*Antinuclear Citizens* Akihiro Ogawa,2023-06-27 Following the Great East Japan Earthquake on March 11 2011 tsunamis engulfed the Fukushima Daiichi nuclear power plant located on Japan s Pacific Coast leading to the worst nuclear disaster

the world has seen since the Chernobyl crisis of 1986 Prior to this disaster Japan had the third largest commercial nuclear program in the world surpassed only by those in the United States and France nuclear power significantly contributed to Japan's economic prosperity and nearly 30% of Japan's electricity was generated by reactors dotted across the archipelago from northern Hokkaido to southern Kyushu This long period of institutional stasis was however punctuated by the crisis of March 11 which became a critical juncture for Japanese nuclear policymaking As Akihiro Ogawa argues the primary agent for this change is what he calls antinuclear citizens a conscientious Japanese public who envision a sustainable life in a nuclear free society Drawing on over a decade of ethnographic research conducted across Japan including antinuclear rallies meetings with bureaucrats and at renewable energy production sites Ogawa presents an historical record of ordinary people's actions as they sought to survive and navigate a new reality post Fukushima Ultimately Ogawa argues that effective sustainability efforts require collaborations that are grounded in civil society and challenge hegemonic ideology efforts that reimagine societies and landscapes especially those dominated by industrial capitalism to help build a productive symbiosis between industry and sustainability

**Japan: Eyes on the Country; Views of the 47 Prefectures**, 1997 *Recentring Tourism Geographies in the 'Asian Century'* Harnng Luh Sin, Mary Mostafanezhad, Joseph M. Cheer, 2022-04-19 This book considers what the transition into the Asian Century means for some of the most urgent issues in the world today such as sustainable development human rights gender equality and environmental change The book critiques Anglo Western centrism in tourism theory and calls on tourism scholars to make radical shifts toward more inclusive epistemology and praxis From the British Century of the 1800s to the American Century of the 1900s to the contemporary Asian Century tourism geographies are deeply entangled in broader shifts in geopolitical power In the shadow of the COVID 19 pandemic the significance of shifts in tourism geographies and the themes addressed in this volume are more urgent than ever That the world faces increasing turmoil is abundantly clear Yet amidst the disruption to the everyday it is hope and compassion but also political economic restructuring that is needed to reset the tourism industry in more sustainable equitable and ethical directions In no uncertain terms the pandemic has forever

changed the tourism industry as the world once knew it This book therefore sets out to collectively build on the momentum of the inclusive scholarship that Critical Tourism Studies Asia Pacific is renowned for while also asking readers to pause and reflect on the possibilities and challenges of tourism in a post pandemic Asian Century The chapters in this book were originally published as a special issue of the journal Tourism Geographies

**The Dilemma of Boundaries** Makoto Taniguchi,Takayuki Shiraiwa,2012-05-19 Water circulates continuously and seamlessly on Earth with little regard for the boundaries we draw There are natural boundaries as between land and ocean and surface and subsurface environments as well as human or demographic boundaries between nations cultures and religions Although considered necessary by societies these human created boundaries disrupt natural water circulation leading to serious water related environmental problems The dilemma of how to manage water beyond our boundaries remains and nations have different ways and means of controlling each form of water whether as vapor surface water groundwater or seawater Recent findings on the interaction of water from land oceans and the atmosphere encourage researchers to undertake collaborative work that goes beyond the boundaries of each discipline be it oceanography surface and subsurface hydrology climatology or glaciology Drawing on all these fields the book focuses on two major boundaries that between surface water and ground water and that between terrestrial water and ocean water This comprehensive work is of great value to experts in academia international organizations consulting firms water resources fisheries and urban development planning agencies

*Narratives of Travel and Tourism* Tijana Rakic,2016-04-22 Travel and tourism stories have been told and recorded within every culture in every period of oral and written history and across the breadth of the fact fiction continuum Taking two broad themes as its starting point travellers and their narratives and place narratives in travel and tourism the book has a deliberately wide scope with different chapters addressing the subject through various relevant lenses and in relation to a number of different contexts The narratives discussed include both historical and contemporary as well as real life and fictional narratives contained within travel writing travel and tourism stories and different types of media In relation to the principal themes of the book some chapters also explore the importance of collecting memorabilia and image making in the recording remembering writing telling or disseminating of stories about travel and tourism experiences and some examine the ways in which travel and tourism narratives may construct and reinforce personal collective and place identities The whole book is marked by an over arching concern for narrative

interpretation as a means of understanding and providing a new perspective on travel and tourism □□□□□□□□□□,2010-03

*Plant Explorations* United States. Plant Introduction Garden, Glenn Dale, Md, John L. Creech, 1957      *Handbook of Clinical Neurology: Systems disorders and atrophies* P. J. Vinken, G. W. Bruyn, 1968      The Samurai Castle Master Chris Glenn, 2023-01-05 When the samurai warlord and respected castle architect Todo Takatora died in 1630 the funeral attendants responsible for preparing his body were shocked to note that there was not a single part of his body not scarred or disfigured by sword spear glaive or matchlock gun wound Todo Takatora lived a life that unfolds like a drama Born to a small landholding samurai family the maverick youth worked his way to the top becoming one of the most successful of daimyo warlords He had served on the front lines of some of the most violent of battles turning points that forged the nation In a land and time in which loyalty was held dear he changed his allegiances a record seven times serving a record ten lords more than any other samurai in history Because of this he has long been held in contempt by the Japanese Standing 6 feet tall in a time when the average Japanese man stood between 5 and 5 1 2 feet Todo Takatora was a giant among men He died aged 74 when the normal life span was around 50 He was also the finest most innovative of castle architects responsible for the design and construction of over 30 of the strongest most innovative Japanese castles and structures and influencing samurai castle construction across Japan In explaining his life his reasons for having served so many lords his achievements in battle and in castle design his political and personal ideals and how these attributes were shaped during the course of his adventurous life this book will reveal the man and show why Takatora deserves the epithet of National Hero In this fascinating biography the first ever published in the English language Chris Glenn explores Todo Takatora s remarkable and influential life the battles he fought in the political intrigues he was part of as well as detailing the magnificent castles he built      The Japanese Culture of Mourning Whales Mayumi Itoh, 2017-12-05 This book provides an in depth study of Japanese whaling culture emphasizing how the Japanese have considered whales and whaling in relation to their understanding of nature and religion It examines why and how the Japanese have mourned the deaths of whales treating them as if they were human beings and assesses the relevance of this culture to nature conservation and management of sustainable use of natural resources It also sheds new light on Japanese whaling one of the most controversial issues in the contemporary world by highlighting the hitherto unknown aspects of Japanese beliefs about whales and whaling which constitute an integral part of their core concept of how they should coexist with nature Through cross examining previous studies of Japanese whaling as well as analyzing new documents and conducting field research on location this book presents a comprehensive survey of Japanese whaling culture and memorial rites for whales and offers viable insights on how the Japanese whaling culture can be applied to solving current global issues including nature conservation management of sustainable use of natural resources and protection of wildlife and its habitats      *Avoiding the Dire Straits* Mathieu Torck, 2009 Scurvy is known to be one of the most gruesome pathological phenomena that in the course of centuries has

made innumerable victims Long distance seafaring operations war zones prisons and crop failures all created breeding grounds for the vitamin C deficiency disease which was commonly characterized by swelling and bleeding gums and internal haemorrhages in the limbs While the history of scurvy is rather well known from a Western perspective the higher proneness to scurvy of Asian peoples in comparison to Europeans Polynesians and other peoples as proven in recent biochemical studies compelled to broaden that horizon and look for scurvy in China and beyond The purpose of this book is to trace the history of the disease in China Japan and Southeast Asia and to highlight the ways in which peoples from these regions in pre modern and early modern times dealt with provisioning in their seafaring and military enterprises This cross cultural quest for scurvy and food supplies involving such areas as maritime and military history and the medical traditions from East and West is ultimately meant as an attempt to elucidate whether historical sources can confirm the biochemical findings
