Wyszynski,2002-08-01

Major advances in the diagnosis and treatment of oral clefts have been made in the past 50 years and recent genetics and epidemiological studies have led to new theories about the causes of cleft lip and palate Addressing issues that are relevant to clinicians researchers and family members this book is a comprehensive well illustrated and up to date account of the many facets of this common disorder The authors describe the embryological and molecular mechanisms of cleft causation present and illustrate the genetic and epidemiological methods used to identify risk factors for oral clefts and describe treatments by the various professionals of the cleft team A section is also devoted to the integration of research findings into public health practice including ethical and financial considerations The book draws together such diverse disciplines as craniofacial development gene mapping epidemiology medicine ethics health economics and health policy and management and it will be an invaluable reference work **A Commentary, Critical and Explanatory, on the Old and New**

Testaments Robert Jamieson,Andrew Robert Fausset,David Brown,1872 **New Directions in Biocultural Anthropology** Molly K. Zuckerman,Debra L. Martin,2016-10-17 Biocultural or biosocial anthropology is a research approach that views biology and culture as dialectically and inextricably intertwined explicitly emphasizing the dynamic interaction between humans and their larger social cultural and physical environments The biocultural approach emerged in anthropology in the 1960s matured in the 1980s and is now one of the dominant paradigms in anthropology particularly

within biological anthropology This volume gathers contributions from the top scholars in biocultural anthropology focusing on six of the most influential productive and important areas of research within biocultural anthropology These are critical and synthetic approaches within biocultural anthropology biocultural approaches to identity including race and racism health diet and nutrition infectious disease from antiquity to the modern era epidemiologic transitions and population dynamics and inequality and violence studies Focusing on these six major areas of burgeoning research within biocultural anthropology makes the proposed volume timely widely applicable and useful to scholars engaging in biocultural research and students interested in the biocultural approach and synthetic in its coverage of contemporary scholarship in biocultural anthropology Students will be able to grasp the history of the biocultural approach and how that history continues to impact scholarship as well as the scope of current research within the approach and the foci of biocultural research into the future Importantly contributions in the text follow a consistent format of a discussion of method and theory relative to a particular aspect of the above six topics followed by a case study applying the surveyed method and theory This structure will engage students by providing real world examples of anthropological issues and demonstrating how biocultural method and theory can be used to elucidate and resolve them Key features include Contributions which span the breadth of approaches and topics within biological anthropology from the insights granted through work with ancient human remains to those granted through collaborative research with contemporary peoples Comprehensive treatment of diverse topics within biocultural anthropology from human variation and adaptability to recent disease pandemics the embodied effects of race and racism industrialization and the rise of allergy and autoimmune diseases and the sociopolitics of slavery and torture Contributions and sections united by thematically cohesive threads Clear jargon free language in a text that is designed to be pedagogically flexible contributions are written to be both understandable and engaging to both undergraduate and graduate students Provision of synthetic theory method and data in each contribution The use of richly contextualized case studies driven by empirical data Through case study driven contributions each chapter demonstrates how biocultural approaches can be used to better understand and resolve real world problems and anthropological issues
