Big Java Late Objects:

Big Java Cay S. Horstmann, 2014-08-26 *Big Java Late Objects* is a comprehensive introduction to Java and computer programming which focuses on the principles of programming software engineering and effective learning. It is designed for a two semester first course in programming for computer science students. Using an innovative visual design that leads readers step by step through intricacies of Java programming, *Big Java Late Objects* instills confidence in beginning programmers and confidence leads to success.

Big Java Cay S. Horstmann, 2019 This book is an introduction to Java and computer programming that focuses on the essentials and on effective learning. The book is designed to serve a wide range of student interests and abilities and is suitable for a first course in programming for computer scientists, engineers, and students in other disciplines. No prior programming experience is required and only a modest amount of high school algebra is needed.

Big Java, Binder Ready Version Cay S. Horstmann, 2016-09-13 Cay Horstmann's *Big Java Late Objects* 2nd Edition provides a comprehensive and approachable introduction to fundamental programming techniques and design skills and helps students master basic concepts and become competent coders. The inclusion of advanced chapters makes the text suitable for a 2 or 3 term sequence or as a comprehensive reference to programming in Python. Major rewrites and an updated visual design make this student friendly text even more engaging. Filled with realistic programming examples, a great quantity and variety of homework assignments and lab exercises that build student problem solving abilities, it is no surprise *Big Java Late Objects* is the number one text for early objects in the Python market. This text is an unbound three hole punched version.
