Five Lectures on Psycho-Analysis Sigmund Freud, 2014-11-11 This early work by Sigmund Freud was originally published in 1910 and we are now republishing it with a brand new introductory biography Five Lectures on Psycho Analysis is a collection of lectures delivered by the father of psychoanalysis Sigismund Schlomo Freud was born on 6th May 1856 in the Moravian town of Pr bor now part of the Czech Republic He studied a variety of subjects including philosophy physiology and zoology graduating with an MD in 1881 Freud made a huge and lasting contribution to the field of psychology with many of his methods still being used in modern psychoanalysis He inspired much discussion on the wealth of theories he produced and the reactions to his works began a century of great psychological investigation Five Lectures on Psychoanalysis Sigmund Freud, 2024-08-28 In fall 1909 Dr Sigmund Freud gave a series of five lectures at the 20th anniversary celebration of the opening of Clark University in Worcester Massachusetts Joined by other speakers including Carl Jung this lecture series helped to disseminate the ideas of psychoanalysis on an international stage Dr Freud b 1856 d 1939 was the founder of psychoanalysis the clinical procedure of evaluating and treating mental disorders through revealing unconscious desires and repressed memories While his work is not as popular today as it once was it was revolutionary in its approach and has permeated nearly all of Western culture Dr Freud was a prolific writer and lecturer In 1909 he made his only visit to the United States where he presented this series of five lectures Dr Freud originally presented them in German without notes Freud later wrote them down and translations were first published in The American Journal of Psychology in April 1910 The five lectures describe the origins and development of his theory of psychoanalysis as far as it had reached in September 1909 In the first lecture Dr Freud explains how his colleague Dr Breuer developed the foundations of psychoanalysis when Freud himself was a student Dr Breuer had a patient who was suffering from a long list of ailments including paralysis on her right side impaired vision nausea and the inability to speak Attributing these symptoms to that vague malady hysteria Dr Breuer attempted a talking cure with the patient and worked to discover her psychic trauma through hypnosis The patient improved and Drs Breuer and Freud determined that unprocessed memories of traumatic experiences were causing her illness In the second lecture Dr Freud shares the next evolution of psychoanalysis in which he abandoned hypnotism As he learned that not all patients could be hypnotized he instead worked with them in their normal state Through conversation and suggestion Dr Freud drew out the repressed memories that the patient couldn't normally recall resolving the conflict between the patient's conscious and unconscious In the third lecture Dr Freud moves on to the interpretation of dreams He believed that dreams could reveal repressed wishes if the true meaning could be ascertained Through techniques like free association Dr Freud believed he and the patient could unlock the symbolism of dreams to reveal repressed desires Freud's fourth lecture explores a topic that he knew to be controversial how often he found that symptoms of disease root back to impressions from the sexual life and necessitate the assumption that to disturbances of the erotic sphere must be ascribed the greatest

significance among the etiological factors of the disease He acknowledged that this was not a popular view among his peers But he found that when patients realized they could disregard conventional restraints in a doctor patient relationship they revealed truths that very often pointed to sexual causes Finally Dr Freud discusses transference that phenomenon by which a neurotic applies to the person of the physician a great amount of tender emotion This process is crucial he believed in helping the patient to gain insight into their relationship patterns It was his belief that bringing repressed desires into consciousness would help people to master them or sublimate them for the good of both individuals and society While Dr Freud s trip to America was not perfect he found Americans far too informal he was delighted to find that the faculty at Clark University was familiar with his work As Freud said himself in his autobiography the trip was the realization of some incredible daydream psychoanalysis was no longer a product of delusion it had become a valuable part of reality
