Difference And Repetition Gilles Deleuze:

Difference and Repetition Gilles Deleuze, 2014-10-23 Since its publication in 1968 *Difference and Repetition* an exposition of the critique of identity has come to be considered a contemporary classic in philosophy and one of Gilles Deleuze's most important works. The text follows the development of two central concepts: those of pure difference and complex repetition. It shows how the two concepts are related: difference implying divergence and decentring; repetition being associated with displacement and disguising. The work moves deftly between Hegel, Kierkegaard, Freud, Althusser and Nietzsche to establish a fundamental critique of Western metaphysics and has been a central text in initiating the shift in French thought away from Hegel and Marx towards Nietzsche and Freud. *Gilles Deleuze's Difference and Repetition* James Williams, 2013-01-31 A new edition of this introduction to Deleuze's seminal work *Difference and Repetition* with new material on intensity, science and action and new engagements with Bryant, Sauvagnargues, Smith, Somers, Hall and de Beistegui. **Deleuze's Difference and Repetition** Joe Hughes, 2009 **Gilles Deleuze's Difference and Repetition** James Williams, 2008-01-01 This is the first critical introduction to *Difference and Repetition* Gilles Deleuze's most important work of philosophy and one of the most significant texts of contemporary philosophy. In offering a critical analysis of Deleuze's methods, principles and arguments, the book enables readers to engage with the revolutionary core of Deleuze's philosophy and take up favourable or critical positions with respect to its most innovative and controversial ideas. The book will also help to extend Deleuze's work to philosophers working in the analytic tradition. Poetry and Repetition Krystyna Mazur, 2006-06-02 The work of Walt Whitman, Wallace Stevens and John Ashbery is analysed in order to discern the patterns which may operate across a broad range of examples as well as to consider the variety of ways repetition can structure a poetic text. Gilles Deleuze and Félix Guattari François Dosse, 2011 In May 1968 Gilles Deleuze was an established philosopher teaching at the innovative Vincennes University just outside of Paris. Félix Guattari was a political militant and director of an unusual psychiatric clinic at La Borde. Their meeting was unlikely and the two were introduced in an arranged encounter of epic consequence. From that moment on, Deleuze and Guattari engaged in a surprising, productive partnership, collaborating on several groundbreaking works including *Anti-Oedipus*, *What Is Philosophy?* and *A Thousand Plateaus*. François Dosse, a prominent French intellectual, examines the prolific if improbable relationship between two men of distinct and differing sensibilities. Drawing on unpublished archives and hundreds of personal interviews, Dosse elucidates a collaboration that lasted more than two decades, underscoring the role that family and history, particularly the turbulence of May 1968, played in their monumental work. He also takes the measure of Deleuze and Guattari's posthumous fortunes and weighs the impact of their thought within intellectual, academic and professional circles. Bergson and the Metaphysics of Media S. Crocker, 2013-09-22 What is a medium? Why is there always a middle? Can media produce immediacy? Henri Bergson recognized mediation as the central philosophical problem of modernity. This book traces his influence on the media

philosophies of Gilles Deleuze Marshall McLuhan Walter Benjamin and Michel Serres **Subjective Agency and Poststructuralism** Cillian Ó Fathaigh, Gavin Rae, 2024-12-02 Poststructuralism has long been acknowledged to offer a radical critique of the foundational subject as a precursor to affirming a constituted subject Its detractors have however held that the resultant position cannot offer a coherent account of agency strong version or alternatively that while it may be able to account for non subjective agency it is unable to develop a coherent explanation for subjective agency weak version Somewhat strangely this issue has been largely ignored by commentators predisposed to poststructuralist thought In contrast this volume focuses on the works of Judith Butler Cornelius Castoriadis Gilles Deleuze Jacques Derrida Michel Foucault Luce Irigaray Jacques Lacan and Catherine Malabou to show that the question of the subject is a key one for many poststructuralist thinkers that they are aware of the problematic status of agency that arises from their decentering of the foundational subject and that they offer heterogeneous responses to it Subjective Agency and Poststructuralism will therefore be an invaluable resource for researchers and advanced students interested in philosophy political theory psychoanalysis critical theory history of ideas feminist theory and cultural studies *Deleuze's Difference and Repetition* Henry Somers-Hall, 2013 When students read *Difference and Repetition* for the first time they face two main hurdles the wide range of philosophical sources Deleuze draws upon and the density of his philosophical prose Henry Somers Hall situates Deleuze within the broader philosophical tradition and makes it clear why he develops his philosophy in the way that he does

Deleuze and Philosophy Keith Ansell-Pearson, 1997 This searching new collection considers Deleuze's relation to the philosophical tradition and beyond to the future of philosophy science and technology **The Unpredictability of Gameplay** Mark R. Johnson, 2018-12-27 *The Unpredictability of Gameplay* explores the many forms of unpredictability in games and proposes a comprehensive theoretical framework for understanding and categorizing non deterministic game mechanics Rather than viewing all game mechanics with unpredictable outcomes as a single concept Mark R Johnson develops a three part typology for such mechanics distinguishing between randomness chance and luck in gameplay assessing games that range from grand strategy and MMORPGs to slot machines and card games He also explores forms of unanticipated unpredictability where elements of games fail to function as intended and create new forms of gameplay in the process Covering a range of game concepts using these frameworks *The Unpredictability of Gameplay* then explores three illustrative case studies 1 procedural generation 2 replay value and grinding and 3 player made practices designed to reduce the level of luck in non deterministic games Throughout Johnson demonstrates the importance of looking more deeply at unpredictability in games and game design and the various ways in which unpredictability manifests while offering an invaluable tool for game scholars and game designers seeking to integrate unpredictability into their work

Philosophical Guide helps students to negotiate these hurdles taking them through the text paragraph by paragraph It situates Deleuze within Continental philosophy more broadly and explains why he develops his philosophy in his unique way If you're a seasoned Deleuzian there's something here for you too you won't want to miss Henry Somers Hall's new positive interpretation of Difference and Repetition

Cluttered Universes of Samuel Beckett and Tadeusz Kantor Michał Kisiel, 2025-08-08 Cluttered Universes of Samuel Beckett and Tadeusz Kantor is a collection of four essays bringing Kantor's and Beckett's texts, theatres and theories into conversation with deconstruction, new materialism, environmental humanities and posthumanism This book is dedicated to two artists rarely discussed together to see how their awareness of poetics and performativity of matter might help us understand our connection to the material world even if the world is falling apart Jane Bennett, Karen Barad, Rosi Braidotti, Donna Haraway, Timothy Morton and others pave the way for new critical interpretations of canonical works which are recognised as universes cluttered with matter, objects, things and other nonhuman visitors of seemingly exclusive human domains Kisiel shows that Beckett's and Kantor's carefulness and care for imagining nonhuman human relationships might refresh our understanding of memory, togetherness, death or even the end of the world for the Anthropocene

Change Through Repetition Yarden Ben-Zur, Babylonia, Constantinides, Alexander García Düttmann, Simon Gröger, Annika Haas, Leonie Hunter, Elisa Leroy, Bahar Majdzadeh, Brigitte Rath, Doris Rebhan, Florencia Sannders, Burak Üzümkesci, Matthias Warstat, Penny Dan Xu, Johanna Zorn, 2020-12-03 Art and politics are related through repetition Both realms are structured by practices of repetition and share a common room of sense, quality, aesthetics in the emphatic sense of the word It is the aesthetics and practices of repetition that reveal the relation between both realms This volume proposes to explore aesthetic and cultural phenomena that effect change in the non-aesthetical realm not so much in spite but precisely because of their being mere repetitions Repetition shapes art works through procedures and processes of reproduction, copying, depiction or reenactment As representation of the world, mimetic art's relationship to the political and social world can be conceived as repetition When can mimetic works of art nonetheless become a trigger, participant in or vehicle for political and social transformation How do mimetic practices as diverse as those of the Research Institute Forensic Architecture, the theater of Milo Rau, video installations with found footage from social media and the fictional NSK State address and change regimes of visibility How can practices such as performative gender constitution and propaganda which ostensibly affirm regimes of visibility be understood as processes of change through repetition How do commemorative cultures and practices of documentation interrelate How is historical reality produced through mimesis with a view to an imaginary political future By exploring works of art from a wide range of historical periods, places, media and contexts from the political thought hidden in Hegel's Aesthetics through Hélène Cixous's practice of writing differences from contemporary applied theater through the Gezi Park Uprising in 2013 and from installations of fictional national museums through to the artistic commemoration of assassinated political activists in Iran, all contributions in this volume attempt to

show how a concept of change through repetition can help redefine the relationship between art and politics and to enlighten us on the transformative potential of repetition in political art

Early Twentieth-Century Continental Philosophy Leonard Lawlor, 2012 Early Twentieth Century Continental Philosophy elaborates the basic project of contemporary continental philosophy which culminates in a movement toward the outside Leonard Lawlor interprets key texts by major figures in the continental tradition including Bergson Foucault Freud Heidegger Husserl and Merleau Ponty to develop the broad sweep of the aims of continental philosophy Lawlor discusses major theoretical trends in the work of these philosophers immanence difference multiplicity and the overcoming of metaphysics His conception of continental philosophy as a unified project enables Lawlor to think beyond its European origins and envision a global sphere of philosophical inquiry that will revitalize the field

The Polyphonic Machine Niall H.D. Geraghty, 2019-01-29 Focusing on the work of the Argentine authors César Aira Marcelo Cohen and Ricardo Piglia *The Polyphonic Machine* conducts a close analysis of the interrelations between capitalism and political violence in late twentieth century Argentina Taking a long historical view the book considers the most recent Argentine dictatorship of 1976-1983 together with its antecedents and its after effects exploring the transformations in power relations and conceptions of resistance which accompanied the political developments experienced throughout this period By tracing allusive fragments of Argentine political history and drawing on a range of literary and theoretical sources Geraghty proposes that Aira Cohen and Piglia propound a common analysis of Argentine politics during the twentieth century and construct a synergetic philosophical critique of capitalism and political violence The book thus constitutes a radical reappraisal of three of the most important authors in contemporary Argentine literature and contributes to the philosophical and historical understanding of the most recent Argentine military government and their systematic plan of state terrorism

Gilles Deleuze: Affirmation in Philosophy Jay Conway, 2010-10-27 Why does knowledge of philosophy presuppose knowledge of reality What are the characters in Deleuze's theatre and philosophy How are his famous metaphysical distinctions secondary to the concept of philosophy as practice and politics These questions are answered through careful analysis and application of Deleuzian principles
