatives and challenges, and discusses themes central to the economic sustainability of the region including public and foreign policy, trade facilitation, financial and scientific cooperation, food security, energy cooperation and productivity and opportunities in the manufacturing and service sectors. It will be invaluable to scholars and researchers of economics, international relations, development studies, area studies as well as policy makers, administrators, private sector professionals and non-governmental organisations in the field. Routledge Handbook of Global Public Health in Asia Siân M. Griffiths, Jin Ling Tang, Eng Kiong Yeoh, 2014-04-16 Global public health is of growing concern to most governments and populations, nowhere more so than in Asia, the world's largest and most populous continent. Whilst major advances have been made in controlling infectious diseases through public health measures as well as clinical medical treatments, the world now faces other challenges including ageing populations and the epidemic crisis of obesity and non-communicable diseases. New emerging infections continue to develop and the growing threats to health due to environmental pollution and climate change increase the need for resilience and sustainability. These threats to health are global in nature and this Handbook will explore perspectives on current public health issues in South, Southeast and East Asia, informing global as well as regional debate. Whilst many books cite Western examples of the development of global public health, this Handbook brings together both Western and Eastern scholarship, creating a new global public health perspective suitable to face modern challenges in promoting the population's health. This Handbook is essential reading not only for students, professionals and scholars of global public health and related fields, but is also written to be accessible to those with a general interest in the health of Asia. AEC and the ASEAN Socio Cultural Community it is the economic pillar that generates immense debate due to its expected quantifiable benefits to member countries This book thus focuses on the ASEAN Economic Community and seeks to explain the need for building domestic consensus within the member countries It starts with an overview chapter describing the current achievements of the AEC It then explores possible explanations for the achievements non achievements and offers a hypothesis on conflicting economic interests in a country as one possible explanation for gaps in implementation This is because any form of economic liberalisation brings with it the winners and losers thereby raising resistance to liberalization measures and slowing down the implementation process The book includes six country chapters Indonesia Malaysia the Philippines Singapore Thailand and Vietnam that examine sources of domestic conflict s in greater detail and depth It also includes a regional chapter co authored by the ex Secretary General of ASEAN Mr Rodolfo Severino that brings out the political nature of ASEAN economic cooperation since its inception in 1976 For ASEAN beyond 2015 the book articulates the need to obtain a strong domestic consensus that supports the integration initiatives of the AEC This can be viewed as a way forward to accelerate and deepen integration within ASEAN The book concludes with some suggestions on how each country can move towards achieving domestic consensus based on the respective country level analysis
