Khost,2018-09-10 Bridging the disciplinary divide between writing and literature Rhetor Response introduces the concept and pedagogical applications of literary affordances the ways in which readers use and integrate literature into their own writing or lives Unconcerned with authorial intent interpretive meaning or critical reception affordance signifies a shift in focus from what literary texts mean and do to what one can do with them This book presents both opportunities and challenges to writing studies a field whose burgeoning disciplinary independence ironically relies on a sizable underclass of specialists in literature rather than writing Incorporating elements of rhetorical theory literary criticism pedagogical methodology political critique and psychological and philosophical memoir Peter H Khost complicates and revives the relevance of literature from belles lettres to fanfiction by turning from interpretation to affordance in order to identify readers applications of literary textual features to unrelated lived situations Rhetor Response theorizes and exemplifies literary affordance as a constructive step toward professional reconciliation as well as an entry into greater textual power and pleasure for students and readers It is a one of a kind resource for college writing program administrators faculty and scholars in English and writing studies and graduate and advanced undergraduate students across both disciplines

*Re/Writing the Center* Susan Lawrence,Terry Myers Zawacki,2019-03-15 Re Writing the Center illuminates how core writing center pedagogies and institutional arrangements are complicated by the need to create intentional targeted support for advanced graduate writers Most writing center tutors are undergraduates whose lack of familiarity with the genres preparatory knowledge and research processes integral to graduate level writing can leave them underprepared to assist graduate students Complicating the issue is that many of the graduate students who take advantage of writing center support are international students The essays in this volume show how to navigate the divide between traditional writing center theory and practices developed to support undergraduate writers and the growing demand for writing centers to meet the needs of advanced graduate writers Contributors address core assumptions of writing center pedagogy such as the concept of peers and peer tutoring the emphasis on one to one tutorials the positioning of tutors as generalists rather than specialists and even the notion of the writing center as the primary location or center of the tutoring process Re Writing the Center offers an imaginative perspective on the benefits writing centers can offer to graduate students and on the new
