Value Construction in the Creative Economy Rachel Granger, 2020-03-27 The book provides a critical and integrative analysis of value as it pertains to different aspects of creative and cultural industries The notion of value a frequently used but rarely considered term is deconstructed and considered as a spatial and structural impact an active resource and process and as soft institutions and embodied forms which collectively create a space through which value is constructed and negotiated This book consists of three main sections normative valuation value and transformation from interactions and process and embodied value Together the contributions assess what value means in the creative and cultural industries how it is

constructed and added through process and the way in which it is embodied in people and shaped through and by social space Especially relevant for postgraduate study and research in the creative and cultural industries where critical studies are key this book is also relevant for multiple disciplines which occupy the creative and cultural fields **Fashion Portfolio** Tamara Albu,Michelle Nahum-Albright,2023-03-14 Personal strategy and clear identity are key to successfully presenting yourself as a designer within the fashion industry Fashion Portfolio Create Curate Innovate is a practical guide to creating a far reaching portfolio emphasizing the value of personalized storytelling Its focus is in helping designers attain visual and conceptual clarity in representing their potential As part of a personal brand strategy the portfolio becomes a stronger sales tool This is why the book also explores research personal branding presentation materials on line and off line interview technique and follow up The book also includes a section on different fashion professional paths providing invaluable career advice not just for aspiring designers but all those looking to evolve into the fashion industry Case studies from successful recent graduates working across the world offer further insight on how to make your mark **British Qualifications** Kogan Page,2006 The field of professional academic and vocational qualifications is ever changing The new edition of this highly successful and practical guide provides thorough information on all developments Fully indexed it includes details on all university awards and over 200 career fields their professional and accrediting bodies levels of membership and qualifications It acts as an one stop guide for careers advisors students and parents and will also enable human resource managers to verify the qualifications of potential employees **Digital Textile Design, Second edition** Melanie Bowles,Ceri Isaac,2012-10-10 Digital Textile Design Second Edition covers everything students and practitioners of textile design will need to learn about designing and printing digitally The book examines how designers can access this technique looking at the work of those currently exploring its possibilities and provides an insight into the technology involved in digital textile printing Quality Education and International Partnership for Textile and Fashion Xinfeng Yan,Lihong Chen,Hafeezullah Memon,2023-07-02 This book mainly focuses on SDG4 Quality Education and aims to understand the past present and future of textile fashion apparel and related study majors of East African countries Professors and field experts in textile engineering of selected countries describe the potential and prospects of textile education and how it can lead to internationalization in the various chapters It also discusses the textile university alliance and the potential for international education related to textiles in the developing region With updated illustrations images data graphs and tables this book serves as a reference book for universities with textile engineering major in countries throughout the world *Crafting Textiles in the Digital Age* Nithikul Nimkulrat,Faith Kane,Kerry Walton,2016-09-08 In an era of increasingly available digital resources many textile designers and makers find themselves at an interesting juncture between traditional craft processes and newer digital technologies Highly specialized craft design practitioners may now elect to make use of digital processes in their work but often choose not to abandon craft skills fundamental to their practice and aim to balance the complex

connection between craft and digital processes The essays collected here consider this transition from the viewpoint of aesthetic opportunity arising in the textile designer's hands on experimentation with material and digital technologies available in the present Craft provides the foundations for thinking within the design and production of textiles and as such may provide some clues in the transition to creative and thoughtful use of current and future digital technologies Within the framework of current challenges relating to sustainable development globalization and economic constraints it is important to interrogate and question how we might go about using established and emerging technologies in textiles in a positive manner

elementos que el diseñador debe considerar para realizar una creación de moda. Es así que el proceso intelectual inmerso en la elaboración de sus creaciones merece ser protegido por el régimen jurídico. A la luz de la propiedad intelectual, muchos derechos permiten protegerla; entre ellos se destacan las marcas, el derecho de autor y los dibujos o modelos industriales. En Colombia, el legislador optó por el régimen de los diseños industriales para protegerla. El estudio conjunto de la industria de la moda a la luz de esta disciplina es de importancia considerable por cuanto su definición brinda al diseñador seguridad jurídica respecto del objeto de protección y del alcance del derecho. No obstante el dinamismo que caracteriza a la moda, revela que la legislación actual es inadecuada. Por esto, la obra presenta las dificultades existentes y las soluciones que otros regímenes jurídicos ofrecen con el fin de protegerla adecuadamente.
