Impersonality in Modern Poetry V. Joshua Adams, 2025-06-12 Modern literature is often described in terms of its impersonality What is the significance of this fact In Skepticism and Impersonality V Joshua Adams follows the history of impersonality in modern poetry from Mallarmé and Eliot through to the present engaging with work by major poets and critics but also contemporary philosophers Rather than seeing impersonality exclusively as a literary historical phenomenon Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences our knowledge of other minds the capacity of our language to describe the world the relationship between mind and body and the fictionality and continuity of our sense of self Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt The writers discussed transform this doubt into art whilst also ironizing it as corrosive and self defeating Ultimately this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project Skepticism and Impersonality promises a new theoretical justification for our practical interest in literary texts to

renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be **Music's Making** Michael Cherlin, 2024-07-01 A personal voyage of discovery drawing on musicology literary theory Jewish studies and philosophical phenomenology As a work of musical theory or meta theory Music s Making draws extensively on work done in philosophy and literary criticism in addition to the scholarship of musicologists and music theorists Music s Making is divided into two large parts The first half develops global attitudes toward music emergence out of self and hearing through drawing on Kabbalah and other sources middle voice as discussed in philosophical phenomenology liminal space as discussed in literary theory an ethics of intersubjectivity drawing on Levinas and character canon and metaleptic transformations drawing chiefly on Harold Bloom The second half embodies a search for metaphors figurative language toward understanding music s endlessly variegated shaping of time space The musicians and scholars who inform this part of the book include Pierre Boulez Gilles Deleuze Anton Webern Morton Feldman and James Dillon The book closes with an extended inquiry into the metaphors of horizontal and vertical experience and the spiritual qualities of musical experience expressed through those metaphors **Scientifically Speaking** C.C. The Palgrave Handbook of Creativity at Work Lee Martin, Nick Wilson, 2018-07-20 This Handbook provides authoritative up to date scholarship and debate concerning creativity at work and offers a timely opportunity to re evaluate our understanding of creativity work and the pivotal relationship between them Far from being a new arrival on the scene the context of work has always been a place shaped and sharpened by creativity as well as a site that determines where when how and for whom creativity emerges Structured in four parts Working with Creativity the present Putting Creativity to Work in an organizational context Working in the Creative Industries creative labour and Making Creativity Work the future the Handbook is an inspirational learning resource helping us to work with creativity in innovative ways Providing a cutting edge interdisciplinary diverse and critical collection of academic and practitioner insights this Handbook ultimately conveys a message of hope if we take better care of creativity our creativity will better care for us Rage and Ravage Bernard Faure, 2021-12-31 Written by one of the leading scholars of Japanese religion Rage and Ravage is the third installment of a milestone project in our understanding of the mythico ritual system of esoteric Buddhism specifically the nature and roles of deities in the religious world of medieval Japan and beyond Bernard Faure introduces readers to medieval Japanese religiosity and shows the centrality of the gods in religious discourse and ritual in doing so he moves away from the usual textual historical and sociological approaches that constitute the method of current religious studies Throughout he engages theoretical insights drawn from structuralism post structuralism and Actor Network Theory to retrieve the implicit pantheon

as opposed to the explicit orthodox pantheon of esoteric Japanese Buddhism Mikkyō In volumes one and two The Fluid Pantheon and Protectors and Predators Faure argued against a polarity or dichotomy between buddhas and kami by emphasizing the existence of deities that did not belong to either category and he rejected the retrospective notion of hybridity The present work makes a similar case about the reified distinction between gods and demons to show that due to the fluid nature of the Japanese pantheon these terms do not represent stable identities Gods can become demons and demons are sometimes deified Divine protectors were often former predators and in some instances they retained their predatory features even after being converted After emphasizing the demonic aspects of devas as gods or spirits of obstacles in the earlier volumes Faure now focuses on the deva like or divine aspects of deities that have been described as demonic Rage and Ravage and its companion volumes persuade readers that the gods constituted a central part of medieval Japanese religion and that the latter cannot be reduced to a simplistic confrontation parallelism or complementarity between some monolithic teachings known as Buddhism and Shinto Once these reductionist labels and categories are discarded a new and fascinating religious landscape begins to unfold
