Pirner, Johannes Lähnemann, Heiner Bielefeldt, 2016-07-15 What is the role of religions in a human rights culture and in human rights education How do human rights and religion relate in the context of public education And what can religious education at public schools contribute to human rights education These are the core questions addressed by this book Stimulating deliberations illuminating analyses and promising conceptual perspectives are offered by renowned experts from ten countries and diverse academic disciplines *Religious Rights* Lorenzo Zucca, 2017-05-15 The central focus of this collection of essays is the role and place of freedom of religion in the protection and promotion of world order The volume offers competing models of world order from a global perspective and highlights the lack of consensus and considerable variety of practice and belief around the globe as to the definition of religious freedom and where and whether freedom of religion is regarded as the first freedom in the world The leading theories of freedom of religion are discussed and provide an understanding of freedom of religion beyond the nation state The liberal view at the global level is also examined and observations are included regarding the need to rethink secularism in the light of present circumstances and within the global context **Practice-Led Theology** Neil K. Habermas Axel Honneth and Rainer Forst have defended ideas of progress development and modernity and have even made such ideas central to their normative claims Can the Frankfurt School's goal of radical social change survive this critique And what would a decolonized critical theory look like Amy Allen fractures critical theory from within by dispensing with its progressive reading of history while retaining its notion of progress as a political imperative so eloquently defended by Adorno Critical theory according to Allen is the best resource we have for achieving emancipatory social goals In reimagining a decolonized critical theory after the end of progress she rescues it from oblivion and gives it a future

Pirner,Johannes Lahnemann,Werner Haussmann,Susanne Schwarz,2019-01-23 In order to draw out the relationship between publicly oriented Christianity and education this book demonstrates that education is an important method and prerequisite of public theology as well as an urgent object of public theology research s attention Featuring work from diverse academic disciplines including religion education theology philosophy and religious studies this edited collection also contends with the educational challenges that come with the decline of religion on the one hand and its transformation and regained public relevance on the other Taken together the contributions to this volume provide a comprehensive argument for why education deserves systematic attention in the context of public theology discourse and vice versa Finding Faith in Foreign Policy Gregorio Bettiza,2019-06-04 Since the end of the Cold War religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains US foreign policymakers for instance have been increasingly tasked with monitoring religious freedom and promoting it globally delivering humanitarian and development aid abroad by drawing on faith based organizations fighting global terrorism by seeking to reform Muslim societies and Islamic theologies and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics Simply put religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago In Finding Faith in Foreign Policy Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy leading the most powerful state in the international

system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe Drawing from a rich evidentiary base spanning twenty five years Finding Faith in Foreign Policy details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system **Technopolitics** Constantino Pereira Martins (Ed.),2024-09-24 Technopolitics is a follow up book that intends to depart and expand the concept of Cyberpolitics to all the dimensions and effects of technology in our lives but placing politics at the center of debate and thought Most investigations in the fields of Humanities have highlighted the impact of digitization and social virtualization and mapped the transition from the Industrial Revolution and mass disciplinary society to the digital revolution telework and social atomism The fusion of disruptive technologies is changing the fundamentals of our world almost roaming on its own towards a near future with unprecedented and unpredictable outcomes This new technological reason implies a rupture and a paradigm shift in the radical transition from an instrumental reason auxiliary to an autonomous reason essential This means the impossibility of further sustaining the illusion of technological neutrality Science culture and technology appear to be merging and in combat simultaneously And all fields of knowledge are alert to a main idea how deep is technology shaping our societies and politics Regardless of the outcome an age of instability is also an age of challenges In our era of uncertainty and while our civilization moves forward toward a hyper technological future we should not forget to discuss and reflect on the values and ethics we would like to survive the ruin of time and to pass on to the next generations
