Basic Cqb Swat C Law Enforcement Training Letac:

TRAINING THE SWAT TRAINER Tomas C. Mijares, Marcus L. Wall, 2012-04-01 Few areas in American law enforcement are characterized by the frequency quality and magnitude of innovations as the advances found in tactical operations To introduce new equipment and methods during an actual operation without adequate instruction assessment preparation and practice not only invites failure but also subjects an entire organizational chain of command to preventable criticism and avoidable litigation The purpose of this manual is to introduce police instructional personnel to the legal administrative and safety issues associated with this very critical area of police training Its purpose is not to create a cookbook approach to tactical training or even develop a better instructional cadre but rather to present the guidelines to mitigate litigation both at the individual and organizational levels through a proactive approach to the occasional criticism directed toward police tactical training Major topics include the SWAT instructor establishing learning goals and objectives and writing lesson plans engaging the student presenting the material training aids and facilities the need for continuous training and evaluation documentation adhering to standards of the profession and special considerations of training in defense tactics The book s recurring theme is the warning that any technique tactic or new technology taught by an instructor must be applied in a manner that is consistent with existing organizational policy state and federal legislation and relevant case law Substantial legal and operational guidelines are provided that are needed by tactical leaders to develop and improve their leadership skills and tactical success Additionally the appendices contain a wealth of information regarding state law enforcement regulatory agencies national regional and state tactical officer associations sample lesson plans including evaluation drills instructor evaluation questionnaire and curriculum evaluation *SWAT PLOTS* Russell C. Davis, 1988 *SWAT PLOTS II* Russell C. Davis, 1996 *Single-Person Close Quarters Battle* Special Tactics, 2016-12-21 Military units and SWAT teams that specialize in Close Quarters Battle CQB typically bring a large force to the fight and often have numerous supporting assets such as snipers helicopters and tactical vehicles Thus the scenario of a single Soldier or SWAT officer having to operate alone is also relatively unlikely and often receives less attention However for ordinary citizens in a home defense scenario or for police officers responding to an emergency call the chances of having to operate alone are quite likely In these types of situations backup is frequently unavailable or will not arrive in time The citizens and officers who are forced to operate on their own face potentially the greatest risk yet there are almost no tactical references books videos or classes that provide useful information on the subject of single person tactics This manual and the associated training courses were developed by a team of experts with extensive special operations and law enforcement experience to help fill the dangerous capability and knowledge gap in the area of single person tactics This manual can provide citizens and officers with critical life saving tactical knowledge that will give them a marked advantage in an emergency situation The manual is designed to be short easy to read and focused on the most important information for surviving a real life

emergency The manual also uses many pictures and illustrations to accelerate learning and help students absorb knowledge faster It covers a wide range of tactical subjects including Clearing without entry Shallow entry limited penetration Deep entry Hallways Intersections Stairwells Multiple rooms The manual also provides specific suggestions on how to prepare for and deal with likely tactical scenarios including home invasion deadly attackers active shooter sniper attacks armed robbery and hostage situations *Performance Oriented Basic Law Enforcement Training Course* ,1973
