Web Application Design Patterns Pawan Vora, 2009-03-12 Ever notice that in spite of their pervasiveness designing web applications is still challenging While their benefits motivate their creation there are no well established guidelines for design This often results in inconsistent behaviors and appearances even among web applications created by the same company Design patterns for web applications similar in concept to those for web sites and software design offer an effective solution In *Web Application Design Patterns* Pawan Vora documents design patterns for web applications by not only identifying design solutions for user interaction problems but also by examining the rationale for their effectiveness and by presenting how they should be applied Design interfaces faster with a better rationale for the solutions you choose Learn from over more than 100 patterns with extensive annotation on use and extension Take a short cut into understanding the industry with more than 500 full color screenshots

Inventing the Medium Janet H. Murray, 2011-11-23 A foundational text offering a unified design vocabulary and a common methodology for maximizing the expressive power of digital artifacts Digital artifacts from iPads to databases pervade our lives and the design decisions that shape them affect how we think act communicate and understand the world But the pace of change has been so rapid that technical innovation is outstripping design Interactors are often mystified and frustrated by their enticing but confusing new devices meanwhile product design teams struggle to articulate shared and enduring design goals With *Inventing the Medium* Janet Murray provides a unified vocabulary and a common methodology for the design of digital objects and environments It will be an essential guide for both students and practitioners in this evolving field Murray explains that innovative interaction designers should think of all objects made with bits whether games or Web pages robots or the latest killer apps as belonging to a single new medium the digital medium Designers can speed the process of useful and lasting innovation by focusing on the collective cultural task of inventing this new medium Exploring strategies for maximizing the expressive power of digital artifacts Murray identifies and examines four representational affordances of digital environments that provide the core palette for designers across applications computational procedures user participation navigable space and encyclopedic capacity Each chapter includes a set of Design Explorations creative exercises for students and thought experiments for practitioners that allow readers to apply the ideas in the chapter to particular design problems *Inventing the Medium* also provides more than 200 illustrations

of specific design strategies drawn from multiple genres and platforms and a glossary of design concepts

Efficient Information Searching on the Web Jonas Fransson, 2010-05 Information searching on the Web has become part of our everyday life Efficient Information Searching on the Web deals with different aspects which are important to become a better searcher To search for information is one of the most common occupations on the Web We do it for work for studies and in our spare time We search for information about illnesses far away countries or spare parts for the car The Web is an important source of information no matter if you are a journalist a student a university researcher or a teacher Everybody can become more effective when it comes to searching for information Central matters of the book are How does a search engine work How may the search services be used more efficiently What is the invisible Web How can the information be managed once it is found

The Social Semantic Web John G Breslin, Alexandre Passant, Stefan Decker, 2009-10-03 The Social Web including services such as MySpace Flickr last fm and WordPress has captured the attention of millions of users as well as billions of dollars in investment and acquisition Social websites evolving around the connections between people and their objects of interest are encountering boundaries in the areas of information integration dissemination reuse portability searchability automation and demanding tasks like querying The Semantic Web is an ideal platform for interlinking and performing operations on diverse person and object related data available from the Social Web and has produced a variety of approaches to overcome the boundaries being experienced in Social Web application areas After a short overview of both the Social Web and the Semantic Web Breslin et al describe some popular social media and social networking applications list their strengths and limitations and describe some applications of Semantic Web technology to address their current shortcomings by enhancing them with semantics Across these social websites they demonstrate a twofold approach for interconnecting the islands that are social websites with semantic technologies and for powering semantic applications with rich community created content They conclude with observations on how the application of Semantic Web technologies to the Social Web is leading towards the Social Semantic Web sometimes also called Web 3.0 forming a network of interlinked and semantically rich content and knowledge The book is intended for computer science professionals researchers and graduates interested in understanding the technologies and research issues involved in applying Semantic Web technologies to social software Practitioners and developers interested in applications such as blogs social networks or wikis will also learn about methods for increasing the levels of automation in these forms of Web communication

Bastard Culture! Mirko Tobias Schäfer, 2011 The computer and particularly the Internet have been represented as enabling technologies turning consumers into users and users into producers The unfolding online cultural production by users has been framed enthusiastically as participatory culture But while many studies of user activities and the use of the Internet tend to romanticize emerging media practices this book steps beyond the usual framework and analyzes user participation in the context of accompanying popular and scholarly discourse as well as the material aspects of

design and their relation to the practices of design and appropriation On Farming Mason White, Maya Przybylski, 2010 On Farming reveals the interdependencies of our globalized world as today information energy labour and landscape among others can be farmed Folksonomies Isabella Peters, 2009 Collaborative information services on Web 2 0 are used by Internet users to produce digital information resources and to furnish the contents of the resources with their own keywords so called tags This book deals with collaborative information services and folksonomies as a method of representing knowledge and a tool for information retrieval Collaborative information services on Web 2 0 are used by Internet users not only to produce digital information resources but also to furnish the contents of the resources with their own keywords so called tags Whilst doing so the user is not required to comply with rules as is necessary with a library catalogue The amount of user generated tags in a collaborative information service is referred to as folksonomy Folksonomies allow users to relocate their own resources and to search for other resources This book deals with collaborative information services and folksonomies both as a method of representing knowledge and a tool for information retrieval
