Christian Mair English Linguistics Onleihe:

English Linguistics Bernd Kortmann,2020-10-28 This is the completely revised updated and enlarged 2nd edition of a classic textbook used in many English and linguistics departments in Germany for more than 20 years It serves both as an introduction for beginners and as a companion for more advanced undergraduate and graduate students familiarizing its readers with the major and distinctive properties of English Standard English as well major national regional and social varieties including an in depth structural comparison with German Written in an accessible style and with many reader friendly features including checklists with key terms and concepts basic and advanced exercises with solutions the book offers a state of the art survey of the core terminology and issues of the central branches of linguistics including an account of the major current research traditions and methodologies **Crossing Linguistic Boundaries** Paloma Núñez-Pertejo,María José López-Couso,Belén Méndez-Naya,Javier Pérez-Guerra,2019-12-26 Breaking away from previously rigid descriptions of the linguistic system of the English language Crossing Linguistic Boundaries explores fascinating case studies which refuse to fall neatly within the traditional definitions of linguistic domains and boundaries Bringing together leading international scholars in English linguistics this volume focusses on these controversies in relation to seeking to overcome the temporal and geographical limits of the English language Approaching tensions in the areas of English phonology and phonetics pragmatics semantics morphology and syntax chapters discuss not only British and American English but also a wide variety of geographical variants Containing synchronic and diachronic studies covering different periods in the history of English Crossing Linguistic Boundaries will appeal to anyone interested in linguistic variation in English **New Approaches to English Linguistics** Olga Timofeeva,Anne-Christine Gardner,Alpo Honkapohja,Sarah Chevalier,2016-11-01 This book aims at providing a cross section of current developments in English linguistics by tracing recent approaches to corpus linguistics and statistical methodology by introducing new inter and multidisciplinary refinements to empirical methodology and by documenting the on going emphasis shift within the discipline of English linguistics from the study of dominant language varieties to that of post colonial minority non standardised learner and L2 varieties Among the key focus areas that define research in the field of English linguistics today this selection concentrates on four corpus linguistics English as a global language cognitive linguistics and second language acquisition Most of the articles in this volume concentrate on at least two of these areas and at the same time bring in their own suggestions towards building bridges within and across sub disciples of linguistics and beyond **English Syntax** Jenny Arendholz,2022-02-14 This collection of pivotal issues about syntactic analysis bridges the gap between two extremes Quirk et al s classic yet voluminous standard grammar The Comprehensive Grammar of the English Language CGEL 1985 and slim booklets with sample solutions Written for students and teachers alike this textbook introduces basic concepts deepens preexisting knowledge prepares students for various exam contexts and provides hands on teaching material Each chapter provides

theoretical explanations which are immediately illustrated by numerous complete sample analyses of sentences taken both from the CGEL as well as from more recent British and American news articles The final part of this textbook offers a comprehensive practice section for self study using sentences which are divided into three levels of difficulty and come with model solutions **Handbuch Sprache und digitale Kommunikation** Jannis Androutsopoulos,Friedemann Vogel,2024-06-17 Sprache und Kommunikation in digitalen Medien sind Gegenstand sowohl anhaltender ffentlicher Debatten als auch einer mittlerweile drei igj hrigen interdisziplin ren Forschung Das vorliegende Handbuch fasst Ergebnisse dieser Forschung mit sprachwissenschaftlichem Schwerpunkt zusammen Die von ausgewiesenen Expert innen verfassten Beitr ge bieten Einsichten in die Interdependenzen technischer Plattformen u a Smartphones Social Media und semiotischer Ressourcen geschriebene und gesprochene Sprache Bildzeichen Memes und andere digitale Textartefakte bei der Konstituierung von Interaktion und Sozialit t sowie Gesellschaft und Diskurs Die Beitr ge untersuchen diese Wechselwirkungen auf verschiedenen Beschreibungsebenen Die Themen umfassen sprachlich semiotische Grundstrukturen und ihren Wandel u a Interpunktion Wortschatz Bildzeichen Bedingungen und Prozesse digital vermittelter Interaktion das Entstehen neuer Kommunikationspraktiken sowie die Dynamik digitaler Diskurse in Politik und Gesellschaft Das Handbuch richtet sich an Studierende und Wissenschaftler innen aller Disziplinen **Speech Acts in the History of English** Andreas H. Jucker,Irma Taavitsainen,2008-04-10 Did earlier speakers of English use the same speech acts that we use today Did they use them in the same way How did they signal speech act values and how did they negotiate them in case of uncertainty These are some of the questions that are addressed in this volume in innovative case studies that cover a wide range of speech acts from Old English to Present day English All the studies offer careful discussions of methodological and theoretical issues as well as detailed descriptions of specific speech acts The first part of the volume is devoted to directives and commissives i e speech acts such as requests commands and promises The second part is devoted to expressives and assertives and deals with speech acts such as greetings compliments and apologies The third part finally contains technical reports that deal primarily with the problem of extracting speech acts from historical corpora *Dictating to the Mob* Jrg Rainer Schwyter,2016 This book is the first detailed history of The BBC s Advisory Committee on Spoken English which was set up to provide an authoritative guide to pronunciation and the use of language for BBC announcers It draws upon a wealth of primary sources made available by the BBC Written Archives Centre as well as other published materials **World Englishes Problems, Properties and Prospects** Thomas Hoffmann,Lucia Siebers,2009-09-23 World Englishes is a vibrant research field that has attracted scholars from many different linguistic subdisciplines Emphasizing the common ground of all research on World Englishes the 22 articles in this collected volume selected from more than a hundred papers presented at the 2007 conference of the International Association for World Englishes in Regensburg cover a broad range of topics which together reflect the state of the art of research in this field The volume focuses on regions as diverse as Africa

the Caribbean the Antipodes and Asia but also promotes a globally comparative perspective by analyzing selected characteristics of the English language across a wide range of varieties Methodologically a number of different approaches are applied including corpus linguistic studies socio phonetics as well as historical discourse analysis Due to its wide scope the book is of interest not only to World Englishes scholars but also to sociolinguists as well as applied contact or corpus linguists   The Prodigal Tongue Lynne Murphy,2018-04-10 CHOSEN BY THE ECONOMIST AS A BEST BOOK OF THE YEAR An American linguist teaching in England explores the sibling rivalry between British and American English English accents are the sexiest Americans have ruined the English language Such claims about the English language are often repeated but rarely examined Professor Lynne Murphy is on the linguistic front line In The Prodigal Tongue she explores the fiction and reality of the special relationship between British and American English By examining the causes and symptoms of American Verbal Inferiority Complex and its flipside British Verbal Superiority Complex Murphy unravels the prejudices stereotypes and insecurities that shape our attitudes to our own language With great humo u r and new insights Lynne Murphy looks at the social political and linguistic forces that have driven American and British English in different directions how Americans got from centre to center why British accents are growing away from American ones and what different things we mean when we say estate frown or middle class Is anyone winning this war of the words Will Yanks and Brits ever really understand each other   **Social and structural aspects of language contact and change** Bettina Migge,Shelome Gooden,2022-10-20 This book brings together papers that discuss social and structural aspects of language contact and language change Several papers look at the relevance of historical documents to determine the linguistic nature of early contact varieties while others investigate the specific processes of contact induced change that were involved in the emergence and development of these languages A third set of papers look at how new datasets and greater sensitivity to social issues can help to re assess persistent theoretical and empirical questions as well as help to open up new avenues of research In particular they highlight the heterogeneity of contemporary language practices and attitudes often obscured in sociolinguistic research The contributions all focus on language variation and change but investigate it from a variety of disciplinary and empirical perspectives and cover a range of linguistic contexts   **English and American Studies** Martin Middeke,2016-08-17 Das ganze Studium der Anglistik und Amerikanistik in einem Band Ob englische und amerikanische Literatur Sprachwissenschaft Literatur und Kulturtheorie Fachdidaktik oder die Analyse von Filmen und kulturellen Ph nomenen f hrende Fachvertreter geben in englischer Sprache einen ausf hrlichen berblick ber alle relevanten Teildisziplinen BA und MA Studierende finden hier die wichtigsten Grundlagen und Wissensgebiete auf einen Blick Durch die bersichtliche Darstellung und das Sachregister optimal f r das systematische Lernen und zum Nachschlagen geeignet   **Patterns in Language and Linguistics** Beatrix Busse,Ruth Moehlig-Falke,2019-12-16 Despite its importance for language and cognition the theoretical concept of pattern has received little attention in linguistics so far The articles in this volume demonstrate the

multifariousness of linguistic patterns in lexicology corpus linguistics sociolinguistics text linguistics pragmatics construction grammar phonology and language acquisition and develop new perspectives on pattern as a linguistic concept

   Compliments and Positive Assessments Susanne Strubel-Burgdorf,2018-07-18 Compliments are among the most widely studied speech acts in pragmatics The present study takes a new sequential approach by investigating compliments in context considering compliment form as part of a Positive Remark continuum with the respective Response Strategy uttered in response Analyzed quantitatively and qualitatively in multi party conversations of the Santa Barbara Corpus of American English the sequences suggest a connection between the address and reference terms in the Positive Remarks and the strategies chosen as a response   *The Variability of Current World Englishes* Eugene Green,Charles F. Meyer,2014-08-27 Faces of English explores the phenomenon of increasing dialects varieties and creoles even as the spread of globalization supports an apparently growing uniformity among nations The book s chapters supply descriptions of Jamaican English in Toronto English as an L2 in a South African mining township Chinese and English contact in Singapore unexpected emergent variants in Canadian English and innovations in the English of West Virginia Further the book offers some perspective on internet English as well as on abiding uniformities in the lexicon and grammar of standard varieties In the analyses of this heterogeneous growth such considerations as speakers sociolinguistic profiles phonological morpho syntactic and lexical variables frequencies and typological patterns provide ample insight in the current status of English both in oral and electronic communities The opening chapter presents a theoretical framework that argues for linguistic typology as conceptually resourceful in accommodating techniques of analysis and in distinguishing the wide arrays of English found throughout the globe One clear function for Faces of English is that of a catalyst to spur studies of diversities in English and in other languages to suggest approaches to adapt to invite counterargument and developments in analysis   Indexing Authenticity Véronique Lacoste,Jakob Leimgruber,Thiemo Breyer,2014-10-14 The concept of authenticity has received some attention in recent academic discourse yet it has often been left under defined from a sociolinguistic perspective This volume presents the contributions of a wide range of scholars who exchanged their views on the topic at a conference in Freiburg Germany in November 2011 The authors address three leading questions What are the local meanings of authenticity embedded in large cultural and social structures What is the meaning of linguistic authenticity in delocalised and or deterritorialised settings How is authenticity indexed in other contexts of language expression e g in writing or in political discourse These questions are tackled by recognised experts in the fields of sociolinguistics linguistic anthropology and contact linguistics While by no means exhaustive the volume offers a large array of case studies that contribute significantly to our understanding of the meaning of authenticity in language production and perception   **Variation in Time and Space** Anna Čermáková,Markéta Malá,2020-12-07 Variation in Time and Space Observing the World through Corpora is a collection of articles that address the theme of linguistic variation in English in its broadest sense Current research in

English language presented in the book explores a fascinating number of topics whose unifying element is the corpus linguistic methodology Part I of this volume Meaning in Time and Space introduces the two dimensions of variation time and space relating them to the negotiation of meaning in discourse and questions of intertextuality Part II Variation in Time approaches the English language from a diachronic point of view the time periods covered vary considerably ranging from 16th century up to present day so do the genres explored Part III Variation in Space focuses on global varieties of English and includes a contrastive point of view The range of topics is again broad from specific lexico grammatical structures to the variation in academic English combining the regional and genre dimensions of variation This is a timely volume that shows the breadth and depth in current corpus based research of English **Words, Words, Words: Philology and Beyond** Sarah Chevalier,Thomas Honegger,2012-02-15 This Festschrift comprises a series of papers written in honour of the philologist Andreas Fischer on the occasion of his sixty fifth birthday As in Andreas Fischer s own research the main focus of the volume is on words words in modern varieties such as emergent conjunctions in Australian American and British English words in their cultural and historical context such as English keywords in Old Norse literature and words in a diachronic perspective such as Romance suffixation in the history of English Many contributions are anchored in the philological tradition that has informed much of Andreas Fischer s own scholarship such as the study of verbal duelling in the late thirteenth century romance Kyng Alisaunder Others examine the construction ofdiscourses such as those surrounding the Black Death The volume with its innovative studies offers fascinating insights into words discourses and their contexts both past and present **Complex Adpositions in European Languages** Benjamin Fagard,José Pinto de Lima,Dejan Stosic,Elena Smirnova,2020-10-26 While much attention has been devoted to simple nominal relators especially prepositions and case markers complex nominal relators have not yet been the focus of a systematic and cross linguistic study The chapters of this volume provide not only a working definition of such constructions but also a description of complex adpositions and other complex nominal relators in a variety of European languages both Indo European and non Indo European including some languages for which this phenomenon had received little attention such as Breton and Albanian Building on synchronic and diachronic corpus based investigations the authors show commonalities and specificities of these linguistic items across languages trying to explain why and how they emerged The research presented in this volume confirms the wide spread use of complex adpositions in Europe and the data reviewed in the final discussion suggests it might be the same in other parts of the world as well This book thus offers not only detailed descriptions of complex nominal relators in fifteen languages but also indications of what to look for in other languages and how to distinguish between a syntactically free sequence and a genuine complex nominal relator **Corpus Linguistics and the Description of English** Hans Lindquist,2018-07-02 The second edition of this successful text provides an ideal introduction for university students of English at the intermediate level Students planning papers dissertations or theses will find the book a particularly

valuable guide After introducing corpora and the rationale and basic methodology of corpus linguistics the authors present a number of recent case studies providing new insights into vocabulary collocations phraseology metaphor and metonymy syntactic structures male and female language and language change A final chapter shows how the web and social media can be used as a source for linguistic investigations and contains information on how to compile your own corpus Each chapter includes study questions exercises and updated suggestions for further reading <u>English Corpus Linguistics: Variation in Time, Space and Genre.</u> Gisle Andersen,Kristin Bech,2013 As its title suggests this book is a selection of papers that use English corpora to study language variation along three dimensions time place and genre In broad terms the book aims to bridge the gap between corpus linguistics and sociolinguistics and to increase our knowledge of the characteristics of English language It includes eleven papers which address a variety of research questions but with the commonality of a corpus based methodology Some of the contributions deal with language variation in time either by looking into historical corpora of English or by adopting the method known as diachronic comparable corpus linguistics thus illustrating how corpora can be used to illuminate either historical or recent developments of English Other studies investigate variation in space by comparing different varieties of English including some of the New Englishes such as the South Asian varieties of English Finally some of the papers deal with variation in genre by looking into the use of language for specific purposes through the inspection of medical articles social reports and academic writing
