Italian Women at War Susan Amatangelo, 2016-08-03 Italian Women at War Sisters in Arms from Unification to the Twentieth Century offers diverse perspectives on Italian women's participation in war and conflict throughout Italy's modern history

contributing to the ongoing scholarly conversation on this topic Part one of the book focuses on heroines who fought for Italy's Unification and on the anti heroines or brigantesse who opposed such a momentous change Part two considers exceptional individuals such as Eva K hn Amendola who combatted both with her body and her pen as well as collective female efforts during the world wars whether military or civilian In part three where the context is twentieth century society the focus shifts to those women engaged in less conventional conflicts who resorted to different forms of revolt including active non violence All of the women presented across these chapters engage in combat to protest a particular state of affairs and effect change yet their weapons range from the literal like Peppa La Cannoniera's cannon to the metaphorical like Letizia Battaglia's camera Several of the essays in this volume discuss fictional heroines who appear in works of literature and film though all are based on actual women and reference real historical contexts Italian Women at War furthers the efforts begun decades ago to recognize Italian women combatants especially in light of the recent anniversary of the Unification in 2011 and global discussions regarding the role of women in the military Its aim is not to glorify violence and war but to celebrate the active role of Italian women in the evolution of their nation and to demystify the idea of the woman warrior who has always been viewed either as an extraordinary almost mythical creature or as an affront to the traditional feminine identity *Storia generale della letteratura italiana* Nino Borsellino, 1999 In depth history of Italian literature and culture Middle Ages to end of 20th century **Poetics, Ideology, Dissent** Valentina Vetri, 2023-05-24 This book examines the translations carried out by Italian novelist Beppe Fenoglio one of the most important Italian writers of the twentieth century It stems from the acknowledgement that Beppe Fenoglio's translations have not been examined in the political cultural and ideological context in which they were produced but have been dismissed as a purely linguistic exercise The author examines Fenoglio's translations as culturally and ideologically informed artistic expressions in which Fenoglio was able to give voice to his dissent towards the mainstream ideology and poetics of his times often choosing authors and characters with whom he identified such as Shakespeare Milton and Marlowe The interaction between the theories of Translation Studies Literary Theory and Adaptation Studies foregrounds the centrality of the role of the translator showing how Fenoglio's ideology and poetics were clearly visible both in the selection of the texts he translated and in his translation strategies
