Civic Agriculture Thomas A. Lyson, 2012-05-22 A engaging analysis of food production in the United States emphasizing that sustainable agricultural development is important to community health      *Civil Society, Philanthropy, and the Fate of the Commons* Bruce R. Sievers, 2010-03-09 Traces the historical development of civil society and philanthropy in the West and analyzes their role in solving the problems faced by modern liberal democracy      The Internet Generation Henry Milner, 2010-07-31 An investigation of political disengagement among young people in North America and Europe      **Social Enterprise** Janelle A. Kerlin, 2009-11-15 The first comparative look at how social enterprise is shaped by local conditions worldwide      **Uncharitable** Dan Pallotta, 2010 A courageous call to free charity from its ideological and economic constraints      From Command to Community Nicholas V. Longo, Cynthia M. Gibson, 2011 Diverse essays create a new definition of leadership education based in colleges and universities      **Women, Philanthropy, and Social Change** Elayne Clift, 2005 The definitive book on women and philanthropy essential reading for scholars students donors grantees and philanthropists      *Citizen Environmentalists* James Longhurst, 2012-06-22 A telling look at the lives and strategies of women environmental activists in the long 1960s solidly grounded in a national context      Smallville Carl Milofsky, 2008 Familiar organizational theories often do not fit comfortably when applied to community level associations or small local nonprofit organizations In *Smallville* Carl Milofsky empirically and theoretically studies the organizational dynamics involved in this common American model Organizations functioning within a community are usually treated as separate units but when they all exist in the same place and tend to be made up of the same people who are living out different aspects of their identities in various settings a new analytical paradigm is required Milofsky's study culminates in the formulation of an innovative way of understanding this phenomenon an essential pioneering theory of transorganizations      **Fifty Years in Public Causes** Brian O'Connell, 2005 Stories from a fascinating life devoted to providing opportunities for citizens to improve their lives strengthen their communities and empower democracy      *Acting Civically* Susan A. Ostrander, Kent E. Portney, 2007 New multidisciplinary scholarship on civic engagement in America      **The Future of Democracy** Peter Levine, 2015-01-06 We need young people to be civically engaged in order to define and address public problems Their participation is important for democracy for institutions such as schools and for young people themselves who are more likely to succeed in life if they are engaged in their communities In *The Future of Democracy* Peter Levine scholar and practitioner sounds the alarm in recent years young Americans have become dangerously less engaged They are tolerant patriotic and idealistic and some have invented such novel and impressive forms of civic engagement as blogs boycott movements and transnational youth networks But most lack the skills and opportunities they need to participate in politics or address public problems Levine's timely manifesto clearly explains the causes symptoms and repercussions of this damaging trend and most importantly the means

whereby America can confront and reverse it Levine demonstrates how to change young people's civic attitudes skills and knowledge and equally importantly to reform our institutions so that civic engagement is rewarding and effective We must both prepare citizens for politics and improve politics for citizens      *Strong Liberalism* Jason A. Scorza, 2008 In this age of total war on terrorism many liberals fail to recognize the dangers of adopting the methods of their enemies of meeting propaganda with propaganda cruelty with cruelty and violence with violence Other liberals reject even modest efforts to teach and regulate good citizenship fearing that in doing so they will come to resemble their enemies Can liberal democracy be strengthened and secured without either compromising basic liberal principles or emasculating fundamental liberal purposes The great totalitarian regimes of the twentieth century are gone but the need for strong liberalism has never been more urgent Jason A Scorza argues that liberalism can generate an account of citizenship responsive to such pressing contemporary challenges as political fear political apathy and conformist political membership Strong Liberalism is founded on understanding thoroughly the canonical defenders of liberal democracy John Stuart Mill John Rawls and Judith Shklar moving beyond the thinking of prominent contemporary theorists Stephen Macedo William Galston and Thomas Spragens and parrying the arguments of liberalism's critics Benjamin Barber Michael Sandel and Mary Ann Glendon Scorza imparts a sharp theory of strong liberalism that summons liberal philosophy to the battlefield of the inner life of politics and recalls it to its own essential but often overlooked strengths civic friendship political courage political self reliance civic toleration and political irreverence The theory of strong liberalism accepts that civic strength is rooted in civic pluralism Liberal democracy is best served by the cultivation of multiple examples of good citizenship rather than by the insistence that a single ideal civic character can be identified and universally imposed through civic education      *Civil Society and Social Movements in Food System Governance* Peter Andrée, Jill K. Clark, Charles Z. Levkoe, Kristen Lowitt, 2019-01-30 This book offers insights into the governance of contemporary food systems and their ongoing transformation by social movements As global food systems face multiple threats and challenges there is an opportunity for social movements and civil society to play a more active role in building social justice and ecological sustainability Drawing on case studies from Canada the United States Europe and New Zealand this edited collection showcases promising ways forward for civil society actors to engage in governance The authors address topics including the variety of forms that governance engagement takes from multi stakeholderism to co governance to polycentrism self governance the values and power dynamics that underpin these different types of governance processes effective approaches for achieving desired values and goals and the broader relationships and networks that may be activated to support change By examining and comparing a variety of governance innovations at a range of scales the book offers insights for those considering contemporary food systems and their ongoing transformation It is suitable for food studies students and researchers within geography environmental studies anthropology policy studies planning health sciences and sociology and will also be of interest to policy makers and civil society organisations with a focus on food
